Subject: RE: IU Targeting Questions

Hi Kettie,

Sure thing – attached is an SIU inventory that was completed by PG Environmental in 2010. Nor-Cal Products (now located in Yreka) has been submitting compliance reports to the Regional Board since then, and copies EPA (latest report also attached). You're correct that Ukiah and Fort Bragg don't have formal pretreatment programs.

I don't have any other information beyond this regarding IU targeting, but I hope this is a good starting place. I'm cc-ing Cathy and Justin at the Regional Board to loop them in, and in case they have any other input.

Many thanks,

Amelia Whitson

Subject: IU Targeting Questions

Amelia,

I hope all is well. We had a conversation with Jim this morning about targeting IUs for the inspections we'll be conducting in the Northern California area during the week of August 13th. I was wondering if you had any specific information regarding nondomestic dischargers/IUs/etc. for Ukiah and Fort Bragg?

As I understand it, Ukiah and Fort Bragg don't have formal programs, correct? We'll also be looking at Arcata and Eureka, so if you have any specific concerns about those areas or have any additional information about IU targeting, that would also be greatly appreciated!

Thanks,
Kettie
