Hi Heather – it was great to talk with you last week ☺ … I have some spread sheets, they're all dated 2013 so I'll go through them and see what I can update.

I agree with Jonathan's list of PRPs, EPA, Tribes, and IDEQ – in addition I'd add state and federal representatives, county commissioners, local government, health authorities, maybe the Chamber of Commerce. There may be hunter / fisher / environmentalist groups that have been interested, I'll check my files. I have some of these and will get you what I have … probably not until tomorrow …

Subject: Do you have a list of FMC stakeholders

Hi Kay, How are you? Do you have a list, maybe from a past project on the

CERCLA side, of who all of the stakeholders identified were, for work at the FMC facility, or even if it was the entire EMF site?

Thanks, Hope you are having a great day!
