Attachments: Restore the Rapids City of Grand Rapids 11-41-0105-P Final.pdf

Hi Liz,

FYI, attached is the letter you had requested from 2014. As you will see, the letter provides a brief summary of concerns we have with the proposed design, at least at the time the letter was written. The design has changed some since 2014, but many of these core issues have not been addressed, or at least adequately addressed, to date. A permit application has not been submitted for either the downstream (RCPP reach) or the upstream (AHS reach), so I'd assume that the designs are still in flux.

As you can imagine, we have had several other written and verbal correspondence since this letter was sent out. Please feel free to call or email with any questions or concerns.

Thanks,
Luke

Subject: DEQ 2014 correspondence for Grand River restoration

Hi Luke,

When we chatted at the USACE public scoping meeting you'd mentioned some older correspondence DEQ had sent out regarding the Grand River project. Can you email me a copy of that, and any other, prior agency correspondence?

Thanks!
Liz
