I'm sorry Ronna. These are some of the tightest schedules to work with.

We can't move forward with 5/26.

Can you let me know if the following work for your team.

5/25: 2:30-3:30pm

If you want to discuss feel free to reach me to make this quicker.

Confirmed!!!

Is it best that I include you in a Teams invite and you can share internally?

Thank you for your hard work and patience with this.

Really appreciated,

Ronna Beckmann

[Warning: External email]

Thank you – We'd very much appreciate scheduling the meeting for an hour if at all possible. We're concerned that this project is too big for a 30-minute initial call.

Hello,

Unfortunately no.

5/26; 12:30-1pm is our next best time and a team invite works best.

[Warning: External email]

Hi, James. If it still works for the City, our team is available on 5/26 from 2 to 3pm. What is the City's preferred way to set up a meeting? I'm happy to share a Teams invite if you would like to share email addresses.

Thank you,

Hello Ronna,

Unfortunately Dave is still out on 5/24. Share our availability below.

- 5/26; 2-3pm (preferred)
- 5/27; 9:30-10:30am
- 5/28; 12-1pm

Let me know what works.

Best,
JE

[Warning: External email]

Hi Megan – Thank you. Ronna Beckmann will help with scheduling for us. It looks like anytime the afternoon of the 24th would be good on my calendar.

In terms of background info, there's extensive material here with EPA perspective & experience on HIAs. HIAs provide a process through which EJ and/or health equity concerns can be fully considered across a wide range of decision-making contexts. I've attached 2 presentations from a 2015 Region 5 training that describe EPA's thinking. I will be drawing on EPA's expertise across Regions to support Chicago; and will follow up with any other information that may be helpful for our meeting.

For EJ analysis, at a screening level EPA's primary tool for assessing the potential for disproportionate impacts is EJSCREEN. As I am thinking about this, our next step is to discuss scoping – identifying which environmental and public health effects to consider, and setting the basic parameters of the HIA. From there we can identify what support from EPA will be most helpful.

Best,
Alan

Hi Alan,

Thank you for following up - we look forward to this conversation.

I'm looping in James Esparza, who can assist with scheduling on our end. Assistant Commissioner Dave Graham is out of the office this week, so perhaps we can find time next Monday or Tuesday (5/24 or 5/25)? Please let us know your availability.

In the meantime, we are interested to learn more about the types of EJ/health impact assessments that you (or other EPA regional offices) have previously supported. We're glad to review any materials you can share with us now to prepare for our discussion.

Let us know, too, if there's any background information you'd like us to pull together to make our meeting as productive as possible.

[Warning: External email]

Alyssa:

We appreciate the Chicago Department of Public Health's interest in getting connected to the right folks at EPA Region 5. Our team stands ready to provide assistance to the City's efforts in conducting an environmental justice analysis as described in the Administrator's May 7 letter. By this email, I am connecting you with our team at R5 who can carry forward on next steps:

- Alan Walts, R5 Director of the Tribal and Multimedia Office (walts.alan@epa.gov; 312-353-8894)
- Eileen Furey, Deputy Director, R5 Air and Radiation Division (furey.eileen@epa.gov; 312-886-7950)
- Ronna Beckmann, R5 intergovernmental liaison for IL (Beckman.ronna@epa.gov; 312-886-0689)

Alan will be our primary lead on this effort. Eileen and Ronna will be available to support.

I'll let you take it from here in helping the three of them get connected to CDPH. Thanks again and please reach out anytime if I can be of further assistance.

Casey
