Lauren and all CD recipients:

EPA has identified approx 30 pages that are illegible on disk 2 in the file called "Contract #1 file C&S Ley Creek.621 pgs.ocr.pdf". The originals are not any more legible. However, I reviewed the subject pages and am confident that the mostly illegible pages are duplicates of the field notebook pages that can be found in the disk 2 file called "Contract #1C&S Field Books C&S Ley Creek.98 pgs.ocr.pdf". If one compares the dates at the top of the generally illegible pages and the text that is legible with the same date in the fully legible file they should be able to draw the same conclusion.

Hi Kevin,

Pam Tames got back to me with more specifics about the pages she was unable to read. She said its is located on disk 2 in the file called "Contract #1 file C&S Ley Creek.621 pgs.ocr.pdf". It looks like a field notebook and starts at page 90 and continues to page 120 of 621. She can't tell if it is a duplicated of the other field notebooks on the CDs (which she was able to read).

Thanks for your help.
Lauren

Subject: Follow-up re Onondaga County Provided CDs

Lauren:

Following our conversation this afternoon, we reviewed the copies of the second CD that were kept for our files and copied at the same time the copies were made for USDOJ, USEPA and the NYS Department of Law. The second CD contains copies of two log books, one relates to Contract No. 1 and the second relates to Contract No. 2. Both documents were found to be legible on our CD copies.

Under separate e-mail cover I will forward an electronic copy of each such Field Book for a total of three e-mails. I do not know if they will get through your e-mail system filters or size limitations. If you only receive one e-mail from me we will know the answer. If the multiple e-mails do not solve the issue, please ask the reviewing party at your end e-mail me the identify the file(s) in question. If necessary, we can make and send a hard copy.
