BPPD- Rick is under the impression that the documents will be loaded in the docket TODAY. Can you confirm the timing?

If you don't think the documents will be ready in the docket, we may have to come up with an alternative to make the materials available online (like posting on a temporary web page today), to meet Alex's expectations.

Since BPPD has contacted both Region 4 and Region 6, does this mean that GISB does not need to do those regional contacts? Yvette had not hit "send" yet.

Does BPPD have the county points of contact? If so, can you all either pass those along to us so GISB can pass along to the regions, or preferably, could BPPD make those contacts this morning?

Let's definitely go ahead and initiate notification to the regions now.

Ex. 5 Deliberative Process (DP)

All,

Please note that GISB does not have contacts at the county level in a given state. I doubt that regionals have such contacts. In addition, the general protocol requires us to contact the state through the regional office given their grantee relationship.

We can direct Regions 4 and 6 to get the word out to the FL and TX to these county officials, but there is no guarantee it will happen by 10:30 AM.

Perhaps it might be more reliable to do this via OCIR?

Yvette

OPA has directed us to issue our listerv NLT than 10:30 this morning. With this timing in mind, please see today's adjusted notification schedule.. Greg/Kaythi- please let me know when each of these notifications have occurred.

After chatting with OPA, they would like our listserveto go out NLT 10:30 am today. So, using that timing, let's adjust our notification timing to the following. Please confirm with me when notifications have happened. The sequencing is important here.
