Subject: Seneca Nation UIC Consultation Opportunity – Roulette Oil & Gas

President Pagels,

EPA Region 3 is providing an upcoming consultation opportunity on the proposed Underground Injection Control ("UIC") permit for Roulette Oil & Gas Company, LLC, ("Roulette").

On September 18, 2020, Roulette submitted a UIC permit application for the conversion of one active production well to a class II-D disposal injection well located in the Clara Field in Clara Township, Potter County, Pennsylvania. A public notice for the draft permit was published in the Potter Leader-Enterprise newspaper and on the EPA's website on December 31, 2020. A virtual public hearing via teleconference was held on February 2, 2021. Please see the attached consultation opportunity letter.

The EPA contact person for the consultation and coordination process for this UIC action will be Mr. Kevin Rowsey, Senior Permitting Specialist for the UIC program. Please contact Mr. Rowsey at rowsey.kevin@epa.gov or 215-814-5463 for additional information on the Roulette Oil & Gas UIC Permit or the UIC program in general.

We look forward to hearing from you, and working together with you, on this important matter.

Diana Esher
Acting Regional Administrator
US EPA Region 3
