4. Summary of findings:

a. [redacted] verified two PFT NAVMCs dated 23 May 2022. Each NAVMC had three different Marines listed. The Marines on the NAVMCs are [redacted]

b. One NAVMC had [redacted] name as a participant, along with [redacted] proctored by [redacted] The other NAVMC had [redacted] as the proctor with [redacted] as the participants (enclosure 11).

c. [redacted] proctored a PFT the morning of 23 May 2022 for LLES 4-22 (enclosure 12-13, 17-18).

d. [redacted] routinely proctor PFT's at the same time and location. The morning of 23 May 2022, both Sergeants proctored separate PFTs collocated at the SNCO academy and ran at 0530 (enclosures 2-9).

e. [redacted] was unable to provide definitive rosters for LLES 4-22 and LLES 5-22 and there is no finalized rosters located in the 9th ESB Sharepoint or Sharedrive.

f. [redacted] in his initial statement on 29 July 2022 stated he did not run a PFT in May but during the June LLES (5-22). SNM went on to mentioned names of those he ran it with, none of those individuals were found on the master PFT roster for LLES 4-22 on 23 May 2022 (enclosure 8, 12). In a second statement on 10 August 2022, SNM was presented with the MCTIFS record showing that he completed LLES with the LLES 4-22 class (enclosure 20). SNM acknowledged his first statement was incorrect. SNM went on to list in more detail individuals he remembered had attended LLES with him; these Marines were on the master PFT roster for LLES 4-22. SNM also remembered there was another [redacted] who attended LLES with himself (enclosure 19).

g. The scores on the submitted NAVMC with [redacted] name do not match the scores recorded on the master PFT roster for LLES 4-22. They do match the other [redacted] scores. The NAVMC does not have any other PII for this [redacted] (enclosure 12).

h. [redacted] when interviewed initially stated that he remembered clearly running the PFT in June. SNM clearly remembered running the PFT in the afternoon after his obligations to LLES were completed. When presented with the typed summary of the interview for signature, SNM refused to sign because SNM remembered the score in MOL was for 23 May 2022. The statement was retyped to reflect more clearly the statement of uncertainty that SNM ran the PFT in June. [redacted] provided an additional statement claiming he ran the PFT on 23 May 2022 (enclosure 9).

i. [redacted] sent an email to the individuals participating in LLES 4-22 with [redacted] signature block and incorrect report dates (enclosure 17).

j. There is no requirement in MCO 6100.13A for how multiple PFTs proctored in a singular day must be submitted by the Command Physical Training Representative (reference b).

5. Recommendation:

a. I recommend that no further investigation be conduct and that a negative counseling be given to [redacted] for erroneous records keeping. From the inaccuracies found in the NAVMCs and the official email for LLES, it is clear that [redacted] is error prone. This does not prove that [redacted] deliberately processed a fraudulent NAVMC. There is no evidence that a command investigation would reveal further facts that have not been identified in this inquiry. According to the testimonies, [redacted] did not run his PFT with the LLES 4-22 class but conducted his PFT later that day with no other witnesses besides [redacted], further investigation would only be based on speculation since there is no concrete evidence to disprove this claim.

b. I recommend putting a system in place for LLES proctors to have two scribes who can record scores for individuals who want to get a score and for those who have to run a PFT simply for the course. This will prevent errors in transcribing the data from the master roster onto the actual processed score sheet as seen in the errors found in the contentious NAVMCs.

c. Finally, I recommend removing [redacted] recorded PFT of 199. This PFT does not reflect the master PFT roster and unfairly is attributing a Third Class PFT to an individual who routinely runs a First Class PFT.

ENCLOSURE (2)

_On the morning of May 23, 2022. I participated in the Lance Corporal Leadership and Ethics seminar PFT. [redacted] was the monitor conducting the PFT as the CPTR. He was assisted by [redacted] from H&S company office. [redacted] demonstrated the pull-ups while [redacted] briefed. He briefed pull-ups but did not brief push-ups. I was there to run a partial PFT due to injuries I have suffered and I could not do pull-ups or run. But I did participate in the crunches. I had never ran a partial, so I was unsure of what the procedures where that why I trusted what [redacted] advised. After crunches he sent everyone to the run start point. Which I waited around for the completion of the run. After everyone was done we were released. I went back to work, and he passed to Marines show time for them to be in the classroom. After a few hours, I saw [redacted] at BN HQ he then gave me instructions to send him my information for the NAVMC. He also said for me to include my scores for last year in order to confirm when he inputted them that they were accurate. A week goes by I do not see movement in regards to documentation, I assumed because he was busty with the Seminar. Another week goes by I approached him and seek re-assurance everything was good. He said he was just busy hadn't gotten to it. Finally the weekend of the 4th and 5th come and that's when I spent the weekend to complete my CPTR courses on MarineNET. Where I identified the error in how the partial was conducted. I was missing the medical documentation and I needed to run two events. From June 6-8 I was unavailable due to being in the field. On June 9th i had went to medical completed my PHA, and received the waiver documentation for my Partial. I then approached [redacted] let him know, if we need to re-run the PFT that I now have the paperwork and if he can re-run it with me. He says no, he is busy. So during that morning, I immediately went to [redacted] and coordinated a PFT to be ran on Monday June 13th. I let her know about my medical situation and intent. That same day at 1330 I was approached [redacted] as the investigating officer that he was investigating allegations that I was asking [redacted] to falsify a fake PFT with scores I did not run. I explained that was not the case, and exercised my rights to remain silent. On Friday of that week June 10th I was instructed by [redacted] to ensure all the scoresheets from MCTIMS where approved and certified. As I was looking at scoresheets, I noticed one that had [redacted] as having ran a PFT. It was surprisingly on the day of

the 23rd. But [redacted] was the CPTR. It immediately peaked my interest because I did not see him there. But, I had nothing to confirm the timeline, despite him inputting it in the Calendar as the PFT for LLES. I found this odd, but scoresheet was complete, NAVMC as filled out properly, and [redacted] was a certified CPTR. I had no reason other than my suspicion to deny it. So I approved it. Another week goes by and its not the 16th of June, a Cpl approached us and asked about one of his Marines, saying he ran a PFT at The Seminar but it was not yet approved. I told him I already approved the Navmc for that PFT. He gave me the Marines name and we identified that there was a scoresheet pending, but no documentation. [redacted] lets [redacted] know and he submits a NAVMC for same event with three new names on it. That again raised my suspicion. How could there be two NAVMC's for same event, and [redacted] being on one of them. But again, I did not have enough to bring up concern. It could've easily been two different PFT's ran on same day. On June 29th, I was brought in to Sgt Major's office and notified of NJP due to these allegations. I was not shown any evidence against me or see what was said. I requested to speak to a lawyer. Which I saw the next day, because on Friday July 1st, I was going to be processed for NJP. On Thursday June 30th I got to speak to a lawyer at Defense services organization in camp foster. But he had to request the evidence since it had not been given it to me. It took almost 2 hours for them to send it over, and unfortunately the lawyer had to send me away because there were other Marines he needed to help. He calls me later to brief me on the findings. He claimed [redacted] made a statement. Which I thought was odd. Because [redacted] was not at PFT why would he make a statement? But without seeing the evidence I could not see what he said. The next day my proceedings occurred and I was NJP'd. No matter how hard I tried to defend my case, or if I hinted at perhaps there was wrong doing on [redacted] end I was shut down unable to defend what I suspected. I knew without hard evidence I could not substantiate these suspicions. A week goes by and I have so many questions why this happened to me. I needed to see what recourse I had to protect my career and defend myself against the false allegations. On July 7th I went to see a lawyer again, this time he was able to physically show me the investigation. I saw what [redacted] said, he said he was at PFT and that I was not there. Which was already a concerning statement, that contradicted with [redacted] saying I was. But now I remembered about that NAVMC with [redacted]

name on it. Lawyer said I should come back next week and bring what documents I think would substantiate my claims. I return Tuesday July 12th, with the NAVMC and MCTIMS screenshots. I referenced them with a NAVMC that was submitted as evidence(This NAVMC was used as how to determine who was at the 0530 PFT)by [redacted] I noticed the two Marines that where on the NAVMC with [redacted] were also on the other 0530 NAVMC. I also noticed that [redacted] second from the top on the NAVMC his EDIPI and name was used, but the scores from another [redacted] was ran. I confirmed on MOL, and [redacted] was ran as a 199 PFT, going down from a 280. An 81 point drop. This was not good, considering the scores where clearly on the NAVMC presented as evidence. The second Marine [redacted] was also on the 0530 NAVMC, so how could he be on the one with [redacted] Also even if it was ran at different time, how could his scores be exactly the same as he did earlier that day. My next question, is if both PFT's where ran at 0530 as it is according to MCTIMS calendar. How could [redacted] monitor and run a PFT at the same time. Which wasn't possible since I was there and he was dressed in boots and utes. I would have had presented this at proceedings but without seeing evidence and very little time to defend myself. Lawyer said for me to show that something was off. That this was not a fair process and my accusations are unwarranted given the Marine who began them is up to worse that what he accused me of. Lawyer said the best thing to do was to present this to my command and allow them to handle it. In the past [redacted] along with [redacted] have made errors in administration people have complained about them. It should be looked into what PFT's they have ran in the past. I would not be surprised if there are more than one questionable NAVMC's or scoresheets.

Interview with [redacted]

SNM filled out written statement along with Article 31 Rights understanding due to involvement in the inquiry. SNM answered these following clarifying questions.

Did the 23 May PFT run in two or more groups?

No, everyone ran the PFT together.

Do you remember anyone else who ran the PFT that morning?

Yes, SNM spoke with [redacted] and [redacted] but had limited conversations with both individuals.

Who proctored the PFT and who assisted?

[redacted] proctored the PFT and [redacted] assisted. Another female Marine was there as a scribe but name was not noted.

As a CPTR, what are the regulations on processing NAVMCs from two PFTs ran on the same day?

A separate NAVMC must be processed for each time the test is proctored even if they are proctored back to back according to regulation but there is no control in place to stop individuals from processing it as one NAVMC.

Continued on next page (If statement provided)

Understanding my rights under U.C.M.J. Article 31, I wish to make the following statement:

20220729 1300

[redacted]

SNM was unaware of why I was contacting him. I discussed the general statement that an inquiry was being made into the potential fraudulent handling of material surrounding a training event. I then read SNM the Article 31 rights; SNM waived his right to remain silent and expressed willingness to answer questions.

When did you run your PFT for 2022?

Around June 22nd but SNM was unsure as to the exact date outside that was during a LCpl Seminar.

Who proctored your PFT?

[redacted] by himself.

Was there anyone else there who was with you?

The PFT was a solo PFT with no one else running with SNM and no one assisting proctoring.

What else happened that day?

SNM proctored a PFT in the morning for LCpl Seminar and ran his in the afternoon because he wasn't comfortable running a PFT around the Junior Marines.

What was your PFT score? And was that score normal?

SNM recalls he barely ran a second class PFT. It was worse than last year due to his recent shoulder injury. Remembers it was his first time SNM did the planks and he did the max.

What dates were the LCpl Seminar this past year?

SNM provided a picture of the dates. May was 20-27, June was 10-17. After bringing these dates up SNM realized his original date was incorrect but restated he remembered running the PFT in June during LCpl Seminar.

How often do you proctor PFTs?

Every LCpl Seminar and to help with H&S/Battalion PFTs.

How many times have you incorrectly submitted paperwork due to processing the NAVMC wrong.

Rarely that SNM remembers. SNM remembers he has found mistakes and re-uploaded them himself. Maybe once Bn S-3 has had to push it back down that SNM recalls.

Do you process everyone's score who are in LCpl Seminar?

Negative, the test is technically a PFA so if they don't want to run it for score it won't be processed in the same manner. If they want the score to be processed, SNM annotates it on the original NAVMC with writing at the test location. SNM then transcribes the scores that want it to be processed as an official score onto a fresh NAVMC.

ENCLOSURE (9)

[redacted]

Did you run a PFT any other time for a score for 2022?

Negative.

As a CPTR, what is the protocol if you proctor two tests in the same day and how you record them in the NAVMC?

SNM has operated where, as long as they are processed on the same day, the scores on the same NAVMC can be from different tests proctored.

SNM stated he was aware that is also how [redacted] operated due to the facts that were presented during the investigation of [redacted]

[redacted]

During the LESS that was ran on May 20-27 I ran my PFT on May 23 during chow time, my CPTR was [redacted]
