Initial Investigation/Compliance Report

Background:

Earlier today, the inspector was asked to perform an investigation at ND. This investigation resulted from a previous hazardous waste inspection that was performed at the site. During the last inspection, various piles of waste were observed at the site. Please note, at the time of that inspection the ND site was vacant. Upon further investigation, it was discovered that ND was undergoing ECRA.

Investigation:

Upon arriving at the site, the inspector discovered that ND is no longer operating at the site. The buildings that once housed ND have been demolished and removed. In addition, the piles mentioned above have been removed.

Currently, several new buildings are being constructed at the 140 Route 10 address. As of this investigation, there is no hazardous waste being stored at this site.

Since ND does not currently generate or store over 220 pounds of hazardous waste or over 1001 gallons of waste oil per month or at any one time, the hazardous waste regulations do not apply.

No further enforcement actions will be taken against the site at this time.

Re: EPA ID No. NJD001307115

Dear Mr. Baker:

This letter refers to our telephone conversation on July 2, 1985, with Mr. Robert Kappel of your office. We explained to Mr. Kappel that on January 16, 1985, PPF Norda, Inc. acquired the majority of the assets of Norda, Inc. We also explained that the location of PPF Norda, Inc. and the type of hazardous waste activity remain the same as the previous company.

Mr. Kappel advised us, verbally, that PPF Norda, Inc. would be allowed to use the EPA identification number which had been assigned to the previous company. That number is NJD001307115.

We have notified the New Jersey Department of Environmental Protection of the above information, and a copy of our letter to them is attached.

Kindly confirm to us that PPF Norda, Inc. is permitted to use EPA ID No. NJD001307115, and that the change of company name has been recorded in your files.
