Importance: High

Hi Rey – I've attached the one of the two FRNs below. We've had our Center resign the chloroprene FRN (36-ORD). Can we proceed with this version? Steve is out of the office and was also having issues uploading the FRN into Lotus. Any help you can provide facilitating this would be a huge help to us.

As for the other FRN, we're working to identify a new public meeting date for the vanadium FRN (20-ORD) and will turn that around hopefully by tomorrow at the latest.

Thanks!

Dahnish

Subject: Unmatching names in ORD FR documents for publication (FRLs 10011-36-ORD and 10012-20-ORD)

Steve – We received for publication the two digitally-signed documents from ORD listed below. However, I noticed that the name in the signature block of both documents includes the signer's middle initial which the name in the PIV certificate does not include (see snippet below and attached troubleshooting guide).

In order to avoid the documents being rejected by OFR, could you delete the middle initial in the documents and have the documents re-sign digitally (see attached demo on digital signature)?

FRL	Title	Date
10011-36-ORD	Notice of Public Comment Period on Technical Documents for External Peer Review and the Pool of Candidate Peer Reviewers for a Report on Physiologically Based Pharmacokinetic (PBPK) Modeling for Chloroprene and a Supplemental Analysis of Metabolite Clearance	2020-07-13 (Signed Date)
10012-20-ORD	Availability of the IRIS Assessment Plan for Oral Exposure to Vanadium and Compounds	2020-07-13 (Signed Date)
