---

Mr. Sperino,

The California Regional Water Quality Control Board, San Diego Region (San Diego Water Board) is releasing for public review and comment the attached Tentative Order Nos. R9-2015-0026 and R9-2015-0027 (Tentative Orders). Tentative Order No. R9-2015-0026 proposes to reissue National Pollutant Discharge Elimination System (NPDES) Permit No. CA0108944 for the Hale Avenue Resource Recovery Facility intermittent wet weather discharges to Escondido Creek, and Tentative Order No. R9-2015-0027 proposes to establish interim requirements and a time schedule to comply with requirements established in Order No. R9-2015-0027.

A transmittal letter and the Tentative Orders are attached.

For questions or comments, please contact me at vrodriguez@waterboards.ca.gov.

Respectfully,

Vicente Rodriguez
Water Resource Control Engineer
San Diego Water Board
