Subject: Phase 2 Supplemental RI Smitty's Toppenish
Date: 12/29/2010 03:14 PM

Good day Mr. Rau

Looks like I will be assisting Yen Vy with the phase 2 effort at Smitty's this January. I am presently interested in the 2009 groundwater sampling effort conducted at the site by the EPA or representative consultant. Got anything in the form of a report on that? Would be great if I could add that to the previous investigation section in our next report.

By the way, how the heck are ya?

Thanks
