Letter looks good. I had just a few comments that are attached.

Thanks very much to Nikia, Charlie and Lynn Woodbury for putting this together. I support having the record set straight to the best of our ability. Also, it would be helpful to understand if this is still an active topic of conversation in the Butte area.

Thanks,
Sandie

Hi All,
You remember the meconium issue right? We had discussed putting together a letter to the editor requesting they review their decision to publish the McDermott et al. article. Nikia, Charlie and Lynn Woodbury (CDM) have written the attached letter for your review (and Greg/Deb if appropriate). I know folks are busy now but we'd like to get a review by 4/15 if possible.
Thanks.

Dan,

I have combine our comments into this final version. I believe this version is ready to send up the chain for review. I know everybody is super busy, but if there is anyway you can ask for a quick turnaround, that would be great.
