Subject: RE: 210 Slauson - Liquid Waste Removal and Frac Tank Decontamination

Greetings,

I just wanted to send out one more reminder to all that we are set to do the removal of the liquid waste and decontamination of the frac tank tomorrow. We will be arriving and setting up at about 7:00 AM. Actual work will begin after the tailgate safety meeting at about 8:00 AM.

Thank you.

Subject: 210 Slauson - Liquid Waste Removal and Frac Tank Decontamination

Greetings,

We are scheduled to have Clean Harbors remove the liquid waste, degas/decontaminate the gas tank this Thursday (May 23). Clean Harbors will mobilize a vacuum truck and a SCAQMD permitted tank degassing unit to the Site, and will prepare a Site Specific Job Safety Analysis and Confined Space Entry Plan.

Please accept this as the 48 hours advance notice of our intent to do this work. If you have any questions, please do not hesitate to contact me.

Thank you.

Subject: RE: ER Waste Removal

Hello Ben,

I am trying to arrange for the disposal of all of the containerized waste as quickly as possible. I have Kvac tentatively set up to remove the liquid waste and decontaminate the baker tank for this Thursday (May 9th, 2019). They will be removing the waste via vacuum truck and disposing of it as hazardous waste (due primarily to the flammability) at Demeno Kerdoon in Compton, California. They will also be decontaminating the Baker Tank and removing the rinsate water. This will involve confined space entry and the use of a pressure washer on site. We tentatively plan on getting started with a tailgate safety meeting at the Site at 8:00 AM on Thursday. I am still waiting for final approval from the Client regarding the costs associated with this effort, but expect to have it shortly. I will confirm with all as soon as I can regarding this schedule.

With respect to the solid waste, I am waiting for some final analyses (benzene TCLP) to come back from the lab. I suspect that these results might show the solid material is less than the treatment standard for benzene, which may allow us to direct landfill the material as a hazardous waste at Clean Harbors Buttonwillow facility. I should have a schedule for the removal of the solid waste later this week.

Subject: ER Waste Removal

Hi Brett,
Where are we with the ER waste removal? Please let the cc list know when you plan to do the removal.
Call me if you need assistance.

Thank you,
