I am forwarding a letter that Earthjustice submitted to Cynthia Giles in March 2016, which requests that EPA investigate potential pesticide exposure to a farmworker in the area mentioned in the Title VI complaint. I will also take a look at the URL with the product reregistration.

Subject: Hawaii Title VI

Below is the URL for Hawaii's pesticide registration program. Registrations last for three years. Listed is the expiration date for the product. As you can see from the list many products have come up for reregistration this year. I have also attached Earth Justice's March 10, 2016 letter to EPA to step in on an incident in Kauai (one of the locations of the Title VI complaint) because of HDOA's inadequacies.
