Assunto: Update on SETAC Manuscript - Pesticide Risk Assessment for Pollinators

All,

I hope this note finds you well. It has been a while since many of you heard from either Dave or I on the statu

As you know, the executive summary was completed in August of 2012, and is still available at: http://c.ymco

Since then, the full manuscript has been completed and has been through external review which was done b

The manuscript is now in the hands of SETAC and soon, the publisher (which I understand will be Wiley). Ho

Inventory and initial processing: 2-4 weeks

Proof review: 1 week

Copy editing and typesetting: 10-12 weeks

Corrections and printing/binding: 6 weeks

Shipping: 6-8 weeks

Total of approximately 6 – 8 months

At the proof review step, the manuscript will be sent to all the participants of the Workshop. At that time we w
between November and January.

Dave and I thank the co-authors and all the participants for all the work that went into putting together the wo
assessment for pollinators. If you have any questions, please don't hesitate to contact either Dave or me.

Kindest regards,

Tom Moriarty
