Hi Patti,
Do you have availability the week of March 11th instead? We would like some time to internally discuss what you have provided.

Thank You,
Matt

Subject: Triennial review Standards question

Hi Matt-

I've been working on a WOTUS review of surface waters & designated uses that are in Appendix B of our WQS. There are many waterbodies in a few major categories that we believe are not WOTUS, and we need EPA input on prior to making changes to Appendix B. The major categories of waters that we would like some input on include:

- Waters that the Army Corps JD decision was not WOTUS (n=4)
- Waters with current AZPDES permits, that ADEQ evaluated as not WOTUS (n=5)
- Waters that are 303d listed as Impaired, that ADEQ evaluated as not WOTUS (n=5)
- Urban/isolated lakes (n=16ish)

My attached slideshow has more details and examples of these waters. Would it be possible to meet with you in the next week or two to discuss these waters and our approach for the Triennial Review of WQS in which we are currently engaged?

We have the following times available:
3/2 Friday at 2pm (MST)
3/8 Thursday at 11am
3/9 Friday 2pm

Thank You!
Patti
