Subject:	Proposed conference call for the Lahaina Tracer Study
Date:	09/09/2010 02:27 PM

Watson,

When I last talked to you, you mentioned that Thurs or Fri may work for you to have a conference call concerning the Lahaina Tracer study. How about Friday, 9/10, at 11 am PST?

As proposed, Malcolm Field from EPA's Office of Research and Development (ORD) is available for the conference call, friday at 2 pm eastern time to discuss your concerns about a fluorescent dye study for the Lahaina Wastewater Reclamation Facility. Dr. Field is a Senior Research Hydrogeologist who provides expert technical advice in hydrologic tracer-test methodology and support for tracer tests to EPA regional offices, states, and U.S. territories.

A later time maybe available up to 4 pm eastern time (as you know 6 hrs difference from HI time). Let me know your availability.

Sincerely, Nancy
