SUMMARY

- ~~Steve~~ & I agreed to do one SI for Vitale site and one SI ~~encompassing~~ including Casco, Airport Sep. System & Gurnard ~~Gurnard~~ (which will encompass old NIKE site.)
~~Steve stated~~ that starting ~~on~~ 2/3, DOD will start field work on NIKE site. Study will consist of 4 monitoring wells and 6 soil samples.
Concerning Fly Ash in Wenham Lake: Fly Ash has been ~~tested~~ for metals from 1970's to early 1980's & found no metals migrating into surface water.
Other areas around these sites have also been discovered
- 2 Fly Ash sites: 1 has low levels of solvents
- TCE on separate airport property has been discovered

ON REQUIRED, INFORMATION OR MATERIALS PROVIDED, ETC.

Steve has agreed to "cc" me on all correspondence concerning these sites.
