Wren,

Absolutely will do. With regard to the UPRR site, we will coordinate our response with y'all like we did last time.

Thanks
Ronnie

Importance: High

Hey Ronnie,

David assigned me the EO to Establish COVID Testing Board and Ensuring a Sustainable Public Health Workforce. According to OP's chart, it was assigned to OCSPP. If you hear anything on it through your DD mtgs, please pass on to me. The chart indicates it is related to data and equity. As I read the EO, it isn't very clear what it will address or what might be required.

Executive Order on Establishing the COVID-19 Pandemic Testing Board and Ensuring a Sustainable Public Health Workforce for COVID-19 and Other Biological Threats	**OCSPP**	General consultation related to data and equity

FYSA – Here is additional information/evaluation from OP regarding the Eos and impacts on EPA. It also names the national AA leads for the various EOs and outlines some of the deadlines.

Good Afternoon–

I hope everyone is well and safe. As mentioned by the Chief of Staff below many of you have already started reading and developing implementation plans for the components of the orders relevant to your programs and offices. To assist with this effort the Chief of Staff has asked the Office of Policy to compile and track the development of agency actions (e.g. what is due, by when, and proposed lead offices) related to the many Executive Orders and Presidential Memorandums.

To that end, attached is a draft spreadsheet listing the Executive Orders/Presidential memorandums, proposed leads, and deadlines. Please review the attached file and verify the appropriate lead office and send your feedback to OP's team (Barry Elman with a cc to Bridgid Curry, myself, and Tim Torma) by COB **1/29/2021** . The COS and new leadership team would like this review completed as soon as possible.

Thank you in advance for your help.

Helena

TO: Current and Acting EPA Leadership
FR: Dan Utech, Chief of Staff
RE: Implementation of President Biden's Executive Orders

This past week, President Biden issued a set of Executive Orders, several of which require EPA to take action with urgent deadlines. Many of you likely have already read and started developing implementation plans for the components of the orders relevant to your programs and offices. To ensure that we stay on pace agencywide to meet our obligations, I ask that each office review the following and develop a plan to meet the urgent and longer-term deadlines.

URGENT DEADLINES

Executive Order on Protecting Public Health and the Environment and Restoring Science to Tackle the Climate Crisis
This EO requires EPA to "review all existing regulations, orders, guidance documents, policies, and any other similar agency actions (agency actions) promulgated, issued, or adopted between January 20, 2017, and January 20, 2021, that are or may be inconsistent with, or present obstacles to, the policy set forth in section 1 of this order. For any such actions identified by the agencies, the heads of agencies shall, as appropriate and consistent with applicable law, consider suspending, revising, or rescinding the agency actions." **Within 30 days, EPA must submit to the Director of the Office of Management and Budget a preliminary list of any actions being considered that would be completed by December 31, 2021, and that would be subject to OMB review.** With this thirty-day deadline in mind, please note the following milestones:

> **Internal Deadlines**
> **February 5:** Programs/Offices provide draft lists to Office of Policy
> **February 12:** Final lists due to Office of Policy
> **February 19:** EPA List submitted to OMB

To assist in the development of lists of agency actions, the Office of Policy will distribute an initial list during the week of January 25.

Executive Order on Protecting the Federal Workforce and Requiring Mask-Wearing

> **January 27, 2021:** Administrator must report on progress of implementation of mask mandate and COVID protocols across EPA campuses.

EXECUTIVE ORDERS AND MEMOS FOR REVIEW

Please review the following and develop a plan for meeting the given deadlines and completing the tasks in your purview. Additional details on process and timelines will follow.

MEMO: Regulatory Freeze Pending Review
MEMO: Modernizing Regulatory Review
Executive Order on Protecting Public Health and the Environment and Restoring Science to Tackle the Climate Crisis
