Report out on information gathered to answer the following questions for the top 3 facilties: Nonresponsive based on revised scope and Braun -

- What are the total EtO emissions? Have we double checked? Have we verified with the state?
-
- What are the total facility emissions?
- Are the facilities located in EJ Areas?
- Are there any current controls?
- What are the cumulative impacts from ethylene oxide and the other air toxics released at the facilities?
- Trending population. Are there areas that have a large growth in population within the last few years?
- What is the compliance history/status of the facility?
- What is the Title V permit status (for major sources)
- Are there any pending construction permit applications?
