Dear Mr. Russel H. Wyer, NPC-06 - 3-11-124

I have lived in Pickens County for 33 years. I love the State of S.C., and I want to see our State clean. We can't do without clean water. Water is essential to our everyday life. But as each year goes by our water is being more contaminated by chemicals being dumped in our water. We need your help desperately. Lets make S.C. clean & safe for our children to grow up in. We would appreciate all you can do for us.

Dear Russel H. Wyer,

Im a Pickens Resident, I was born and raised in Catoochee, S.C. I support the Clean-up of Twelve Mile River and Lake Hartwell. I live near Twelve Mile River, and use to enjoy going to Lake Hartwell for family entertainment, which is now in jeopardy due to contaminated water. Lets clean up S.C.

Sincerely
Mark Holden
