PCB's were burned in David Wait's field prior to clean-up. He is concerned about dioxins

Whole field was used as a dump (not just the corner).

Still has not rec'd his copy of report from Sangamo — Camilla was to have copy sent to Mr. Wait.

- Discuss lack of samples/analyses of dioxins on Mr Waits property ~~wh~~ with Chuck McPherson
- Push for copy of Sangamo's report for Mr. Wait (assuming you promised to get it for him)
- Note use of whole field (not just corner) as a dump by Sangamo
- Notify Mr Wait of future investigation using his field. Used for target practice & used for intruders. He's concerned someone might get hurt
