Gen. Bullitt Co.

DIVISION OF WATER
SURVEILLANCE REPORT

Site: A.L. Taylor
Prefix: 1.4
Other:

Date of Visit May 18, 1977

Name of Installation A.L. Taylor property Lett Rd.

Location of Installation County Bullitt City Brooks, Ky.

Person (s) Contacted

Remarks and General Observations Mr. Taylor was not present and I did not enter the property, but an inspection of the stream (Wilson Creek) and observation from adjacent property revealed the following:

1. Several hundred 55 gallon drums were present on Mr. Taylor property. I could not determine how many were full. Approx. 50 drums were present near the entrance off Lett Rd. which were full and according to the labels contained paints and motor oils
2. Heavy equipment was present on the property and at least one large excavation of soil had been made.
3. The water in Wilson creek downstream from the storage area was slightly red tinted ~~and~~ and red scum covered the surface. There was evidence of runoff of a red material into the stream from the Taylor property.
4. Various materials had solidified in the stream bed downstream from Mr. Taylor's drum storage area.

Will Further Report Be Submitted? Yes ____ No ____
