Hello everyone,

The purpose of this meeting is to go through the most recent revision (attached, from Jane C.) of the MOA/mechanistic event synthesis for the formaldehyde LHP cancer. I would like the focus to be on "big" picture changes, e.g. section organization, information content, clarity of presentation and arguments, consistency, background, speculation, etc.

To that end, everyone please read and become familiar with the revised draft synthesis section attached, prior to the meeting. This will be conducive to a good discussion and will facilitate stepping through important aspects of each section.

Modes of action for Lymphoma revis...

For reference, I am also attaching the Appendix which was provided by Jane to accompany this revised draft. This is FYI and may facilitate review/understanding of the MOA synthesis, but we <u>will not be going over this section</u> during the course of this markup meeting.

Thanks, and we look forward to a constructive discussion next week!
