SUMMARY

She told me that her office disagrees with the concept of preparing a briefing memo on the relative merits of issuing an administrative order in the Reilly Tar case. They will, however, draft a letter in response to the May 31 memo from R. Schaefer to C. Price which will discuss some of the issues which would have been covered by the briefing paper.

SUMMARY

We discussed a number of things relative to the litigation. I said that I was anxious to have a meeting with the technical people on this case as soon as possible in order to narrow down the specific documents, data and other evidence which we will need to prove the presence and movement of contaminants in the aquifers below the Reilly Tar site. I said I'd get together with Paul Bitter to arrange the meeting.

He said that DOJ disagrees with some of the statements contained in the memo of 5-31-84 concerning the Reilly Tar AO. Although DOJ will not agree to participate in a briefing paper, the department's views relative to issuance of the AO will be expressed in a letter which they are drafting.

ACTION REQUIRED

Contact Paul Bitter to schedule a meeting.
