The long overdue filing of the complaint will take place either tomorrow afternoon or on Thursday. I gave Bob Hartian a briefing memo on the complaint and case last week so that he could have a press release ready. Frank Herman will call me before he goes to file the complaint so that Hartian can keep on top of this.

In talking with Herman, and as well as the state people, I suggested that we get together here in Chicago to discuss the next steps to take in the case, especially the transition which the state should take from an emphasis on their case to an emphasis on the federal law suit. A meeting in Chicago would be more convenient since Dolgin + Brunner will be here for the next task force meeting, and since we are low in travel funds. Herman said that this probably wouldn't pose a problem for him, but the state people may have problems due to low finances.

204368

After the case gets filed this week, a mutually agreed upon time and place meeting will be selected so that the course of the law suit can be planned.
