Peter,

Here is the text for the Aquatic Resources Unit.

High Tide Line: EPA/Corps Seattle District/NMFS worked together for over a year to develop a set of recommendations on shoreline habitat protections including recommendations for which datum to use for High Tide Line. **Ex. 5 - Deliberative Process**

Michael, Jil/Davidl and Cami,

I may have missed it but thought you would be sending me information for Michelle's one page brief on USACE topics to prep her for her 1 on 1 meeting with the new Commander tomorrow. Reminder this is not a content meeting as it will be her first time meeting with the Commander - more of a relationship oriented meeting but Michelle would like to have a list of the key programmatic areas that we have with the District right now/or upcoming. She is also interested in positive talking points if you have them.

I have some talking points from Lucy already related to the shellfish/pesticide topic area.

Michael - 404

Jill/David - NEPA

Cami - Superfund

Peter - Puget Sound MOU/Action Plan/PSNERP

Please send those to me by noon and I will compile and send in before our prep meeting with her at 2:30pm (I am not in the office today - Unit retreat on Hood Canal) but should be able to pull it together remotely and call in.

Thank you,

Peter
