Hi Sarah
As it turns out we are going to rely on in house facilitation. Thank you for looking into potential funding for facilitators.
Helen

Hi Dave and Helen,
This note is following up on my quick call to Dave last week – per John's suggestion-- to briefly discuss prospective facilitation resources and vehicle. I understand EPA and the State of Washington think having a facilitator makes sense. I am seeking verification from you that the tribe thinks the facilitator approach makes sense. Can you verify? I understand the timeframe is to move quickly on this, correct?

Thanks in advance. Your response will help me move forward with my EPA HQ contact on this end (see attached).

Subject: Pend Oreille TMDL - Facilitor

Hello John and Eric,

On our call last week with Washington State Ecology the state requested that the next Pend Oreille meeting, which will include the Kalispel Tribe, have a facilitator. Our region has disinvested in its facilitation program because of budget constraints, so our resources are limited. Are there sources of funding that HQ could point us to which could be used for an outside facilitator for this meeting?
