DATA TO WALL MAP AND ELIMINATING DUPLICATES.

1200 TAYLOR AND WHITCHURCH DEPART CP FOR LUNCH.

1300 E&E TAYLOR AND WHITCHURCH ARRIVE AT CP. LCT

1302 START Naquin arrived on-site at 1230 hours from Baton Rouge. The power auger arrived on-site; therefore, START Naquin began amending the health and safety plan for drilling safety.

1320 START Naquin faxed weekly reports to LDEQ, Gretna, Westwego, and Jefferson Parish. Faxed weekly time report to Buffalo. Began reading operation guide for the power auger. E&E Taylor and Whitchurch working on mapping and site access. START Johnson buying supplies for auger.

1350 EPA Martin called, weather in Dallas will delay his arrival till tomorrow, he is waiting to hear from ATSDR on the other sites.

1400 START Johnson returned from buying supplies

1440 START Naquin and Johnson departed command post for (b) (6) [redacted], site #292 to re-mark ACM

1445 arrived at (b) (6) [redacted] in Marrero to remark site with paint

1503 START completed re-marking site #292 and departed for site 310 and 311 on (b) (6) [redacted] in Marrero

1511 arrived at Site #311 at (b) (6) [redacted] to re-mark.

1622 Completed marking 311, started remarking site 310

1628 START needs to consult with IT and USACOE because site 310 is continuous with site 308 - large site, high cost

1631 START began to remark site 313 at (b) (6) [redacted]

1645 Returned to command post. START Naquin contacted EPA Martin who instructed START to core all sites for ASTDR consultation and to work on sites where ACM is at the ~~subsurface~~ TMN 1/13/97 surface. START will fax the site sketches to ATSDR for instructions.

[signature]

1/13/97 506-9607-~~015~~ TMW 1/13/97 012

1657 START Johnson and E&E Whitchurch began to prepare to van for equipment storage and setup the auto auger for coring.

1732 EPA Martin called and reported that Dallas is still iced in and for removal of ACM to continue at surface exposed areas of ACM.

1745 START Naquin briefed other personnel on change in the way START will mark the sites. E&E Storey and START Haglund have been working on removal funded activities.

1812 START Naquin, Johnson, Haglund, and E&E Storey, Taylor, and Whitchurch departed site for the day.

1830 Summary of Events — 1/13/97

- START returned rented car for van
- Auto auger delivered today - purchased by IT
- continued mapping ACM locations and door-to-door
- EPA Martin wants START now to core every site with detailed map to send to ATSDR.
- START re-marked at few sites for removal

Future Plans

- mark ACM locations to keep quality working, draw detailed sketches to fax to ATSDR

Hours

- see PAN tracking sheets
