1/23/97 506-9607-012

0657 START Naquin and Johnson and E&E Whitchurch and Rhodes arrived on site. IT, quality, Nola, and USACOE on-site.

0700 IT held tailgate safety meeting - discussed wearing APRs, no beards, facial hair, no contact lenses

0706 IT safety meeting over.

0708 START Naquin held site safety meeting - see site safety plans. Weather - partly cloudy, 100% humidity, SW winds, temp 70-75°F, 50% chance of showers, fog. Scope of Work - continue marking ACM sites, site mapping and sketching, public relations, site files.

0715 Safety meeting over. START Johnson began to update marking sheets. E&E Rhodes and Whitchurch preparing for site mapping.

0730 START Naquin attended meeting at IT trailer. IT discussed sites for today - 066, 308/309, 313, 311, and 455. Discussed sites for removal in Gretna, Westwego, and Marrero.

0745 Meeting over - START Naquin preparing to go over site sketches with EPA Martin. E&E Rhodes and Whitchurch working on mapping house in on the GIS maps and site access agreements. START Johnson putting up radios for repeater that EPA purchased

0930 START Naquin still working on site sketches, E&E Rhodes and Whitchurch continued mapping in sites and getting site access agreements, and START Johnson working on radios and setting up to mark ACM sites

1027 START Johnson departed command post for Gulf Survey on the Eastbank to get paint to mark ACM sites which will be paid through IT. EPA Martin completed marking the hand out cards to give to residents. START Naquin continued working on site sketches and calling residents.

1135 START Naquin and Johnson and E&E Rhodes and Whitchurch on lunch break. Troy M. Naquin

1/23/97 306-9607-012

1230 START Naquin and Johnson and E&E Rhodes and Whitchurch off lunch break. START Johnson and E&E Rhodes and Whitchurch preparing to mark ACM sites for removal. START Naquin working on site sketches and going over the lab procurement package cost. — TMN

1320 Rhodes, Johnson & Whitchurch depart command post for marking/sketching sites

1325 arrive at site #507 ([redacted])
Repaint + check on sketch

1335 Depart Site #507

1340 arrive at Site #545 ([redacted])
Mark + Sketch site — K.R.

13:50 START Johnson spoke w/Naquin and EPA Martin on Radio. We will address ACM broken pieces all over lot at a later time. [illegible]

14:00 arrive at Site #478 ([redacted], Harvey)
Begin marking/sketching site

1420 Finish marking/sketching site
Depart to command post to meet with Naquin + Martin regarding site #545

1500 Arrive at Site #565 ([redacted], Gretna)
Begin to mark/sketch site

1610 Finish site #565

1625 arrive at Site #603 ([redacted] Gretna)
Begin marking + sketching

1725 Finish marking site #603
Head back to command post

1732 Arrive at command post
Organize paperwork
Quit for the day

K. Rhodes
1/23/97

1/23/97 S06-5607-012

1748 Data Entry - START Noguin and EPA Martin conducted visits to the following sites.

- at 1600 hours START and EPA visited [redacted] at [redacted] - he had the ACM removed at his property next door at [redacted] and replaced with concrete and he wanted to know why they remove the ACM at [redacted] and skipped [redacted]. START Noguin explained to him that no ADUF was available for [redacted]; therefore, they went down the street.
- at 1712 hours - START and EPA meet with the Aozie family site 313 at [redacted] in Marrero. They were in pre-holiday removal for concrete. EPA Martin explained to the [redacted] family that he had to replace like material with like material and he offered concrete to the left of the house and limestone to the right - [redacted] family approved.

1759 START and EPA personnel off-site for the day

1815 Summary of Events on 1/23/97

- continued marking ACM locations (3) for removal
- went through site sketches with EPA on removal and restoration procedures
- mapped in sites on GIS maps
- public relations, site files, and data entry

Future Plans

- continue marking sites for removal
- conduct training with Louisiana Gas personnel
- complete site sketches
- possible air monitoring at site 455
- mapping in sites, data entry, site files.

Hours

- see PAN tracking sheets.

Greg Noguin

1/24/97 506-9607-012

0658 START Naquin and Johnson and E&E Whitehurst and Rhodes arrive on site. Heavy thunderstorm with lightning in area - tornado watch till 1000 hours. IT, Quality, Nola, and USACOE on-site

0700 START Sin and E&E Storey on-site. E&E Storey informed START Naquin that IT suspended work till the storm passes around 1000 hours.

0705 START Naquin held site safety meetings - see site safety plans. Weather - rain, thunder & lightning, Tornado watch till 1000 hours, weather should clear around 1000 hours, SW winds 10-22, gusty, high ~75°-77°F. Scope of Work: mapping sites for GIS, marking ACM sites for removal, site files and sketching sites for removal & restoration

0730 START attended meeting at IT Nola - Nola went home for the day, quality on stand-by till 0830 hours. Working on sites 455 & 308/309 and 303 today after weather clears up.

0745 Meeting over. E&E Rhodes and Whitehurst preparing to map in sites. START Johnson preparing sites for marking and finding out how many sites START is ahead. START Naquin preparing site sketches and for the 0900 hour visit with Louisiana Gas personnel.

0750 E&E Whitehurst and Rhodes departed command post to map in sites for the GIS maps. E&E Storey and START Sin on removal funded activities.

0807 LDEQ John Sharp on-site.

0830 EPA John Martin on-site.

0845 START Naquin contacted [redacted] at [redacted] in Monroe to secure the dog.

0851 Karl Webb and Vic Naylor of Louisiana Gas Service arrived on-site for training.

0900 START Naquin began briefing La Gas personnel on site history with John-Manville.

1/24/97 506-9607-012

0909 (374-7200) is main dispatch line at Louisiana Gas to report broken gas lines.

0920 START Naquin, LDEQ Sharp and La Gas Weber and Taylor departed command post to maple Dr in Harvey to show them the ACM.

0925 Arrived at (b) (6) [redacted]. Harvey to show them a site prior to removal.

0930 Departed for (b) (6) [redacted].

0941 START, LDEQ, and LaGas arrived on (b) (6) [redacted] to observe an excavation.

0950 Orientation over with La Gas personnel. LDEQ Sharp and ~~EPA~~ TMN 1/24/97 START Naquin departed for command post

1008 START Naquin and LDEQ Sharp arrived at command post.

1025 LDEQ Bendily called - she will be here on January 30, 1997, to sample the backfill material for full scan analysis.

1054 START Geraghty called and informed START Naquin that a data manager is available to assist at the site. START Naquin asked John Martin bringing in a data manager and he approved. START Naquin then checked in the ~~available~~ TMN 1/24/97 availability of another apartment.

1140 All START and E&E personnel on lunch break.

1225 Off lunch break. START Johnson and E&E Whitchurch working on raising the antenna for the Sabine radio. E&E Rhodes preparing to map in ACM location on maps. Weather: thunder and lightning still in area with scattered rain, heavy at times.

1312 E&E Rhodes and Whitchurch mapping in ACM sites onto wall.

1427 START Naquin preparing site sketches to go over with EPA Martin. START Johnson researching sites and preparing paperwork for marking; E&E Rhodes and Whitchurch preparing for field data sheets and mapping in sites on GIS maps. [illegible]

1/24/97 S06-9607-012

1500 LDEQ Bendily called - will be here Thursday 1/30/97 to sample backfill - will bring bottles. START Naquin will request IT to notify Vulcan Materials of the sampling next Thursday.

1505 Had meeting with EPA Martin, USACOE White and Bowers about IT safety office and his rules. He tends to direct START about safety procedures when they don't apply. USACOE White will handle the issue.

1530 meeting over. START Naquin went over site sketches with EPA Martin. Heavy rain and lightning still in area.

1545 START Johnson and E&E Rhodes departed command post to investigate a site on (b) (6) [redacted] in Harvey. START Naquin continued site sketches with EPA Martin.

1555 E&E Whitehead departed command post to map sites.

1645 START Johnson and E&E Taylor returned to command post START Johnson preparing sites for marking tomorrow and E&E Rhodes calling back residents who called answering machine.

1710 E&E Whitehead return to command post from mapping.

1730 ~~Summary of Ev~~ TMN 1-24-97 START, E&E, & EPA off-site.

1742 ~~Summary of Events on 1/24/97~~

- START and LDEQ held an orientation with representatives of Louisiana Gas
- ~~ab~~ TMN 1-24-97 - went over site sketches with EPA.
- continued mapping in sites on GPS maps
- heavy rain and lightning did not allow air sampling
- got approval from EPA for data manage

Future Plans

- continue making ACM sites and mapping for GPS
- clean up owner information on some sites

Hours

- see PAN tracking sheets

Trevor Naquin

1/25/97 SOL-9607-012

0656 START Naquin, Johnson, Sin, and E&E Rhodes, Whitehurst, and Storey on-site.

0700 START Naquin went over task for next week.

0712 START Naquin held site safety meeting - see site safety plans. Weather - clear skies, temp -68°F, SW winds, Scope of Work - mark ACM location, mapping in sites, sketching, POLREP, photodocumentation

0657 START Naquin, Johnson, and Rullera and E&E Rhodes, McCann, and Storey and Hammitt.

0700 IT held tailgate safety meeting - talked about ladder

0707 START Naquin held site safety meetings - see site safety ~~meet~~ plans. Weather - partly cloudy, wind south 10-15, chance of rain 50%, high of 75°F, humidity is 97%, winds will change to the north. Scope of Work - continue marking ACM locations for removal, door-to-door for site access, public relations, data base, file management.

0715 START site safety meeting over. E&E Rhodes and and Hammitt began assisting E&E McCann on site files. START Johnson preparing sites for marking. START Rullera and E&E Storey working on removal funded activities.

0730 START attended site meeting with USACOE, IT, quality, and Nola on site activities. Discussed was the removal of fence post or other structures to remove ACM - who will replace these structures. Discuss marking sites in Marrero and the Palfrey site in Gretna

0805 Meeting over. START Naquin attended meeting with IT, quality, & USACOE on excavation of runners and removal of clean soil. Quality wants to remove clean middle area between runners and USACOE want to reduce the amount of clean soil being transported to the landfill. Rain began to fall.

0840 Meeting over - START Johnson working on sites for marking E&E Rhodes and Hammitt assisting E&E McCann on data base.

0900 START Naquin and Johnson departed for site #507 at (b) (6) [redacted] in Harvey to mark additional ACM area in back yard near shed

0910 arrived at (b) (6) [redacted] and marked additional 4X10 area in back yard

0920 START Naquin and Johnson returned to command post.

Troy L. Naquin

2/4/97 SO6-9607-012

0930 Heavy rainfall with thunder and lightning in area.

1000 Rain continued. E&E Rhodes and Hammett continued helping E&E McCann with site files and database. EPA Martin called - will be in later today.

1130 all E&E and START personnel on lunch break.

1224 all personnel off lunch break. E&E Rhodes and McCann continued site files and data base. START Naquin and Johnson and E&E Hammett preparing to mark ACM sites. TMN

1301 START Naquin, Johnson, + Hammit out of CP to site 514, to speak to resident.

1305 START Naquin spoke to resident at (b) (6) [redacted] in Harvey and explained why he wasn't a candidate for cancer as he understood.

1310 START Naquin and Johnson and E&E Hammett departed to mark site # 591 at (b) (6) [redacted] - Slater

1330 arrived at site # 591 to mark site and need to talk to owner about removing fence to access site # 590.

1417 Completed marking site #591, spoke to sister of owner who approved removal of fence to access site 590 then departed for command post.

1432 Returned to command post. START Naquin and Johnson meet with IT Mollere and Clifford TMN 2/4/97 ~~onsite~~ on sites to mark.

1508 Meeting over - EPA Martin arrived on-site.

1525 START Naquin and EPA Martin departed command post to investigate an excavation at site (b) (6) [redacted] - Harvey. START Johnson, E&E Rhodes and Hammett working on sketching sites (marking) for removal. E&E McCann continued working on data base.

1530 START and EPA arrived at site 507 and observed excavation in sensitive and discussed goodness of removing ACM.

Joseph Naquin

2/4/97 506-9607-012

1545 EPA Martin decided to excavate to 1/4 down around a pipe near the surface and a 45° angle out to remove the ACM.

1610 EPA Martin and START Naquin departed site 507 for command post.

1620 Arrived at command post, START Naquin working on weekly sample summaries, E&E McCann working on site files and database, and START Johnson and E&E Rhodes and Hammitt marking ACM locations.

1725 START Johnson, E&E Rhode and Hammitt returned to command post from marking ACM locations.

1730 E&E Storey departed site for apartment.

1740 START Johnson departed site for the day. Rest of personnel preparing to depart site for the day.

1747 E&E Hammitt and Rhodes departed site for the day.

1805 START Naquin and Pillen and E&E ~~Rhodes~~ TMN 2/4/97 McCann departed site for the day.

1832 Summary of Events on 2/4/97

- rain interrupted removal operations today
- continued database and file management
- discussed with USACOE and quality about excavating runners
- worked on sites schedule for marking

Future Plans

- continue database and file management
- begin marking ACM sites for removal

Hours

- see PAN tracking sheets

Troy M. Naquin

2/5/97 506-9607-012

0657 START Johnson, Naquin, Rollins, and E&E Rhodes, Storey, Hammett, and McCann and EPA Martin arrived on site.

0700 IT held tool box safety meeting - discussion electrical safety hazards.

0709 E&E Rhodes held site safety meeting - see site safety plans. Weather: sunny, temp high ~65°F, 87% humidity, North winds 10-12 mph. Scope of Work - mark ACM sites for removal, site file management, angster data base, site access, and public relations

0715 Site safety meeting over. START Johnson and E&E Hammett preparing for site marking and talking to resident at site 107. E&E McCann and Rhodes working on site files and database. START Naquin preparing for ~~Monday~~ TM 2-5-97 morning meeting.

0730 START Johnson and E&E Hammett departed command post to talk to resident at site 107. START Naquin and EPA Martin attended morning meeting with IT, USACOE and Quality on site. Begin discussing about restoring fences after ACM removal has been completed. Begin discussion of removal of ACM in sensitive areas - therefore, go 6 miles out, 6 miles down to 1/4 exposure of pipe not

0745 to exceed one foot. USACOE White requested quality to increase crews to 4 to 5 which quality said it will take 2 weeks to accomplish that due to need operators. START will have to mark 25 sites a week to keep up with 5 crews and Nola will have to upgrade crews to keep up.

0752 Meeting over.

0756 E&E Hammett and START Johnson returned to command post from talking to resident at site 107. START Naquin then attended meeting with USACOE, IT, and EPA

Dan Naquin

2/5/97 506-9607-012

0810 Discussed scheduling of sites for removal of highly friable list, TM 2/5/97 priority, and pre-holiday list. Discussed restoration of sites of who gets concrete and who doesn't as well as work hours.

0850 Meeting over. E&E Rhodes and START Johnson obtaining site access. E&E Hammett assisting E&E McCann on site base. E&E Storey and START Billera working on removal funded activities.

0935 E&E Rhodes and START Johnson returned to command post

0945 E&E Rhodes and Hammett and START Johnson preparing to meet ACM sites in Manero.

1022 E&E Rhodes and Hammett and START Johnson departed command post to meet ACM locations in Manero. E&E McCann continued on database. START Noguin working with EPA Matson on site issues.

1030 START Noguin received call from Ernest Russo of the City of Westwego who inquired about ACM removal on Avenue. START Noguin explained that the crews will be returning there as soon as APVFs were received from the state.

1107 START Johnson and E&E Rhodes and Hammett working on making ACM sites for removal. START Noguin continued going over site information of TM 2/5/97 certification of inspection, database, and sites for approval.

1147 START Noguin on lunch break.

1210 START Noguin off lunch break and departed for Maple Ave in Harvey to observe removal and bulk sampling. START will conduct photodocumentation

1240 START departed (b) (6) [redacted] in Harvey for command post

1245 START Noguin arrived at command post and prepared to investigate sites in Manero and Westwego. START Johnson and E&E Hammett and Rhodes continued making ACM sites.

E&E McCann on lunch break.

1329 START Noguin departed command post to investigate sites.

Ross - Noguin

2/5/97 506-9607-012

1345 START Naquin arrived at 241 Robinson St - St Joseph Baptist Church to investigate ACM. START observed a small patch of ACM near the steps to the church.

1350 No visible ACM observed in cemetery - departed for 580 Ave G - Westwego to get access agreement

1402 Arrived at (b) (6) [redacted] - Westwego and spoke to brother of owner of property - (b) (6) [redacted] - spoke to (b) (6) [redacted] by phone - START will leave access agreement and pick up later.

1425 Completed field data sheet for (b) (6) [redacted] Westwego - departed for command post

1441 START Naquin returned to command post to go over sites with EPA Martin.

1508 START Naquin and USACOE departed command post for (b) (6) [redacted] to observe excavation.

1512 Arrived at (b) (6) [redacted] in Harvey - ACM thick in drivering area - 6 to 8 inches thick.

1519 START and USACOE departed (b) (6) [redacted] Harvey for sites 590 and 591 in Gretna. Resident at site 590 wants concrete instead of sod - USACOE White will discuss it with the property owner. However, sewerage from two houses has been draining onto the surface of the ground causing saturation. USACOE White discussed with the resident about repairing the drain lines.

1600 Departed sites 590 and 591 for command post.

1615 USACOE White and START Naquin returned to command post. START Johnson and E&E Rhodes and Hammitt continued marking ACM locations in Marrero. E&E McCann continued data base and updating site files.

1745 START Johnson and E&E Rhodes and Hammitt returned to command post from marking ACM locations.

[signature] Naquin

2/5/97 506-9607-012

1750 E&E Storey and START Rillera completing sample packaging for the day.

1802 START Naquin, Johnson, Rillera and E&E Rhodes, McCann, Storey, and Hammett off-site for apartments.

1817 Summary of Events on 2/5/97

- continued marking ACM sites for removal
- continued database and site file management.
- arranged for removal of sites on (b) (6) [redacted] in Westwego
- ran into sewage at sites 590 and 591 during excavation; therefore, removal was suspended and City of Gretna contacted about possible busted water line.

Future Plans

- continue marking ACM sites for removal
- continue database and site file management

Hours

see PAN tracking sheets

Naquin

2/6/97 506-9607-012

0658 START Naquin, Johnson, Rollins, and E&E Storey, Rhodes, Hammitt, and McCann on-site. EPA Martin on-site.

0700 IT held site safety meeting - spelling in work areas and overhead lines.

0710 E&E Rhodes held site safety meeting - see site safety plan. Weather - partly cloudy to cloudy, temp ~45°F, heat of 60°F, 87% humidity, NE-E wind 10-12 mph. Scope of Work - marking ACM locations, site access, computer database entry, and site file management.

0716 Safety meeting over. E&E McCann continued working on data base, E&E Hammitt and START Johnson will help E&E Storey and Rollins on setting up air sampling at site 545 at [redacted] Harvey. E&E Rhodes going through files for site access and field data sheet completion.

0730 START Naquin and EPA Martin attended morning meeting with IT, quality, Nola, and USACOE. Talked about busted water lines with Nola and ~~expanded~~ JMW 2/6/97 expanding parking area at command post. Sites to consider in 545, 580, and 593 and will hold off on 590/591 about sewerage. Quality will be bringing a new trackhoe in to remove ACM. Week starting 24 of February will upgrade to 5 crews.

0745 Quality will now leave any pages in driveway uncovered without geoline so Nola won't break the lines during relocation, or will paint the geoline where the lines are at. START need to line up dayzone in Westwego for removal on Saturday after Mardi Gras.

0758 Meeting over. START Naquin contacted the City of Chalmette Jon Richard about the busted sewer line at [redacted] and [redacted]. He will call back.

0805 Jon Richard called back - will meet us in 10 or 15 minutes at sites 590 and 591.
