REDACTED VERSION

9416244

Bill,

A Man named (b) (6) [redacted] called in and wanted to talk to you. He's the guy who we spoke to earlier because he was concerned about the Olin site, near where he works. He went to see a doctor, as we suggested, but not Comstock. He saw a lung specialist named Dr Warren Simi, who said he had both lungs somewhat collapsed near the bottoms.

He wants you to call him and tell him if the pesticides at the Olin site could be related to his condition. Also, Dr Simi took blood samples, so you should get Dr. Simi's phone number & discuss the problem with him.

Finally, Dr. Beauchamp of TDH wants you to give him a call after talking to (b) (6) [redacted] and Dr. Simi.

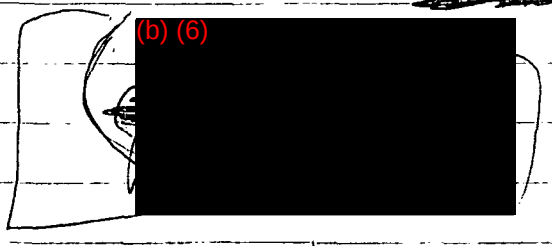
Thanks Dennis 5/6/81

V

Call from (b) (6) [redacted] 5/6/81

Length

Went to Doctor
- lung problems
- both somewhat collapsed in bottom
- doesn't know what could be attributed to
  No employees visited doctors
- Lung Specialist
  Warren Simi / call Dr. Simi too



(b) (6) [redacted] (b) (6) [redacted]

5/6/81 - Telecon W Beauchamp
Tingling in arms & legs
Told him (Beauchamp)
No pesticide odor

Took blood
