(Record of item checked above)

TO: Mr. Rab, Chief
Environmental Section, Ft. Bliss

FROM: Greg McCabe

DATE: 6/25/85

TIME: 11:30 am

SUBJECT: EPA questions not addressed in 6/5/85 response

SUMMARY OF COMMUNICATION

I contacted Mr. Rab to determine the answers to questions not addressed in the 6/5 response. Specifically, I wanted to know:

① The status of the location 5 landfill.

② The status and general information re: the oxidation ponds noted on p. 2-44 of the Phase I report, i.e. their contents, RCRA status, monitoring program etc.

Table 2.2-1 on p. 2-40 is correct — the landfill was closed in 1967. The oxidation ponds are all domestic sewage ponds. Reportedly, Ft. Bliss has no industrial waste ponds. Rather, the industrial waste stream is discharged to the city's wastewater treatment system. I asked him if any further work (Phase II) was scheduled for Ft. Bliss. He replied that he didn't know. Whether Phase II is conducted at Army facilities is decided jointly by USATHAMA and the Command (in this case the command is TRADOC). There is a possibility that funding will be requested next FY for additional work.
