WORK ACCOMPLISHED / AMENDMENTS *(problem areas, general comments, summary)(Input for day's 1, 900-5Pon5):*

RM coordinated site activities with the Foreman. He completed the Health/Safety and Operational daily paperwork. He continued discussions with the OSC on the remaining site waste/schedule and operational planning, including crew size and crew briefings. He continued to assist START with the Field Characterization activities.

The crew continued to remove sludge from AST Nonhazardous Group 1 N OT 6, N OT 5, and N OT 3. These tanks were rinsed using the bean pump and the majority of the sludge removed. They continued to work on cleaning the warehouse building and bays. The completed the pressure washing of VB 607.

One sludge box received from Dynamic Rental.

Lonestar LLC still shut down due to problem with service lines to Gulf Coast Waste Water Authority. Some progress was made in their lab on a recipe of additives to reduce the FT1004 odor.
