Subject: EPA 608

Dear Ms. Hupp,

I have been provided your contact information as someone to reach out to with regard to potential changes in section 608. I am Vice President of Sales and Marketing for Bacharach Inc., a 100 year old Pennsylvania based company that designs and produced HVAC-R instrumentation focusing on refrigerant leak detection and combustion and emissions analysis. As such, we see the positive impact of the requirements of section 608 and the attention to refrigerant leakage in the following areas:

•□□□□□□□□ Cost savings to the operators of refrigerated equipment such as food retailers through lower energy and refrigeration management costs, enhancing their profitability and sustainability

•□□□□□□□□ Employment benefits to certified refrigeration contractors through enhance awareness and demand for their services and benefits

•□□□□□□□□ Consumer satisfaction enhancements through the supply of effectively refrigerated and frozen goods throughout the refrigerated supply chain

•□□□□□□□□ Business benefits to manufactures such as Bacharach that produce refrigeration leak detection and monitoring equipment to support the effectiveness of refrigeration management programs

It is my hope that you find this brief overview useful relative to ongoing considerations for changes to section 608. If you think I may beneficial to you further in this area, please feel from to contact me directly. My contact details are noted in my signature lines below.

Thank you for your consideration. With kind regards,

Barry

Subject: Administrator Pruitt's interest in meeting with Australian agriculture leaders during his upcoming visit to Australia?

Hi Sidney,

I am the staff person that worked with you to arrange for a May meeting between Administrator Pruitt and members of the United Egg Producers. It was a very successful meeting, and we really appreciated your assistance in making that happen, and the fact that Administrator Pruitt took the time to do the meeting and to be so engaged.

UEP's Senior Vice President, David Inall, attended the May meeting with Administrator Pruitt. David, who is native to Australia, moved back there in July with this family to take the position of Chief Executive Officer of the Australian Dairy Producers Association. David mentioned in an email to me last week that he saw a story that said Administrator Pruitt was planning business travel to Australia. No dates were given in that story for the travel. David asked me to convey to Administrator Pruitt's staff that he would be pleased to arrange for a meeting between Administrator Pruitt, or his staff, and leadership from Australian agriculture groups if that were to be of interest and value to him. If this is something that the Administrator would like to consider, if you can tell me the dates of his availability in Melbourne or other locations in Australia during the travel, David would be happy to send a formal letter of invitation so that you have something in writing to process.

Let me know if you can.

I hope you are having a good summer. If I can be of any assistance on any other matter please let me know!

Best,

Tom Hebert

Subject: External Meeting Request Form for Administrator Pruitt from Robert C. Wright, President and Owner of Murex LLC

Dear Miss Hale,

I have attached an external meeting request form for Robert C. Wright, President and Owner of Murex LLC. As the form shows, he would like to meet with Administrator Pruitt for 15-30 minutes at the next available time and place. He can be very flexible in accommodating Administrator Pruitt's schedule.

We have summarized our request below and in the attachment (which is the same as the form below.) If you need backup for anything we will be happy to provide it.

Thank you. You have been very helpful and we appreciate your assistance.

Regards,

Rick Bartel, CFO, Murex LLC

7160 North Dallas Parkway, Suite 300, Plano, Texas 75024

972-735-3308; www.murexltd.com

External Meeting Request Form for Administrator E. Scott Pruitt

U.S. Environmental Protection Agency

To request the Administrator to attend and/or speak at your event, please complete and submit the following form.

Today's Date: March 17, 2017

Meeting Date: First available date

Meeting Time: At Administrator Pruitt's convenience

Requested Location (if offsite, please list address, parking instructions, etc.): Administrator Pruitt's office or Administrator Pruitt's preference. (Administrator Pruitt is welcome to visit Murex's office at address below.)

Requestor: Robert C. Wright, President and Owner, Murex LLC
($4.1 billion revenue private ethanol marketer and distributor)
7160 N. Dallas Parkway, Suite 300, Plano, Texas 75024;
ethanolbob@murexltd.com; 214-616-8885

Purpose of the Meeting: To request reversal of punitive provisions of the Renewable Fuel Standard which damage small businesses through government overreach, specifically, requiring replacement RINs and penalties for companies who have provided an affirmative defense (done no wrong).

Background on the Meeting: We have been involved with the EPA since 2007 in the RINS area and worked to help establish the Quality Assurance Programs. In doing so we have been exposed to some of the RIN fraud cases with damages as follows:

Murex LLC Damages in Millions

	Replacement RINs	RIN Value	Penalties	Total
Actual Damages	17.9	$ 12.7	$ 0.3	$ 12.9
Pending Liability	19.8	17.6	-	17.6
Total Damages	**37.8**	**$ 30.3**	**$ 0.3**	**$ 30.6**

Murex sold RINs we thought were valid to major oil companies. We conducted extensive due diligence (affirmative defense) but were fooled by criminals. When the EPA declared the RINs invalid, the oil companies had to supply replacement RINs and in some cases were assessed penalties. Murex's contracts with customers required Murex to make whole the oil companies, resulting in huge losses and a great injustice where honest people are punished for no apparent reason.

Role of the Administrator: To reverse the replacement RIN and penalty provisions of the Renewable Fuels Standard for companies providing an affirmative defense. The oil companies would receive replacement RINs and penalties back and Murex would recover RINs and penalties through release agreements.

Attendee: Robert C. Wright

Point of Contact: Robert C. Wright

Subject: Re: Meeting with Administrator Pruitt

We'd like to talk about opportunities for regulatory innovation and improvement. We're very active with the rest of the business community and with municipal government on ways EPA programs could become more efficient and closely aligned with statutory goals.

We're hoping we can be a resource for the Administrator, particularly in terms of ideas for ways to meet his goal of facilitating progress in working through the Superfund pipeline, sustaining some essential research and educational functions for RCRA, and improving the roll-out of recently promulgated air standards for municipal landfills. We've been discussion these issues with some EPA staff and think they have real promise. We know how critical the Administrator's support would be for these continued discussions.

Waste Management has been fortunate to work with Administrator Pruitt at one of our innovative advanced biofuel sites at East Oak Landfill in Oklahoma, so we know he's familiar with the company. This would be a policy discussion about some key EPA programs.

If you need more, just let me know!

Dear Sydney,

As a follow up to Administrator Pruitt's conversation with Mr. Meese, I wanted to provide you with the speaking invitation details for Heritage's 40th Annual Resource Bank Meeting.

Our Resource Bank Meeting brings together about 500 leaders, influencers, and donors from across the conservative movement to talk about powerful ideas, innovative strategies, and effective marketing. This year's meeting will be held May 10-12 at The Broadmoor in Colorado Spring. Our theme is "Rise to the Challenge," and we think that Commissioner Pruitt would be a very inspiring speaker during our Robert H. Krieble Dinner on Thursday, May 11.

We are happy to cover travel and hotel costs, and I am happy to answer any questions you might have about logistics, other speakers, the topic, and our audience.

Best,

Bridgett Wagner

Event: The Heritage Foundation's 40th Annual Resource Bank Meeting

Theme: "Rise to the Challenge"

Dates: May 10-12, 2017

Location: The Broadmoor Resort - Colorado Springs, CO

Request: Keynote the Robert H. Krieble Dinner – Thursday, May 11

Hi Sydney! I will get the form back to you tomorrow for the mid-year, but wanted to quickly respond for next week. I'd like to take you up on the meeting on Wednesday, March 29 at 3:00. I assume this will be at EPA's offices?

Tentative attendees include:

•□□□□□□□□ Granger MacDonald, Chairman of the Board, a Kerrville, Texas-based builder and developer with 40 years of experience in the home building industry.

•□□□□□□□□ Randy Noel, MIRM, CGB, CMP, First Vice Chairman of the Board, a Louisiana-based custom home builder with more than 30 years of experience in the residential construction industry. Noel founded Reve Inc., a custom home building firm in LaPlace, La., in 1985.

•□□□□□□□□ Greg Ugalde, CGP, GMB, Second Vice Chairman of the Board, a Connecticut builder and developer. Ugalde is president and chief legal officer of Torrington-based T&M Building Co., Inc., one of the largest home builders in the state. T&M Homes has built more than 3,500 new single-family attached and detached homes in over 40 Connecticut communities.

•□□□□□□□□ Dean Mon, Third Vice Chairman of the Board, a New Jersey-based builder and developer with more than 30 years of experience in the home building industry. Mon is president of the D.R. Mon Group, Inc., which specializes in the development and construction of green urban living projects throughout New Jersey.

•□□□□□□□□ Gerald M. Howard, Chief Executive Officer, has more than 25 years of lobbying and association experience in Washington, D.C.

•□□□□□□□□ Dave Ledford, EVP, Housing Finance and Regulatory Affairs, NAHB

•□□□□□□□□ Michael Mittelholzer, AVP, Environmental Policy, NAHB

I will send a list of topics to be discussed tomorrow.

Thanks again!

Susan

Subject: NAHB Meeting w Administrator Pruitt

Hi Sydney!

Thanks for the call today. The National Association of Home Builders is very interested in having EPA Administrator Pruitt speak before a larger group of our members. In an effort to accommodate his schedule, we are willing to create a special meeting during our Mid-Year Meeting if the Administrator is available. The timing for the meeting would be Thursday, June 15 at a time that is convenient between 12:30 and 2:30 at the Marriott Wardman Park, 2660 Woodley Road, NW, Washington, DC. We would have an audience of approximately 700 members who are interested in hearing about Administrator Pruitt's vision for the agency, how the agency will address some of the high priority issues, and steps that may be taken to improve the regulatory environment for the Nation's home builders. We would also like to reserve some time for questions, if allowed.

Our Senior Officers would also like to meet privately with Administrator Pruitt. They will be in town and available for a quick visit next week, if a meeting on such short notice is possible. They could be available Wednesday, March 29, between 3 – 5 pm or Thursday, March 30, between 8 am – 12 pm. They could also be available for a meeting on Wednesday, June 14 or before or after the address to the members on June 15, if that schedule works.

Please take another look at the calendar and let me know what might be possible. I look forward to working with you and the Administrator in the future.

Thanks for your assistance!

Susan

Hi Bridgett,

Thank you for reaching out! Administrator Pruitt certainly wants to participate in this event. Would you please fill out the attached event request form so that we can begin some logistical planning on our end? I look forward to working with you on this.

Thank you!

Subject: Heritage Foundation invitation to speak at our 40th Annual Resource Bank Meeting - May 11 in Colorado Springs

Dear Sydney,

As a follow up to Administrator Pruitt's conversation with Mr. Meese, I wanted to provide you with the speaking invitation details for Heritage's 40th Annual Resource Bank Meeting.

Our Resource Bank Meeting brings together about 500 leaders, influencers, and donors from across the conservative movement to talk about powerful ideas, innovative strategies, and effective marketing. This year's meeting will be held May 10-12 at The Broadmoor in Colorado Spring. Our theme is "Rise to the Challenge," and we think that Commissioner Pruitt would be a very inspiring speaker during our Robert H. Krieble Dinner on Thursday, May 11.

We are happy to cover travel and hotel costs, and I am happy to answer any questions you might have about logistics, other speakers, the topic, and our audience.

Best,

Bridgett Wagner

Event: The Heritage Foundation's 40th Annual Resource Bank Meeting

Theme: "Rise to the Challenge"

Dates: May 10-12, 2017

Location: The Broadmoor Resort - Colorado Springs, CO

Request: Keynote the Robert H. Krieble Dinner – Thursday, May 11

Sent: Tue 3/28/2017 3:16:23 PM
Subject: Invitation to Administrator Pruitt to Offer a Keynote Address to the Nation's Egg Producers in DC on May 17, 18 or 19, 2017
doc20170324144145.pdf

Dear Ms. Hupp,

I hope you are well and settling in nicely at EPA.

Please see attached a letter inviting the Administrator to offer a keynote address to the nation's egg producers at a meeting being held by United Egg Producers (UEP) here in Washington, D.C. on May 17, 18 or 19, 2017. Details are included in the letter.

UEP's farmer members raise hens that produce about 95% of the nation's eggs, and most of that egg production will be accounted for by the 150 or so egg producers in the audience listening to Administrator Pruitt's address should he decide to do this. These producers and UEP have been at the forefront of several US EPA rulemakings and policies that are central to how farmers operate today; Clean Water Act matters involving the Concentrated Animal Feeding Operations (CAFO) rule, WOTUS rule and the Chesapeake Bay TMDL as well as Clean Air Act and CERCLA/EPRCA matters as they relate to ammonia and other air emissions. These are tremendously important issues that relate directly to how egg producers can continue to proudly meet their environmental responsibilities and the growing demand for eggs, and in general make their contribution to the nation's safe, wholesome and abundant food supply.

These farmers would appreciate hearing about Administrator Pruitt's plans for US EPA's environmental programs so they can better understand how they could contribute to the success of his efforts and what these plans might mean for their farms and businesses.

Please let me know if you have any questions or if the Administrator can accept this invitation. Thank you in advance for your consideration of this request.

Best!

Honorable Scott Pruitt, Administrator
U.S. Environmental Protection Agency
Office of the Administrator, 1101A
1200 Pennsylvania Avenue, N.W.
Washington, D.C. 20460

Dear Mr. Administrator:

In May, members of United Egg Producers from across the United States will gather in Washington May 17-19 for their annual legislative meeting. UEP is the voice of egg farmers, and our members produce and independently market more than 90% of all eggs in the United States. Farmers will take this opportunity to speak with their own elected officials about developments in our industry as well as legislative and regulatory issues that are priorities for family-owned farms. Both producers and processors of eggs will attend.

The purpose of this letter is to invite you to be a keynote speaker during our meetings, which will be conveniently held at the Hyatt Regency Washington on Capitol Hill, 400 New Jersey Avenue, N.W. We would be honored by your perspectives on environmental issues and regulations as they affect agriculture, including the Waters of the United States rule and other timely topics that you feel would be important for our group. We anticipate approximately 150 attendees for your address.

We will do our best to accommodate your schedule, but we have several time slots already set aside for speakers. The best times from our standpoint would be Wednesday, May 17, anytime between 1 and 2:30 p.m.; Thursday, May 18, anytime between 2:30 and 5 p.m.; or Friday, May 19, anytime between 8 and 11 a.m.

We will follow up with your staff in the near future to see whether you will be able to speak to our group. Thank you in advance for your consideration of our request.

Sincerely,

Chad Gregory
President and CEO

Subject: Meeting requests from CLA and the Ag CEO Council

Ryan,

Byron may be forwarding this request to you, but, I would like to suggest an adjustment to over-asking of your time. Specifically…

1. As requested, would either or both of you be available to brief the CropLife America (CLA) 'Strategic Oversight Council (SOC)' (association operating board = pesticide business leaders) next Tues or Wed, March 21 or 22 at CLA's office, 1156 15th St, NW, Ste 400, Washington, DC?_
2. ***Amended request,*** would Administrator Pruitt be available to reschedule the meeting with the *Production Ag "CEO Council"* (*full* membership of the small group Byron met with last week) Wed or Thurs, March 29 or 30? This group can come to EPA or welcome him to the meeting also being held at CLA's office, 1156 15th St, NW, Ste 400, Washington, DC.

Thanks for each of your receptiveness to our outreach to the Agency as you are building your

leadership team and priorities. We are flexible in the 'who, when and where' of each of these meeting requests, and look forward to hearing from your office soon.

Kindly,

Rebeckah

AROW
ALLIANCE TO RESTORE OUR WATERWAYS

The Honorable Scott Pruitt
Administrator
U.S. Environmental Protection Agency
William Jefferson Clinton Federal Building
1200 Pennsylvania Avenue, NW
Washington, DC 20460

Dear Administrator Pruitt,

On behalf of the Alliance to Restore Our Waterways (AROW), we write to request a meeting with you and your staff on Thursday, April 20, 2017 to discuss ways to improve implementation of the U.S. Environmental Protection Agency's Superfund program. Meeting attendees will include senior executives from companies including, but not limited to, Boeing, Honeywell, BASF, Dow and Schnitzer Steel, that are affected by the cleanup process at contaminated sediment sites.

We appreciate your consideration of our request. Please contact Marissa Serafino at Marissa.Serafino@hklaw.com or (202) 469-5414 should you have any further questions.

Sincerely,

Rich Gold
Executive Director

To: Hupp, Sydney[hupp.sydney@epa.gov]
Cc: David Wilkins[David.Wilkins@nelsonmullins.com]
From: Justin Meyers
Sent: Tue 3/28/2017 2:29:59 PM
Subject: RE: Meeting with Administrator Pruitt

Sydney,

Ambassador Wilkins asked me to reply on his behalf.

The meeting attendees will be:

Brad Wall, Premier of Saskatchewan

Reg Downs, Senior Advisor, Premier Wall

Kent Campbell, Deputy Minister, Saskatchewan

Ambassador David Wilkins, Partner, Nelson Mullins

Justin Meyers, Policy Advisor, Nelson Mullins

Ambassador Wilkins' cell number is (864) 704-6548 in case something comes up.

The meeting will primarily focus on energy and regulatory files between the US and Canada – specifically CCS (carbon capture and sequestration) and reducing regulatory burdens on fossil fuel producers in Canada and the US. Premier Wall is fighting for the continued use of coal in Canada, against a carbon tax and against stringent methane regulations from oil and gas production. Saskatchewan is home to the Boundary Dam III project which is a retrofit of a 115 MW coal fired power plant with carbon capture and sequestration, and in 2014 became the world's first commercial post combustion CCS plant. Saskatchewan is also the 3rd largest coal producer in Canada, the second largest oil producer in Canada and third largest natural gas producer.

I have also included Premier Wall's bio below.

Please let us know if we can provide anything further.

Justin

Honourable Brad Wall

Brad Wall was first elected Premier of Saskatchewan in the November 2007 provincial election.

His government was re-elected in the 2011 provincial election with 64% of the popular vote and in the 2016 provincial election with 62% of the popular vote – the highest percentages of any political party in Saskatchewan history.

Premier Wall's government can point to a remarkable list of achievements, including:

- The largest personal income and property tax cuts in the history of Saskatchewan;
- Reducing the province's operating debt by 40 per cent and saving $1.2 billion in interest payments since 2008;
- Saskatchewan receiving a AAA credit rating from Moody's Investors Service for the first time; the highest level possible for a provincial government;
- Population growth of 132,000 people in 8 years – more growth than the previous 75 years combined to an all-time high of 1.14 million people;
- Implementing a Patients' First Review of the province's health care system and reducing surgical wait times from the longest in Canada to among the shortest;
- The most aggressive youth retention program in the country to ensure Saskatchewan's young people stay and work in the province; and
- Record infrastructure spending to improve roads, schools, hospitals and senior's facilities all across Saskatchewan.

Premier Wall is also a passionate advocate for the province's most vulnerable, often saying that the purpose of pursuing economic growth is to "secure a better quality of life for all Saskatchewan people."

His government created a new direct income support for people with disabilities called the Saskatchewan Assured Income for Disability (SAID) program, eliminated service wait lists for those with intellectual disabilities and have increased autism support and services by 1500%

During the last few years, Premier Wall has been consistently rated as Canada's most popular premier in public opinion polls. He has earned a national reputation as a forceful and articulate

defender of Saskatchewan's and Canada's trade interests, particularly in the areas of energy and agriculture.

Premier Wall was first elected to the Saskatchewan Legislature in 1999, representing the constituency of Swift Current. Prior to entering elected politics, he was active in his local business community and involved in service work spanning local events, economic development and health care recruitment.

Premier Wall was born and raised in Swift Current, which is in Saskatchewan's southwest. He still lives there with his wife, Tami. He and his wife have three children.

Premier Wall received his post secondary education at the University of Saskatchewan, where he earned an Honours degree in Public Administration.

In his spare time, Premier Wall enjoys spending his time with family, reading, cooking, golfing, and cheering for the Saskatchewan Roughriders.

Subject: Request for meeting for the Dairy Industry

Good morning, Ryan and Michelle. I am reaching out on behalf of the dairy industry to request a meeting with Administrator Pruitt to bring in Newtrient and top dairy industry leaders, including the dairy industry associations to discuss how they can work with EPA to advance their private/public solutions to these environmental issues.

My client, Newtrient is the entity set up by the dairy industry and the dairy check-off program to address their environmental waste issues by advancing manure management, the marketplace, and advancing the adoption of environmental asset markets for voluntary pollution prevention services. Newtrient has been a supporter and significant influencer in EPA¹s Nutrient Recycling Challenge. Leaders of the dairy industry all serve on his board and direct activities. Newtrient"s board represents
50+% of the country"s milk supply (20,000 dairy farms). The board includes Dairy Farmers of America, Land O'Lakes, Select Milk, United Dairy Men, Darigold, Agri-Mark and more. It represents farms of all sizes. Plus, the DMI, the dairy checkoff and the industry trade association. National Milk Producers Association also serve.

I have attached a brief one-pager for your review.

I look forward to working with you and Scott in this new critical role.

Best,
Denise

Cc: Gadhia, Ami <agadhia@aap.org>
Subject: RE: Meeting with Administrator Scott Pruitt

My name is Cheryl Woodward, your of Point of Contact for logistics for your meeting at EPA. Below are the instructions/directions to EPA and if you have any logistic question, I will be glad to assist you. Sydney will answer your questions regarding the meeting.

Directions: If you come by Metro, the Federal Triangle metro stop is directly below the building entrances. You would leave the metro station and go up all three sets of escalators and then do a small

U-Turn to the right heading toward 12th street, the North Lobby entrance is directly and immediately to your left (Glass Doors -EPA Signified on Glass).

If you are coming by taxi/vehicle, you want to be dropped off on 12th NW, between Constitution Ave and Pennsylvania Ave. It is almost exactly half way between the two avenues on 12th street and the Federal Triangle Metro sign can be used as a landmark. From 12th Street, facing the building with the EPA and American flags, walk toward the building (under the flags) and take the glass door on your left hand side with the escalators going down to the metro on your left. This again will be the South Lobby of the William Jefferson Clinton building.

Once inside the building, security will prompt you to scan all items such as bags, coats etc., and then let the guards know that you were instructed to call Cheryl Woodward at 564-1274 or Michelle Hale at 564-1430 to escort you to the meeting with the Administrator. Security will make temporary cards for everyone. Allow for 15 minutes to get through the process.

EPA Administrator Pruitt Speaker Request Form.docx

Here is the form. It wasn't clear to me which dates you were looking at or whether you were looking at a meeting or a "speech" so I gave you all the options in the form. Let me know if this works.

Again, our options are:

•□□□□□□ Thursday April 6 Board of Directors breakfast between 7am -8 am. Location - Fairmont Hotel (2401 M St NW), Culpepper Room

•□□□□□□ Thursday April 6 Board of Directors meeting between 8 am and noon. Location - Fairmont Hotel (2401 M St NW), Roosevelt Room

•□□□□□□ Wednesday, April 5 between 10:15 and 11:30 am – at your EPA office

•□□□□□□ Wednesday, April 5 between 7 am-8 am – breakfast meeting with our Board. Location - Fairmont Hotel (2401 M St NW), Roosevelt Room

Subject: NAFO meeting request follow-up

Ryan, Sydney – I wanted to follow up on this meeting request to have Administrator Pruitt speak with our Board next week. I know Crystal has spoken with you about it. We are anxious to get a day/time nailed down, as this meeting is a high priority for our fly-in.

One thing I wanted to clarify is that we are now fully booked in the afternoon on April 5. Our blocks of time in order of preference now are:

•□□□□□□ Thursday April 6 Board of Directors breakfast between 7am -8 am. Location - Fairmont Hotel (2401 M St NW), Culpepper Room

•□□□□□□ Thursday April 6 Board of Directors meeting between 8 am and noon. Location - Fairmont Hotel (2401 M St NW), Roosevelt Room

•□□□□□□ Wednesday, April 5 between 9 am and 11:30 am – at your EPA office

•□□□□□□ Wednesday, April 5 between 7 am-8 am – breakfast meeting with our Board. Location - Fairmont Hotel (2401 M St NW), Roosevelt Room

Information is attached. Let me know! And thank you.

Jane Alonso

Your message to christina.danford@mail.house.gov couldn't be delivered.

Security or policy settings at mail.house.gov have rejected your message.

hupp.sydney	**Office 365**	**mail.house.gov**
Sender		**Action Required**
		Security or policy violation

How to Fix It

The recipient's email server won't accept your message because it appears to violate their security or policy settings. Check the Reported error below to see if you can determine why it was blocked. Then try one or more of the following:

- **If the error mentions SPF, DKIM, or DMARC issues, forward this message to your email admin for assistance.**
- **The recipient's email server might suspect that your message is spam. Follow the guidance in this article: E-mailing Best Practices for Senders. Then resend your message.**
- **If the error suggests your message is too large, try to reduce the size of your attachment. If that isn't possible, place the file on a publicly accessible cloud storage location, like OneDrive. Then add a link to the file in your message, and resend the message.**
- **Contact the recipient (by phone, for example) and tell them to ask their email admin to add you or your email domain to their allowed senders list.**

If the problem continues, forward this message to your email admin. If you're an email admin, refer to the More Info for Email Admins section below.

Was this helpful? Send feedback to Microsoft.

More Info for Email Admins

Status code: 550 5.7.1

This error occurs when the recipient's domain has security or policy settings that reject the sender's message. However, we were unable to determine the specific setting that's causing this rejection. Usually the error is reported by an email server outside of Office 365. Common issues include the following: the receiving server suspects the message is malicious or spam; the Sender Policy Framework (SPF) record for epa.gov is incorrectly configured or doesn't exist; or the message includes an attachment larger than the receiving server will accept. Try one or more of the following:

Review the reported error - Check the **Reported error** shown below to help determine what the issue might be. For example, if the issue is related to an SPF failure, the reported error will usually include the acronym "SPF" or the phrase "Sender Policy Framework."

Correctly configure your SPF records - If you're the sender's email admin, make sure your domain's SPF records at your domain registrar are properly configured. Office 365 supports only one SPF record (a TXT record that defines SPF) for your domain. Include the following domain name: **spf.protection.outlook.com**. If you have a hybrid configuration (some mailboxes in the cloud and some mailboxes on premises) or if you're an Exchange Online Protection standalone customer, add the outbound IP address of your on-premises servers to the TXT record. To learn how, see Customize an SPF record to validate outbound email sent from your domain and External Domain Name System records for Office 365.

Unable to relay - If the **Reported error** indicates a problem with relaying (e.g. "unable to relay"), then the email server that reported the error likely isn't set up correctly to receive and relay messages from the sender's domain. This server will usually be one of your on-premises servers in a hybrid environment, a smart host email service that you're trying to route messages through, or possibly even an email hosting service you used in the past yet still have mail flow settings pointing to (e.g. your MX record at your domain registrar still points to your previous email service provider). Check **Error reported by** shown below to determine what domain, service, or server is reporting the error. The email server needs to be configured to either accept messages from anonymous users or to include the sending domain or IP in its list of authenticated senders. On an Exchange server, you can set this up in the server's receive connector. If it's a smart host managed by another service or partner, contact the service or partner to configure their servers to accept and relay messages from your senders. Also, work with your domain registrar to make sure your MX records are properly configured.

Contact the recipient's email admin - For some scenarios, you can fix the issue by contacting the email admin at the recipient domain to ask them to add the sender's email address or your domain to their allowed senders list, or to relax the setting that's causing the rejection.

For more information and tips for fixing this issue, see Fix email delivery issues for error code 5.7.1 in Office 365.

Common issues include the following: the receiving server suspects the message is malicious or spam; the Sender Policy Framework (SPF) record for epa.gov is incorrectly configured or doesn't exist; or the message includes an attachment larger than the receiving server will accept. Try one or more of the following:

Review the reported error - Check the **Reported error** shown below to help determine what the issue might be. For example, if the issue is related to an SPF failure, the reported error will usually include the acronym "SPF" or the phrase "Sender Policy Framework."

Correctly configure your SPF records - If you're the sender's email admin, make sure your domain's SPF records at your domain registrar are properly configured. Office 365 supports only one SPF record (a TXT record that defines SPF) for your domain. Include the following domain name: **spf.protection.outlook.com**. If you have a hybrid configuration (some mailboxes in the cloud and some mailboxes on premises) or if you're an Exchange Online Protection standalone customer, add the outbound IP address of your on-premises servers to the TXT record. To learn how, see Customize an SPF record to validate outbound email sent from your domain and External Domain Name System records for Office 365.

Unable to relay - If the **Reported error** indicates a problem with relaying (e.g. "unable to relay"), then the email server that reported the error likely isn't set up correctly to receive and relay messages from the sender's domain. This server will usually be one of your on-premises servers in a hybrid environment, a smart host email service that you're trying to route messages through, or possibly even an email hosting service you used in the past yet still have mail flow settings pointing to (e.g. your MX record at your domain registrar still points to your previous email service provider). Check **Error reported by** shown below to determine what domain, service, or server is reporting the error. The email server needs to be configured to either accept messages from anonymous users or to include the sending domain or IP in its list of authenticated senders. On an Exchange server, you can set this up in the server's receive connector. If it's a smart host managed by another service or partner, contact the service or partner to configure their servers to accept and relay messages from your senders. Also, work with your domain registrar to make sure your MX records are properly configured.

Contact the recipient's email admin - For some scenarios, you can fix the issue by contacting the email admin at the recipient domain to ask them to add the sender's email address or your domain to their allowed senders list, or to relax the setting that's causing the rejection.

For more information and tips for fixing this issue, see Fix email delivery issues for error code 5.7.1 in Office 365.

Subject: FINAL Meeting Agenda and Materials
Pruitt Meeting Materials.pdf

Sydney,

We have refined our proposed topics for today's CEO Council meeting with the administrator. Attached, please find:

•□□□□□□ Revised "Final Proposed Agenda Topics," which includes the list of those CEO Council members who will attend our meeting today, and their short bios

•□□□□□□ Introduction / Mission Overview of the CEO Council

•□□□□□□ CEO Council Letter to President Trump, dated February 9, 2017

We assume we can skip a formal "round table of introductions" at the beginning of the meeting as our time is short and we want to maximize time spent talking about issues.

MJ

Mary Jo Tomalewski

Executive Assistant to the President & CEO

CropLife America

Future Meetings

2017 Spring Regulator Conference – April 6-7, Arlington, VA

2017 Annual Meeting – September 22-27, Dana Point, CA

2018 Winter Board of Directors Meeting – March 5-7, Washington, DC

2018 Annual Meeting – September 21-26, The Ritz-Carlton Amelia Island

FINAL PROPOSED AGENDA TOPICS

Meeting Information: **Office of EPA Administrator Scott Pruitt**
1200 Pennsylvania Avenue, NW
Washington, DC
Thursday, March 30, 2017 3:45-4:30 PM

Topic
1. Thanks to Trump Administration and Administrator Pruitt for early decisive actions: a. WOTUS b. Chlorpyrifos Petition
2. Top Priority Issues a. **Ag Advisor Position –** We recommend adding additional title of "Assistant Deputy Administrator" as a title b. **Water** i. Next steps to refine / clarify beyond WOTUS ii. NPDES permits (CAFO Program needs work; legislation to fix water permits NOT needed for lawful use of pesticides) c. **Pesticides Policy** i. **Endangered Species Act** conflicts with Pesticide Regulation and Biotech Regulation ii. **Epidemiology** Study Policy (as aftermath from Chlorpyrifos matter) iii. **Reform Certification & Training and Worker Protection Rules** – Suspend implementation and revise d. **Renewable Fuels Standard** – current program kept consistent e. **Communication / Messaging / Opinion Polling** – vital to all parties' ability to advance sound policy f. **EPA and USDA Cooperation and Coordination** – Already vast progress; more can be done! g. **Environmental Justice, Research & Development, and Children's Health Offices** – Better integration with and reform of EPA program offices; sound science h. **Regulation of Manufacturing & Mining Facilities for Ag Inputs** – Restore science and process i. **Public and Science Advisory Panels** at EPA – Balance, strategic agendas j. **"Air Emissions"** from farming operations

CEO Attendees

American Seed Trade Association	Andrew "Andy" LaVigne, President and CEO
American Soybean Association	Steve Censky, Chief Executive Officer (***Co-Chair***)
Biotechnology Innovation Organization	Dana O'Brien, Executive Vice President
CropLife America	Jay Vroom, President and CEO (***Co-Chair***)
The Fertilizer Institute	Chris Jahn, President
National Association of Wheat Growers	Chandler Goule, CEO
National Corn Growers Association	Chris Novak, CEO (***Co-Chair***)
National Cotton Council	Gary Adams, President and CEO
National Council of Farmer Cooperatives	Chuck Conner, President and CEO
National Pork Producers Council	Neil Dierks, CEO
United Fresh Produce Association	Tom Stenzel, President and CEO
USA Rice Federation	Betsy Ward, President & CEO
National Association of State Departments of Agriculture	Barb Glenn, CEO, ***ex-officio***

Others

American Farm Bureau Federation	Dale Moore, Deputy Executive Director
Corn Refiners Association	John Bode, President & CEO
National Farmers Union	Rob Larew, Senior VP

Production Agriculture's CEO Council

Introduction/Mission Statement: The production agriculture "CEO Council" coordinates alignment on core issues of modern agricultural systems through telling our story, sharing information and leveraging our strengths, while serving as a resource for government decision makers and others interested in USA food, fiber and renewable fuels.

Core Focus of Interest

- Research and innovation
- Technology access
- Science and risk-based regulation
- Sustainability, environment, and weather
- Marketability, trade, and economic prosperity
- Government leadership and partnership with private sector
- Food access and food safety
- Plant and animal health
- Ag labor

The Council supports (principles/themes):

- Accelerating rural economic growth and improving productivity through innovation and technology
- Promoting research and innovation that enables development of tools and techniques necessary for discovering new products that hold tremendous potential for farmers and society at large
- Enabling a regulatory and commercial environment in which agricultural products are marketable, both domestically and internationally
- Appropriate balance between Federal and State Governments and a cooperative regulatory approach
- Access to essential labor in balance with an effective Federal immigration policy and adequate worker safety protections
- Support for all methods of agricultural production
- Transparency and dialogue with consumers

Members of the CEO Council (see reversed)

March 30, 2017

CEO Council Members

American Farm Bureau	Vincent "Zippy" Duvall, President
American Seed Trade Association	Andrew "Andy" LaVigne, President and CEO
American Soybean Association	Steve Censky, Chief Executive Officer (***Co-Chair***)
Biotechnology Innovation Organization	Dana O'Brien, Executive Vice President
CropLife America	Jay Vroom, President and CEO (***Co-Chair***)
The Fertilizer Institute	Chris Jahn, President
National Association of Wheat Growers	Chandler Goule, CEO
National Cattlemen's Beef Association	Kendal Frazier, CEO
National Chicken Council	Michael Brown, President
National Corn Growers Association	Chris Novak, CEO (***Co-Chair***)
National Cotton Council	Gary Adams, President and CEO
National Council of Farmer Cooperatives	Chuck Conner, President and CEO
National Farmers Union	Roger Johnson, President
National Milk Producers Federation	Jim Mulhern, President and CEO
National Pork Producers Council	Neil Dierks, CEO
United Fresh Produce Association	Tom Stenzel, President and CEO
USA Rice Federation	Betsy Ward, President & CEO
National Association of State Departments of Agriculture	Barb Glenn, CEO, ***ex-officio***

March 2017

February 9, 2017

The President
The White House
Washington, D.C. 20500

Dear Mr. President,

We, the CEO Council (undersigned herein), representing the production agricultural value chain, including many agricultural producers and farm input developers and suppliers, look forward to working with you and your Administration on matters of importance to American agriculture.

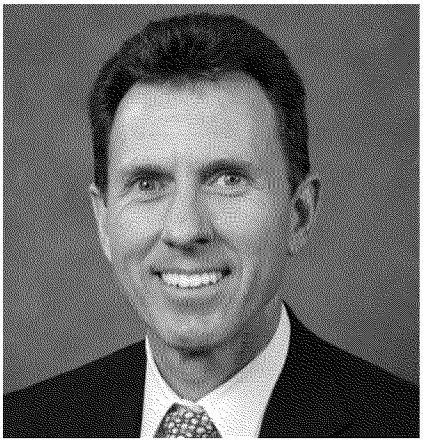
The challenges we face in agriculture are significant. Many experts emphasize that producers must grow as much food in the next 50 years as was produced over all previous history to meet the demands of our expanding global population. A firm commitment by the U.S. government to aggressively support agricultural innovation and science-based regulatory decisions will be necessary to ensure farmers have the tools they need to produce a safe and abundant supply of nutritious food, in addition to feed, fuel and fiber, in an environmentally sound and sustainable manner.

The policy and regulatory environment your Administration establishes can ensure that agricultural innovation flourishes and American farmers are able to meet the food production goals necessary to feed billions more people. We are ready to provide the White House and the Executive Branch Departments and Agencies, as well as Congress, with policy concepts that foster stability in the U.S. agriculture economy with a strong and predictable farm safety net and promotes American competitiveness through research; marketability and trade of agricultural commodities; rural economic growth; and plant, animal, and environmental health, among many other things.

We appreciate your attention to these and other issues of value to American production agriculture and food consumers everywhere.

Sincerely,

American Farm Bureau Foundation, Zippy Duvall
American Seed Trade Association, Andy LaVigne
American Soybean Association, Steve Censky
Biotechnology Innovation Organization , Dana O'Brien
CropLife America, Jay Vroom
The Fertilizer Institute, Chris Jahn
National Association of Wheat Growers, Chandler Goule
National Cattlemen's Beef Association, Kendal Frazier
National Corn Growers Association, Chris Novak
National Cotton Council, Gary Adams
National Council of Farmer Cooperatives, Chuck Conner
National Farmers Union, Roger Johnson
National Milk Producers Federation, Jim Mulhern
National Pork Producers Council, Neil Dierks
United Fresh Produce Association, Tom Stenzel
USA Rice Federation, Betsy Ward



Gary M. Adams
President and Chief Executive Officer
National Cotton Council of America

Gary Adams assumed the position of President and Chief Executive Officer of the National Cotton Council in February 2015. He plays a key role in guiding the industry's seven segments to reach consensus on critical policies affecting U.S. cotton, with the mission of helping all U.S. cotton industry segments compete effectively and profitably in global markets.

Prior to that, Gary served the Council for 13 years as the Vice President of Economic and Policy Analysis. As the Council's chief economist, he provided economic outlooks for global cotton markets, as well as analyzing the impacts of farm and trade policies.

Gary also represents the U.S. cotton industry as a member of USDA's Agricultural Policy Advisory Committee. Previously, Gary served on USDA's Advisory Committee on Trade from 2005 through 2011 and the NASS Advisory Committee on Agricultural Statistics from 2003 through 2009.

Prior to joining the Council, Gary was a Research Assistant Professor in the Department of Agricultural Economics at the University of Missouri. During his 13-year tenure at the university, Gary's primary responsibilities included policy analysis and market outlook for the Food and Agricultural Policy Research Institute, also known as FAPRI. While at FAPRI, Gary and his colleagues were recognized by the American Agricultural Economics Association for their distinguished policy contributions.

Gary has B.S. and M.A. degrees in Applied Mathematics from the University of Alabama and a Ph.D. in Agricultural Economics from the University of Missouri. Gary and his wife, Carol, have four children.

Stephen L. Censky
Chief Executive Officer

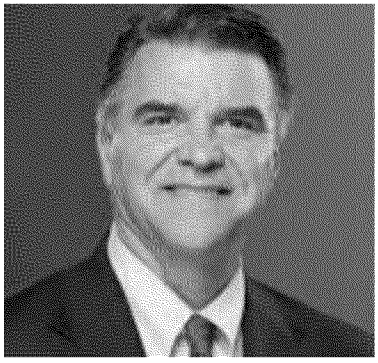
Stephen L. Censky is the American Soybean Association's (ASA) Chief Executive Officer, a staff position he accepted in April 1996. As ASA's top executive, Censky is in charge of managing ASA's legislative, trade policy, membership and education and training programs.

The American Soybean Association is a national, not-for-profit commodity organization with over 22,000 members. ASA works as the domestic and international policy advocate for soybean producer members.

Prior to joining ASA, Censky worked in Washington, D.C. for over a decade. He began his career on Capitol Hill as a legislative assistant for agricultural and transportation matters to Senator Jim Abdnor (R-SD). Later he served in both the Reagan and Bush Administrations at the U.S. Department of Agriculture, helping to craft the 1990 Farm Bill and eventually serving as Administrator of the Foreign Agricultural Service where he was involved in global trade negotiations and running our nation's export programs.

Censky received his Bachelor's of Science degree of Agriculture from South Dakota State University and his Master's Diploma in Agriculture Studies from the University of Melbourne, Australia.

NCFC
National Council of Farmer Cooperatives



Charles F. (Chuck) Conner

President and CEO
National Council of Farmer Cooperatives

Charles F. (Chuck) Conner became president & CEO of the National Council of Farmer Cooperatives (NCFC) on January 22, 2009. As president of NCFC, Conner will oversee the organization's work to promote and protect the business and public policy interests of America's farmer-owned cooperatives. He will also provide the strategic vision for the trade association as it continues to seek new ways in which to add value for its membership.

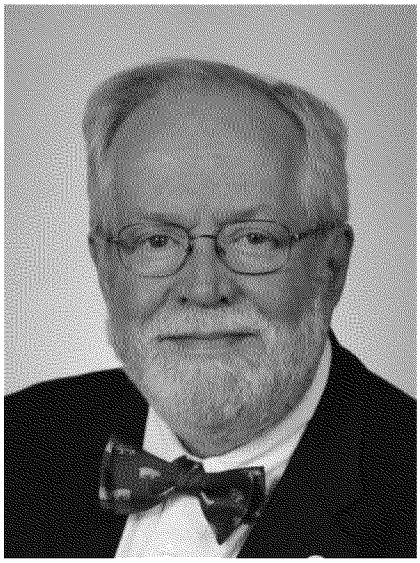
Prior to joining NCFC, Conner had served as the Deputy Secretary at the U.S. Department of Agriculture since mid-2005. In this capacity, he was the Chief Operating Officer (COO) overseeing day-to-day operations of the department. Conner interacted directly with President George W. Bush and his senior staff to formulate domestic and international food, trade, security and energy policy. He led development of the Bush Administration's $300 billion Farm Bill proposal and the strategy to educate and inform industry, constituents and Congress.

From August 2007 to January 2008, Conner served as both USDA Secretary and Deputy Secretary. He played a key role in developing the Administration's immigration policy including important changes to the H2A program.

Conner's experience also includes the assignment of Special Assistant to the President, Executive Office of the President, from October 2001 to May 2005, working on the 2001/2 Farm Bill to develop the strategy behind the transfer of several USDA agency functions to the newly formed Department of Homeland Security.

From May 1997 to October 2001 Conner served as President of the Corn Refiners Association. He also served for 17 years as an advisor to U.S. Senator Richard Lugar of Indiana.

Conner is a graduate of Purdue University, with a Bachelor's of Science degree and is the recipient of Purdue's Distinguished Alumni Award. He and his wife Dru have four children.



Neil Dierks, Chief Executive Officer

Neil Dierks is Chief Executive Officer of the National Pork Producers Council (NPPC). In this position, he is responsible for the overall implementation of all NPPC programs. Dierks' position requires him to spend time in both Des Moines, Iowa, the national office of NPPC, and Washington, D.C.

Beginning in 1990, Dierks served NPPC in a series of senior executive positions, including Executive Director of Operations, Vice President for Research and Education and Senior Vice President for Programs. Prior to his service with NPPC, Dierks was the Special Activities Director for the Iowa Pork Producers Association and Marketing Director for the Iowa Corn Promotion Board.

Neil grew up on a livestock farm in eastern Iowa and remains involved in a family farming operation. He is a graduate of Iowa State University.

Dr. Barbara Glenn recently joined the National Association of State Departments of Agriculture (NASDA) as CEO on August 18, 2014.

NASDA is a nonpartisan, nonprofit association which represents the elected and appointed commissioners, secretaries, and directors of the departments of agriculture in all fifty states and four U.S. territories.

Dr. Glenn is a scientist with decades of experience as a policy researcher and advocate for agriculture. She previously served as Senior Vice President of Science and Regulatory Affairs for CropLife America, where she was responsible for developing policies and regulations to support agriculture through crop protection. Prior to joining CropLife America, Dr. Glenn served as Managing Director of the Animal Biotechnology, Food and Agriculture Section of the Biotechnology Industry Association in Washington, DC.

Dr. Glenn holds a B.S. in animal science and a Ph.D. in ruminant nutrition from the University of Kentucky. She previously worked for the U.S. Department of Agriculture, Agricultural Research Service and the Federation of Animal Science Societies.

Born in Lincoln, Nebraska and raised in Centerville, Ohio, Dr. Glenn developed a passion for agriculture from her parents and her involvement in 4-H. She lives on a small farm in Maryland with her husband and three children, and serves on various boards for farm bureau and 4-H.

Chandler Goule
CEO

Chandler Goule assumed his responsibilities as CEO of the National Association of Wheat Growers on July 5, 2016. In addition, he also serves as the executive director of the National Wheat Foundation.

Most recently, Goule served as senior vice president of programs at the National Farmers Union (NFU) where he was heavily involved in farm bill legislation.

Originally from Texas, Goule holds degrees from Texas A&M and George Washington University and served as a subcommittee staff director for the House Agriculture Committee before moving to the National Farmers Union in 2009 as vice president of government relations. He was appointed senior vice president of NFU programs in 2014.

The Fertilizer Institute
Nourish, Replenish, Grow

BIOGRAPHY OF CHRISTOPHER JAHN

President
The Fertilizer Institute and the Nutrients for Life Foundation

Christopher L. Jahn is president of The Fertilizer Institute (TFI), the fertilizer industry's national trade association. As TFI president, Jahn works to represent, promote and protect a sound fertilizer industry through legislative and regulatory activities and to promote a favorable public image of the fertilizer industry and agriculture. Jahn also serves as president of the Nutrients for Life Foundation (NFL).

Jahn comes to TFI having served as president of the National Association of Chemical Distributors (NACD) since 2006. Prior to leading NACD, Jahn served as president of the Contract Services Association (CSA).

Before joining CSA, Jahn had an active role in the United States Senate working for nearly 10 years for U.S. Senator Craig Thomas (R-Wyo.) in a variety of roles, including legislative assistant, legislative director and Chief of Staff.

After graduating from Columbia University with a B.A. in Political Science, Jahn co-founded a book distribution business. He also earned an MBA from the University of Maryland.

A native of Wyoming, Chris and his wife, Marianne, live in Fairfax Station, Va., with their two children.

Roger Johnson
President

Roger Johnson is president of the National Farmers Union (NFU), a grassroots organization that represents more than 200,000 family farmers, ranchers, fisherman and rural communities across the Unites States.

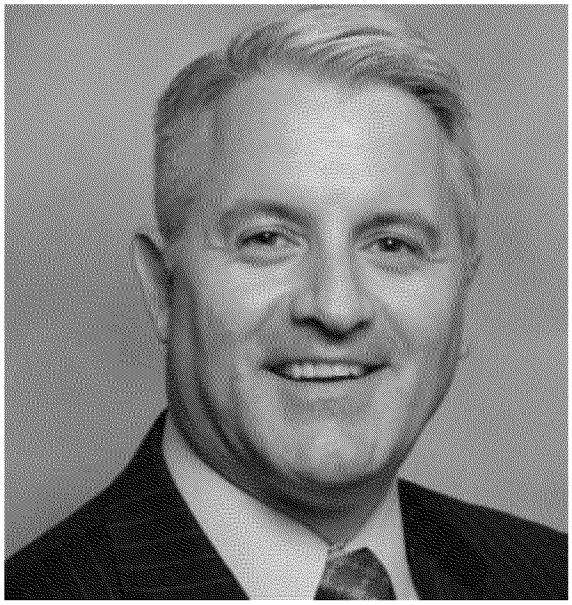
Johnson was elected to lead the family farm organization at NFU's 107th anniversary convention in 2009. He has since expanded the education department by providing more programs for beginning, college-aged and women farmers, increased the number of Farmers Union state divisions, and developed a strategic plan for the organization. Johnson has also overseen a number of important policy initiatives important to family farmers including: passage of the 2014 Farm Bill; maintaining a strong Renewable Fuel Standard and Country-of-Origin Labeling, promoting policies that allow farmers to address the growing threat of climate change; and renewing the nation's focus on eliminating an overwhelming trade deficit that results in lost jobs and prosperity for rural America.

Prior to leading National Farmers Union, Johnson, a third-generation family farmer from Turtle Lake, N.D., served as North Dakota Agriculture Commissioner, a position he was first elected to in 1996. While Agriculture Commissioner, Johnson served on the State Industrial Commission, the North Dakota Trade Office Advisory Board, and the State Board of Agricultural Research and Education, among many other boards and commissions.

From 2007-2008, Johnson served as president of the National Association of State Departments of Agriculture (NASDA). He is a past president of the Midwestern Association of State Departments of Agriculture (MASDA), past president of the Food Export Association of the Midwest and a former chairman of the Interstate Pest Control Compact.

Johnson graduated from North Dakota State University with a degree in agricultural economics. Johnson and his wife, Anita, are the proud parents of a daughter and two sons and have three grandchildren.

AMERICAN SEED TRADE ASSOCIATION



Andrew W. "Andy" LaVigne
President & CEO

Andrew W. LaVigne is currently the President and CEO of the American Seed Trade Association. He joined ASTA in February, 2006. Andy has had a 30-year career in government relations, industry representation, public affairs advocacy, and management. His core areas of expertise include agriculture, food policy and international trade.

Prior to joining ASTA, Andy was Executive Vice President/CEO of Florida Citrus Mutual, representing citrus growers on issues affecting their business. Prior to joining Florida Citrus Mutual, Andy spent four years as Florida Fertilizer and Agrichemical Association's (FFAA) President and Executive Director. FFAA is a non-profit, agricultural trade organization representing companies that specialize in crop protection and plant nutrition products.

Before his position at FFAA, Andy spent eight years in Washington, D.C. working in the U.S. Congress and the U.S. Department of Agriculture. He served as Legislative Director for Congressman Charles Canady, Agriculture Committee staffer for Congressman Tom Lewis, and on the staff of USDA Secretary Ed Madigan.

Andy is a native of Florida with a BA degree in Political Science, with a minor in economics, from the University of Florida.

1701 Duke Street • Suite 275 • Alexandria, VA 22314 • Phone: (703) 837-8140 • Fax: (703) 837-9365

Biotechnology Innovation Organization

Dana O'Brien

Executive Vice President, Food & Agriculture

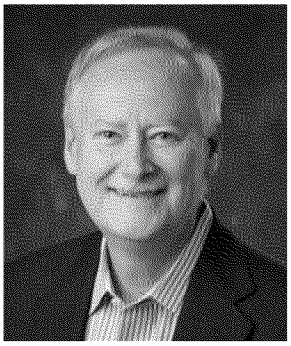
Dana O'Brien is Executive Vice President for Food and Agriculture and is responsible for the development of public policy and strategic advocacy, public affairs, and legal strategies that advance industry and stakeholder objectives in the United States.

Prior to becoming EVP, Dana served as BIO Food and Agriculture's chief legislative advocate as Senior Director of Federal Government Relations since March 2011.

Before BIO, Dana worked in Congress for the late Representative Ike Skelton (D-MO) managing his legislative team and concentrating on a variety of agricultural, energy, and trade matters.

A native of Sedalia, Missouri, and a graduate of Missouri University with a bachelor's degree in psychology, Dana joined the Skelton team immediately out of college and served there for nearly 14 years

UNITED FRESH
PRODUCE ASSOCIATION



Tom Stenzel
President and CEO
United Fresh Produce Association
1901 Pennsylvania Avenue NW, Suite 1100
Washington, DC 20006
202/303-3400
tstenzel@unitedfresh.org

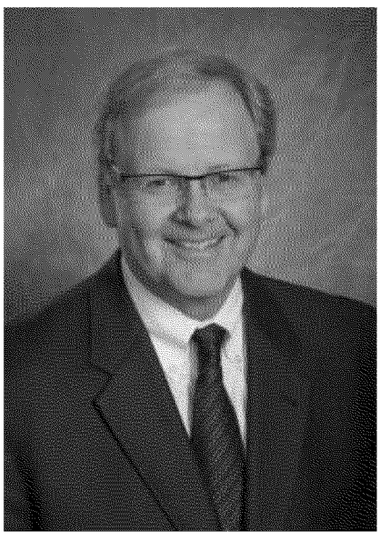
Tom Stenzel is President and CEO of the United Fresh Produce Association, a position he has held since 1993. United Fresh is the pre-eminent trade association for the produce industry in shaping legislative and regulatory policies; providing scientific and technical leadership in food safety and nutrition; and developing educational programs for its members. Founded in 1904, United Fresh represents the interests of companies from small family businesses to the largest international corporations throughout the global fresh produce supply chain.

United Fresh is widely known for its work in government affairs, agricultural policy, food safety and nutrition, working to promote political and environmental change to help the next generation of children double their consumption of fresh produce. The United Fresh Start Foundation is committed to increasing children's access to fresh fruits and vegetables, and is a founding partner of the *Let's Move Salad Bars to Schools* campaign. The campaign has donated salad bars to more than 6,000 schools across the country.

Tom is a frequent speaker on industry issues and has been recognized often by the produce industry throughout his career. He was honored as the 2002 *Produce Man of the Year* by *The Packer* newspaper, and is the past Chairman of the International Federation for Produce Standards, a global body representing national produce associations around the world.

He is a member of the U.S. Chamber of Commerce Committee of 100 leading association executives, the Advisory Board of the International Food Protection Training Institute, and the Key Industry Associations Committee of the American Society of Association Executives, from which he achieved the Certified Association Executive (CAE) designation in 1990. He has served in many government and industry leadership positions, including the first U.S. Department of Agriculture Fruit and Vegetable Industry Advisory Committee, President George W. Bush's Transition Advisory Team for Agriculture, and as an advisor on the U.S. Agricultural Policy Advisory Committee for Trade.

Tom was the founding President of the International Food Information Council (IFIC) in 1986, and was previously director of public affairs for the National Soft Drink Association. Tom is a 1977 graduate of the University of Richmond.



Jay Vroom has served as President and CEO of the trade association known as CropLife America (CLA) since 1989. CLA is the leading U.S. trade group for the crop protection industry in the U.S.

Vroom is a founding member of the CropLife Foundation, serving as chairman since its inception in 2001, and now serves as the Foundation's Vice-Chair, since 2015.

His sits of the Board of Directors for the Agricultural Retailers Association, Asmark, National Wheat Foundation, the National Association of Manufacturers Council of Manufacturing Associations, and the Soil Health Institute. He is also a member of the Farm Foundation Roundtable Steering Committee, and the North American Climate Smart Ag Alliance Steering Committee.

Vroom was a member of the youth organization, Future Farmers of America, and served as an elected state officer in Illinois. Today, he is a member of the FFA Foundation's Individual Giving Council and Board of Trustees.

Vroom co-chairs the Coalition for the Advancement of Precision Agriculture and the CEO Council.

He is a member of the Friends of the National Arboretum (FONA) FONA Council.

He graduated with honors from the College of Agriculture, Consumer and Environmental Sciences at the University of Illinois Urbana-Champaign. Vroom was raised on a grain and livestock farm in north-central Illinois and continues to own the farming operation.

Elizabeth Ward

Betsy Ward was appointed President & CEO of the USA Rice Federation in 2007. From 2003-2005, Ward was the Vice President of International and Domestic Promotion at USA Rice where she was in charge of developing and implementing domestic and international promotion, and food aid programs.

From 2005-2007, Ward served as the chief executive for the Hardwood Federation, a trade association representing over 15,000 hardwood producers across the United States. From 1995 to 2003, she ran the Wood Products International Group at the American Forest & Paper Association, directing the wood trade policy and global forestry agenda for the industry.

In 2011, Ward was elected Chairman of the U.S. Agricultural Export Development Council (USAEDC) which represents the interests of more than 80 commodity organizations who grow and process a wide variety of U.S. agricultural products. She currently serves as Past Chair. Since 2011, Ward has also served on the Board of Directors of the Sustainable Fisheries Partnership, an independent non-governmental organization (NGO) working to ensure healthy marine and aquatic ecosystems; secure seafood supplies; and a thriving, responsible seafood economy.

Ward served for six years as a cleared advisor on the Industry Trade Advisory Committee for forest and paper products (ITAC-7) and was appointed forest products representative to USDA's Agricultural Policy Advisory Committee (APAC) in 2001.

Ward holds a Bachelor's degree in History and Political Science from the University of New Hampshire and a Master's degree in International Security Affairs from the School of International Affairs at Columbia University.

Good morning Jane,

Thank you for the follow up and for the additional information! My apologies for the delay in responding to your request, we have been inundated with scheduling requests over the last few weeks but are happy that you have reached out to us! Would you be so kind as to fill out the attached speaking request form? It helps us with to streamline the requests and gets the answers we have to have knocked out early. Please feel free to reach out to me with any questions!

Thank you!

Ryan, Sydney – I wanted to follow up on this meeting request to have Administrator Pruitt speak with our Board next week. I know Crystal has spoken with you about it. We are anxious to get a day/time nailed down, as this meeting is a high priority for our fly-in.

One thing I wanted to clarify is that we are now fully booked in the afternoon on April 5. Our blocks of time in order of preference now are:

- Thursday April 6 Board of Directors breakfast between 7am -8 am. Location - Fairmont Hotel (2401 M St NW), Culpepper Room

- Thursday April 6 Board of Directors meeting between 8 am and noon. Location - Fairmont Hotel (2401 M St NW), Roosevelt Room

- Wednesday, April 5 between 9 am and 11:30 am – at your EPA office

- Wednesday, April 5 between 7 am-8 am – breakfast meeting with our Board. Location - Fairmont Hotel (2401 M St NW), Roosevelt Room

Information is attached. Let me know! And thank you.

Subject: Meeting

Dear Sydney,

Thank you very much for the finding us a slot to meet the Administrator despite the short notice.

Following our meeting we have agreed to meet during my next visit to US in the end of the month.

I would appreciate to appoint in advance the meeting with Administrator and with his team that will be required regarding following issues:

1. WaterGen – Water Air Generators product and the standards; our technology is saving the tremendous amount of electricity and standards of energy stars for home appliance air conditioners, dehumidifiers and industrial one.

2. Vertical Field – the solution for the pollution, I have left the materials

3. Smart LED – I will send you the materials in order to save energy and to reduce the pollution of the fluorescent lamps.

I would appreciate to have the meeting on 24 April if it is possible, if not kindly advise other alternatives.

I would appreciate to get the details of Sara, who attended our meeting and the picture we made with Administrator.

Many thanks,

Maxim.

Dear Sydney,

Ed Newberry said that you were Administrator Pruitt's scheduler and I am reaching out to you to schedule a meeting with our client BIO.

Last week, the Biotechnology Innovation Organization (BIO), sent you an invitation requesting a meeting sometime in the afternoon of April 4, 2017. Members of their Board of Directors would appreciate the opportunity to discuss ways in which the industry can help EPA and President Trump achieve lower drug cost while encouraging the continued growth and success of the biotechnology industry.

Specifically, the members of the Board would like to discuss BIO's commitment to assist in lowering healthcare costs, enhance the national response to biologic threats and pandemics, and improve the FDA regulatory system to speed the approval of safe and effective medicines and other biotechnology products. I will also attend the meeting.

I've attached a formal invitation and would greatly appreciate your consideration. Please let us know if you need further information or have any questions.

Many thanks.

Cc: David Wilkins <David.Wilkins@nelsonmullins.com>
Subject: RE: Meeting with Administrator Pruitt

Sydney,

Ambassador Wilkins asked me to reply on his behalf.

The meeting attendees will be:

Brad Wall, Premier of Saskatchewan

Reg Downs, Senior Advisor, Premier Wall

Kent Campbell, Deputy Minister, Saskatchewan

Ambassador David Wilkins, Partner, Nelson Mullins

Justin Meyers, Policy Advisor, Nelson Mullins

Ambassador Wilkins' cell number is (864) 704-6548 in case something comes up.

The meeting will primarily focus on energy and regulatory files between the US and Canada – specifically CCS (carbon capture and sequestration) and reducing regulatory burdens on fossil fuel producers in Canada and the US. Premier Wall is fighting for the continued use of coal in Canada, against a carbon tax and against stringent methane regulations from oil and gas production. Saskatchewan is home to the Boundary Dam III project which is a retrofit of a 115 MW coal fired power plant with carbon capture and sequestration, and in 2014 became the world's first commercial post combustion CCS plant. Saskatchewan is also the 3rd largest coal producer in Canada, the second largest oil producer in Canada and third largest natural gas producer.

I have also included Premier Wall's bio below.

Please let us know if we can provide anything further.

Justin

Honourable Brad Wall

Brad Wall was first elected Premier of Saskatchewan in the November 2007 provincial election.

His government was re-elected in the 2011 provincial election with 64% of the popular vote and in the 2016 provincial election with 62% of the popular vote – the highest percentages of any political party in Saskatchewan history.

Premier Wall's government can point to a remarkable list of achievements, including:

- The largest personal income and property tax cuts in the history of Saskatchewan;
- Reducing the province's operating debt by 40 per cent and saving $1.2 billion in interest payments since 2008;
- Saskatchewan receiving a AAA credit rating from Moody's Investors Service for the first time; the highest level possible for a provincial government;
- Population growth of 132,000 people in 8 years – more growth than the previous 75 years combined to an all-time high of 1.14 million people;
- Implementing a Patients' First Review of the province's health care system and reducing surgical wait times from the longest in Canada to among the shortest;
- The most aggressive youth retention program in the country to ensure Saskatchewan's young people stay and work in the province; and
- Record infrastructure spending to improve roads, schools, hospitals and senior's facilities all across Saskatchewan.

Premier Wall is also a passionate advocate for the province's most vulnerable, often saying that the purpose of pursuing economic growth is to "secure a better quality of life for all Saskatchewan people."

His government created a new direct income support for people with disabilities called the Saskatchewan Assured Income for Disability (SAID) program, eliminated service wait lists for those with intellectual disabilities and have increased autism support and services by 1500%

During the last few years, Premier Wall has been consistently rated as Canada's most popular

premier in public opinion polls. He has earned a national reputation as a forceful and articulate defender of Saskatchewan's and Canada's trade interests, particularly in the areas of energy and agriculture.

Premier Wall was first elected to the Saskatchewan Legislature in 1999, representing the constituency of Swift Current. Prior to entering elected politics, he was active in his local business community and involved in service work spanning local events, economic development and health care recruitment.

Premier Wall was born and raised in Swift Current, which is in Saskatchewan's southwest. He still lives there with his wife, Tami. He and his wife have three children.

Premier Wall received his post secondary education at the University of Saskatchewan, where he earned an Honours degree in Public Administration.

In his spare time, Premier Wall enjoys spending his time with family, reading, cooking, golfing, and cheering for the Saskatchewan Roughriders.

Ryan, Sydney – I wanted to follow up on this meeting request to have Administrator Pruitt speak with our Board next week. I know Crystal has spoken with you about it. We are anxious to get a day/time nailed down, as this meeting is a high priority for our fly-in.

One thing I wanted to clarify is that we are now fully booked in the afternoon on April 5. Our blocks of time in order of preference now are:

- Thursday April 6 Board of Directors breakfast between 7am -8 am. Location - Fairmont Hotel (2401 M St NW), Culpepper Room

- Thursday April 6 Board of Directors meeting between 8 am and noon. Location - Fairmont Hotel (2401 M St NW), Roosevelt Room

- Wednesday, April 5 between 9 am and 11:30 am – at your EPA office

- Wednesday, April 5 between 7 am-8 am – breakfast meeting with our Board. Location - Fairmont Hotel (2401 M St NW), Roosevelt Room

Information is attached. Let me know! And thank you.

Jane Alonso

Vice President for Government Relations

National Alliance of Forest Owners (NAFO)

122 C Street, NW, Suite 630

Washington, DC 20001

jalonso@nafoalliance.org

NAFO®

National Alliance of Forest Owners

Who is NAFO? The National Alliance of Forest Owners is an advocacy association of 48 companies and 29 forestry associations representing over 80 million acres of private forestland throughout the country. Nationwide, private forests constitute 70% of the nation's forests and support 2.4 million jobs and $99 billion in annual payroll.

What is our business with EPA? NAFO has two significant policy matters pending before EPA:

1. Regulation of Biomass Carbon Emissions
   - Forest biomass is a plentiful renewable energy resource that is typically the product of forest management or mill operations.
   - Producing energy from this low value product provides mills with an efficient power supply, supports jobs in rural communities and provides a better economic return for forest owners, many of whom continue to struggle to find markets for their wood following the Great Recession.
   - For many years, EPA policy treated biomass as carbon neutral, in line with the rest of the world, meaning that any carbon emitted from combustion of biomass is recaptured by growing forests as part of the natural carbon cycle.
   - In 2010, without public notice or scientific basis, EPA's "Tailoring Rule" reversed that policy and regulated greenhouse gas emissions from biomass without regard for the natural carbon cycle.
   - Since 2010 EPA has repeatedly committed to revise and clarify its biomass policy but failed to do so. The resulting uncertainty has stalled investment in biomass energy at mills and stand-alone facilities.

     We are seeking to work with EPA to remove uncertainty about biomass in EPA policy through amendments to the Tailoring Rule that are pending at OMB. Clarity on biomass will correct EPA's policy on biomass, restore the natural forest carbon cycle as the underpinning for biomass energy policy, and support job-sustaining investment.

2. Waters of the US (WOTUS) Regulations
   - Forest management activities are generally consider nonpoint sources except for stormwater control ditches and herbicide applications.
   - Courts have required NPDES permits for herbicide applications in forests, but EPA has elected not to regulate ditches as point sources.
   - However, the expansion of WOTUS under the new definition will create confusion about where else the permits are required and what additional requirements are imposed if the ditches are now WOTUS.
   - Features that EPA declared to be WOTUS in the revised definition that are of concern to NAFO members include ephemeral and intermittent streams, ditches, and isolated wetlands.

     We are seeking to work with EPA to clarify in forthcoming regulatory action

NAFO
National Alliance of Forest Owners

that WOTUS will not extend to these water features.

List of NAFO Board Members attending:

Rene Ancinas - President, Port Blakely Tree Farms
Jerry Barag - President and CEO, CatchMark Timber
Earl Barrs - CEO, DueSouth Investments
Craig Blair - President and CEO, Resource Management Service
John Cashwell - Representative, BBC Land, LLC
Daniel Christensen - Chairman, Hancock Natural Resource Group
Tom Colgan - President and CEO, Wagner Forest Management
Michael Covey - Chairman and CEO, Potlatch Corporation
Cam Crawford - President and CEO, South Carolina Forestry Association
Mark Emmerson - Chairman and CFO, Sierra Pacific Industries
John Enlow - CEO, Deltic Timber
Eva Greger - Managing Director, GMO Renewable Resources
Stephen Hicks - President and CEO, JM Longyear LLC
Michael Kelly - President, Forest Investment Associates
Wesley Langdale - President, The Langdale Company
Toby Luther - President and CEO, Lone Rock Resources
Dick Molpus - President, Molpus Woodlands Group
Dave Nunes - President and COO, Rayonier
Douglas Reed - President, Green Diamond Resource Company
Steve Schley - President, Pingree Associates
Peter Sikora - COO, Giustina Resources
Doyle Simons - President and CEO, Weyerhaeuser Company
Peter Stein - Managing Director, The Lyme Timber Co
Chris Zinkhan - Chairman and CEO, The Forestland Group

We'd like to talk about opportunities for regulatory innovation and improvement. We're very active with the rest of the business community and with municipal government on ways EPA programs could become more efficient and closely aligned with statutory

goals.

We're hoping we can be a resource for the Administrator, particularly in terms of ideas for ways to meet his goal of facilitating progress in working through the Superfund pipeline, sustaining some essential research and educational functions for RCRA, and improving the roll-out of recently promulgated air standards for municipal landfills. We've been discussion these issues with some EPA staff and think they have real promise. We know how critical the Administrator's support would be for these continued discussions.

Waste Management has been fortunate to work with Administrator Pruitt at one of our innovative advanced biofuel sites at East Oak Landfill in Oklahoma, so we know he's familiar with the company. This would be a policy discussion about some key EPA programs.

If you need more, just let me know!

Subject: per Karen Bianco from your office - we are requesting a quick meeting between EPA Secretary Pruitt and EPSI President Steve Sexton
Vocgen National Plan Rev_Feb 14 2017.pdf

Dear Ms. Hupp,

Per a friendly conversation today (approx. 2:30 pm) and direction from your Karen Bianco to Mr. Doug R. Jarvis of Green Visions Solar in Upstate New York, Doug and I are writing to respectfully request/schedule a 5 to 10 minute appointment for a telephone conversation between Mr. EPA Secretary Scott Pruitt and EPSI (Environment & Power Systems International http://www.vocgen.com/) President, Mr. Steve Sexton; that Mr. Sexton may discuss how EPSI's VOCGEN technology can uniquely help our President Trump to revitalize U.S. manufacturing and jobs and careers in America, – and while directly positively affecting a cleaner environment than called for by the Clean Power Plan.

As background for that conversation, assuming Secretary Pruitt has not heard this yet from Mr. Tom Dadey, we attached the VOCGEN National Plan and drafted the below talking points:

• the Vocgen eliminates the age-old cost vs. compliance paradigm; making cost-effective air pollution controls and clean energy available to all industrial operations;

• Vocgen is a market-based energy (combined heat and power) and air pollution control solution designed to serve over 46,000 US industrial operations;

• Vocgen gensets (1 unit) reduce energy consumption; generating positive cash flows exceeding $1 Million/year;

• the Vocgen technology has been vetted by:

U.S. DOE - Department of Energy, Berkeley National Labs

U.S. EPA - Environmental Protection Agency

U.S. DARPA - Defense Advanced Research Projects Agency, an agency of the U.S. Department of Defense

GTI - Gas Technology Institute (formerly 1976 founded Gas Research Institute)

EPRI - Electric Power Research Institute

ACEEE - American Society for an Energy-Efficient Economy

CEC - California Energy Commission

We look forward to hearing from you in regard to scheduling a date and time.

Thank You Ms. Hupp and Ms. Bianco !

Should you have any questions regarding the VOCGEN technology or EPSI, toward scheduling the appointment, please feel free to call either of us at your convenience.

Best Regards

Doug and Mark

The Vocgen Solution for Industry

A national plan to help build a sustainable competitive manufacturing sector and an energy efficient economy

Steven E. Sexton, CEO and Managing Director of Environment & Power Systems International

An ambitious plan is proposed to replace energy -intensive air pollution controls at industry with a combined heat and power (CHP) technology that uniquely uses regulated air emissions as supplemental fuel for the cogeneration of electric power and useful high quality heat. The plan can substantially improve industrial energy security, environmental health and the overall economy of the United States of America.

At the heart of the patented VOCGEN power generator and the solution overall is the gas turbine oxidizer (GTO). The GTO is the only combined energy generator and air pollution control alternative that has undergone product development through peer group scrutiny via the stage-gate method including product prototyping; testing and evaluation; business case and planning; risk analysis; and a stage six (6) review of the economic feasibility representations essential for commercialization.

Vocgen is market-based energy efficiency and cost savings for manufacturing industries created by recycling VOC energy. It therefore eliminates the traditional cost necessary to operate air pollution control systems. Notably, a Vocgen power generator with an output of 560kWe and 6.4MMBtu high quality waste heat offsets ≈20,000 metric tons CO2e and toxics annually from regional coal-fired generation; representing high value emissions for trade.

VOCGEN is a combined air pollution control and cogeneration solution for industries subject to Title I of the Clean Air Act (CAA); the National Ambient Air Quality Standards (NAAQS) for ground level Ozone; CAA Title V air operating permit requirements for major sources; and the US EPA Clean Power Plan Guidelines.

Critical to its ability to replace legacy thermal destruction equipment costs at industry is the understanding that this innov ation is not a "me too" energy solution. It is a unique alternative that generates positive cash flows for the 20 -year+ life of its operation. When the legacy equipment is altogether replaced within a corporate fleet, an improved and competitive cost of operations model is achieved. This profitability is not realized by simply adding up the fuel value of volatile organic air emissions used to help fuel the generation of electric power and heat. It is realized by replacing the lifecycle costs of legacy therm al destruction equipment with the lifecycle savings produced by combined heat and power (CHP) equipment, consisting of specially designed and configured power and heat producing equipment. Such equipment is used to offset the emissions typically generated on the grid to energize, heat and cool industrial production processes and buildings at industry. It therefore offsets coal-fired power and emissions just like renewables.

Given the fact that only a handful of the 104 industrial categories regulated by the U.S. EPA/States have e ver deployed on-site combined cooling heating, and power (CCHP), the VOCGEN solution creates an extraordinary emergent market consisting of over 38,880 facilities within the United States alone. The significance of the emergent market is its potential for wealth generation and its potential to significantly grow industrial manufacturing sector including exports. This potential, despite the fact that the air pollution control market is saturated with inefficient legacy "burner" type equipment, can be quickly realized considering the contemporary factors shaping the mandate for the growth of a cost-effective and competitive U.S. industrial manufacturing sector.

Once national commercialization begins, the impact of the VOCGEN plan wi ll be nation wide industrial facility retrofit construction projects and jobs in support of cost-competitive manufacturing; representing a significant reduction in ground level Ozone and CO2e and a measurable reduction in environmental health cost. Primarily, the Vocgen wealth generating economic model has the potential to significantly improve business growth, create jobs and improvethe American economy.

Elizabeth,

Good morning and Happy Friday.

Ag America is holding its WDC Spring Conference on Wednesday, April 5. On behalf of Ag Commissioner and Ag America Chairman Ryan Quarles of Kentucky we invite Administrator Pruitt to address the Ag America Caucus and members at a time convenient for him. Approximately 40-45 attendees for the Conference.

If possible, we would like to request for the Administrator to speak at the Ag America Leadership Luncheon (12:15-1:15pm est) or during a time of the Ag America Caucus Policy and Issue Sessions (1:30-3:30pm est). Both functions will be taking place at the J.W. Marriott, 1331 Pennsylvania Avenue, NW. Attached is current agenda for the Conference.

Please feel free to contact me directly at tim@ouragfuture.com or 571 243 6530.

Many thanks and appreciate the consideration.

Ryan and Michelle,

Ryan, thanks for taking the time to meet on last Thursday.

Michelle, thanks again for getting me in for my picture with Mr. Pruitt on Thursday.

I have a request for Mr. Pruitt.

John Stanton leads the majority ownership group and is the CEO of the Seattle Marines major league baseball team.

I am trying to set up a phone call between Mr. Pruitt and Mr. Stanton.

Mr. Stanton would like to talk a little baseball, invite Mr. Pruitt out to a game in Seattle and discuss the EPA Region 10 Administrator position. Full disclosure, I have asked Mr. Stanton to speak with Mr. Pruitt on my behalf for this position.

Mr. Stanton has board meetings that start at 12 noon (Pacific Time) on Monday and run until Tuesday at 1 pm (Pacific Time) of next week but is otherwise available.

Let me know if we can make this call work. I am working out of the West Coast office this week as I have Washington State Senate budget votes scheduled here.

Subject: Meeting with Administrator Scott Pruitt

Good afternoon Zach and Ami,

Hope this email finds you well! I am reaching out today to set up a meeting between AAP and Administrator Pruitt per the letter sent by your president, Fernando Stein. If you would kindly fill out the attached request form we can begin the process of getting this meeting on the calendar. I look forward to working with you both!

Thank you,

Sydney Hupp

Hi Sydney,

Just finalizing everything for the meeting tomorrow.

I attached a short document that can be used as a pre-meeting brief. Please feel free to distribute that to the meeting participants and anyone that may need it.

Here are the meeting details as I have them:

Meeting with Administrator Pruitt, Nancy Beck, and Patrick Davis from 2pm-3pm, Wednesday May 24, 2017.

We will arrive at EPA about 15 minutes early (1:45). Should we ask for you?

Also, what entrance should we use? William Jefferson Clinton North?

Regards,

Robert

Administrator Pruitt,

I hope this finds you well. I am reaching out on behalf of the Society of Chemical Manufacturers & Affiliates (SOCMA). We are a trade association representing the specialty chemicals industry. I have attached a meeting request from SOCMA's CEO, Jennifer Abril.

SOCMA member companies employ more than 100,000 workers across the country and produce some 50,000 products - valued at $60 billion annually - that make our standard of living possible. From pharmaceuticals to cosmetics, soaps to plastics, and all manner of industrial and construction products, SOCMA members make materials that save lives, make our food supply safe and abundant, and enable the manufacture of literally thousands of other products people use daily.

We hope to introduce you to some of the key players in the specialty chemical industry and explain our high priority issues.

Please contact me if you have any questions.

Regards,

Robert

Sydney,

Steve Johnson has asked that I work with you to get this meeting on the calendar for July.

Some options on our end would be as follows:

July 11, 12, 13 or 18

Let me know if any of these dates could work for the Administrator.

Attending from our side

Thanks very much for you help in getting this meeting on the schedule.

Subject: RE: Meeting Request for Administrator Pruitt [WARNING: DKIM validation failed]

My name is Cheryl Woodward and I will assist you in the logistics for your meeting at EPA on Wednesday, May 24th at 2pm. The instructions/directions to EPA is below and if you have any questions please contact me. Look forward to seeing you all.

Directions: If you come by Metro, the Federal Triangle metro stop is directly below the building entrances. You would leave the metro station and go up all three sets of escalators from

the train otherwise two escalators then do a small U-Turn to the left heading toward 12th street, the South Lobby entrance is directly and immediately to your right (Glass Doors -EPA Signified on Glass).

EPA address is 1200 Pennsylvania Avenue, NW. If you are coming by taxi/vehicle, you want to be dropped off on 12th NW, **which is between Pennsylvania and Constitution Avenue**. It is almost exactly half way between the two avenues on with Federal Triangle Metro sign and Trump Hotel Towers side entrance can be used as a landmark. From 12th Street, facing the building with the EPA and American flags, walk toward the building (under the flags) and take the glass door on your left hand side with the escalators going down to the metro on your left. This again will be the **South Lobby of the William Jefferson Clinton building.**

Once inside the building, security will prompt you to scan all items such as bags, coats etc., and then let the guards know that you were instructed to call Cheryl Woodward at 564-1274 or Michelle Hale at 564-1430 to escort you to the meeting with the Administrator. Security will make temporary cards for everyone. Allow for 15 minutes to get through the process.

Hi, Jim, thank you for your note and invitation. I'm copying our Executive Scheduler, Sydney Hupp, to get this in the hopper.

Appreciate you!

Michelle

Subject: Request to Scott Pruitt to speak in September or October at Heartland Institute Benefit Dinner

Michelle,

I hope you are well, and I appreciate all the work you did to see if Administrator Pruitt could speak at The Heartland Institute's climate conference in March. I hope Mr. Pruitt could speak at another Heartland event, which is why I'm sending this email.

Below my signature is an official invitation from Heartland Institute President Joseph Bast for Mr. Pruitt to be the keynote speaker at our annual benefit dinner, tentatively scheduled for September or October, depending on what's best for his schedule. We will be mailing this out in hard-copy form later this week, but I wanted to get the ball rolling immediately.

We certainly hope Administrator Pruitt will say "yes," and let me know if you have any questions.

Warm regards,

Jim Lakely
Director of Communications

Environmental Protection Agency

Office of the Administrator, 1101A

1200 Pennsylvania Avenue, N.W.

Washington, DC 20460

Dear Administrator Pruitt:

Thank you for everything you've been doing to advance President Trump's agenda.

I was sorry your schedule didn't allow you to speak at our Twelfth International Conference on Climate Change, held March 23-24 in Washington DC. It was a huge success!

I am writing to ask if you could come to Chicago this fall to speak at The Heartland Institute's 33rd Anniversary Benefit Dinner. The event will be on a Wednesday or Thursday evening in September or October. We can be flexible for whatever date best suits you.

The event likely will be held in the evening at The Cotillion, a fine banquet hall located in a town just down the road from our offices in Arlington Heights, Illinois. The venue is used frequently by elected officials and candidates during political seasons and can hold up to 800 people.

Each year, our anniversary dinners attract nearly 500 people – and with you as our honored keynote speaker, we'd surely sell out the hall with nearly a thousand friends and pro-Trump supporters.

I hope you or your scheduler can give me a call soon with a "yes," and any other questions you might have regarding our event. You can reach me at 312/377-4000, or by email at jbast@heartland.org.

Please know that everyone here at Heartland is pulling for you and the entire Trump administration to be a success. Nothing less than the future of liberty is riding on it.

Sincerely,

Joseph L. Bast

About The Heartland Institute

The Heartland Institute is a 33-year-old national nonprofit research organization, founded in 1984, dedicated to finding and promoting ideas that empower people.

Mission: Our mission is to discover, develop, and promote free-market solutions to social and economic problems.

Staff: A full-time staff of 39, including 30 working in Arlington Heights, Illinois. Joseph Bast is president and CEO. Dr. Herbert Walberg is chairman of the board.

Policy Advisors: 370 academics and professional economists serve as policy advisors and 250 elected officials pay dues to serve on our Legislative Forum.

Publications: Heartland sends four monthly policy newspapers – *Budget & Tax News*, *Environment & Climate News*, *Health Care News*, and *School Reform News* – to every national and state elected officials in the United States and thousands of civic and business leaders. It also produces books, policy studies, booklets, podcasts, and videos.

Communications: In 2016, we appeared in print and on television or radio 853 times with a combined print circulation of 67.7 million readers. We hosted 15 websites generating more than 1.8 million pages views.

Policy Bot: Heartland hosts an online database and search engine called *PolicyBot* containing the complete text of (not just links to) more than 32,000 reports and commentaries from some 300 free-market think tanks and advocacy groups.

Events: Heartland hosted 68 events in 2016, attended by 10,616 people. We have hosted 12 International Conferences on Climate Change since 2008, attended by more than 5,000 people.

Government Relations: We contacted elected officials more than one million times in 2016, with 24,948 total direct personal contacts with elected officials, including 4,963 face-to-face meetings, 5,374 phone calls, 13,970 personal email contacts, and 641 contacts via personal mail.

Public positions: We focus on issues in education, environmental protection, health care, budgets and taxes, and constitutional reform.

Funding: Our 2016 income came from the following sources: foundations 67%; individuals 19%; business 11%; other 3%. Heartland is funded entirely by the tax-deductible contributions of its supporters and receives no funds from any government at any level.

Contact information: 3939 North Wilke Road, Arlington Heights, IL 60004, phone 312/377-4000, email think@heartland.org.

For more information: The "About" page on our website at www.heartland.org contains endorsements of our work, a history, and video prepared for our 25th anniversary in 2009.

Administrator Pruitt,

The CEO of WPX Energy, Rick Muncrief, would like the opportunity to meet with you to discuss the regulaotyr environment for the oil and gas industry and update you on the challenges and opportunities that the industry faces going forward.

You are likely familiar with WPX Energy since it is based in Tulsa – but by way of background, the company is an upstream on-shore oil and gas company with operations in the Permian Bain, the Williston Basin, and the San Juan Basin.

Mr Muncrief will be in Washington, DC next week and is available on Wednesday, May 24 in the afternoon, or Thursday, May 25 in the morning.

Please let me know ifyou have any questions. Thanks for your consideration. Best, Elizabeth Gore

From: Woodward, Cheryl
Sent: Tue 5/23/2017 5:13:06 PM
Subject: RE: email introduction re: July scheduling request with EPA Administrator Pruitt

My name is Cheryl Woodward and I will assist you in the logistics for your meeting at EPA on Wednesday, July 12 at 2:30 pm. The instructions/directions to EPA is below and if you have any questions please contact me. I will need your list of attendee's by July 5 close of business. Security will need to prepare passes after attendee's clear security screening and the process of our large group visitor goes very smoothly and quickly for escorting to the Administrator's reception area. Look forward to seeing you all.

Directions: If you come by Metro, the Federal Triangle metro stop is directly below the building entrances. You would leave the metro station and go up all three sets of escalators from the train otherwise two escalators then do a small U-Turn to the left heading toward 12th street, the South Lobby entrance is directly and immediately to your right (Glass Doors -EPA Signified on Glass).

EPA address is 1200 Pennsylvania Avenue, NW. If you are coming by taxi/vehicle, you want to be dropped off on 12th NW, **which is between Pennsylvania and Constitution Avenue**. It is almost exactly half way between the two avenues on with Federal Triangle Metro sign and Trump Hotel Towers side entrance can be used as a landmark. From 12th Street, facing the building with the EPA and American flags, walk toward the building (under the flags) and take the glass door on your left hand side with the escalators going down to the metro on your left. This again will be the **South Lobby of the William Jefferson Clinton building.**

Once inside the building, security will prompt you to scan all items such as bags, coats etc., and then let the guards know that you were instructed to call Cheryl Woodward at 564-1274 or Michelle Hale at 564-1430 to escort you to the meeting with the Administrator. Security will make temporary cards for everyone. Allow for 15 minutes to get through the process.

Thanks for your flexibility. We look forward to the visit on Wed, July 12 at 2:30 pm. In terms of questions about room set-up, we would like the meeting to be as interactive as possible. I defer to your judgement as to how the room is arranged given the space.

Please let us know what we need to do as it relates to security and entering the building. Some initial questions include:

- Do you need to know the names of attendees in advance? If so, what information do you need?
- What entrance do visitors need to use to enter the building? Will someone meet us in the lobby and direct us to the room location?

Sydney,

I am also trying to schedule a meeting/visit to DOT with Secretary Chao. Her office got back to me last night and requested Thursday, July 13 in the afternoon.

Before I work with them further, I wanted to double back with you to see if Wed, July 12 around 2:30 pm would be a possibility for us to travel to EPA to meet with Administrator Pruitt – rather than Thursday.

If not, we understand and I'll work with the Secretary Chao's office on timing. We might be able to complete two agency meetings on Thursday afternoon. Our flight leaves late out of DC.

I'm just trying to be aware of all my options as we put the pieces together that is our agenda puzzle!

I sincerely appreciate all your help on this request.

This is great. To be on the safe side with travel, can we say 2 pm for the meeting start time? I received confirmation on Sen. Paul's time and it's 12:15 pm. I think having this extra 30 minutes will be better in case he is running late (which has happened every year).

How much time do you think we should allow for a group of 50 to get through security at EPA?

Sydney,

Great news! Right now, our schedule on Wednesday, July 12 and Thursday, July 13 is flexible. I've sent speaking requests to all the Kentucky delegation offices and to Secretary Chao. I'm waiting to hear back from them.

We have space reserved in the Capitol Visitors Center for both days from 9:00 am to 3:00 pm.

Is there a time that you think would be better for Mr. Pruitt? Would he be traveling to us in the CVC or would you prefer our group hear from him at EPA?

Rusty,

Ethan Witt mentioned that you are interested in requesting a meeting with Administrator Pruitt when the Bluegrass Region Policy Group visits DC in July. I wanted to connect you with Sydney Hupp, who handles scheduling requests for the Administrator. She's your best contact for facilitating this request.

Please let our office know if you need anything else while you're in town. Hope all is well!

Best,

Katelyn

From: Woodward, Cheryl
Sent: Tue 5/23/2017 5:02:31 PM
Subject: RE: Meeting Request for Administrator Pruitt [WARNING: DKIM validation failed]

My name is Cheryl Woodward and I will assist you in the logistics for your meeting at EPA on Wednesday, May 24th at 2pm. The instructions/directions to EPA is below and if you have any questions please contact me. Look forward to seeing you all.

Directions: If you come by Metro, the Federal Triangle metro stop is directly below the building entrances. You would leave the metro station and go up all three sets of escalators from the train otherwise two escalators then do a small U-Turn to the left heading toward 12th street, the South Lobby entrance is directly and immediately to your right (Glass Doors -EPA Signified on Glass).

EPA address is 1200 Pennsylvania Avenue, NW. If you are coming by taxi/vehicle, you want to be dropped off on 12th NW, **which is between Pennsylvania and Constitution Avenue**. It is almost exactly half way between the two avenues on with Federal Triangle Metro sign and Trump Hotel Towers side entrance can be used as a landmark. From 12th Street, facing the building with the EPA and American flags, walk toward the building (under the flags) and take the glass door on your left hand side with the escalators going down to the metro on your left. This again will be the **South Lobby of the William Jefferson Clinton building.**

Once inside the building, security will prompt you to scan all items such as bags, coats etc., and then let the guards know that you were instructed to call Cheryl Woodward at 564-1274 or Michelle Hale at 564-1430 to escort you to the meeting with the Administrator. Security will make temporary cards for everyone. Allow for 15 minutes to get through the process.

Hi Sydney,

I'm just following up on our May 24 meeting with Administrator Pruitt. I have the list of attendees (though we may add one more, I'll let you know as soon as possible):

Robert F. Helminiak

SOCMA

Managing Director of Government Relations

Jennifer Abril

SOCMA

President and CEO

Steel Hutchinson

GFS Organic Chemicals

Owner and President

(SOCMA's Previous Chairman)

Beth Bosley

Boron Specialties, LLC

Owner and President

John Foley

KMCO, KMTEX LLC

President and CEO

David Grimme

Baker Hughes

Vice President, Supply Chain

David Doles

Lonza

Senior Vice President, Global Head of Business Unit – Materials Performance & Protection

(SOCMA Chairman)

Please let me know what other information you need.

Regards,

Robert

Hi Sydney,

I'm following up on our conversation from earlier today. I'm excited to meet with the Administrator, May 24 at 2pm. I've filled out and attached the form as per your request.

I don't have the names of my member company participants, but I will get them to you as soon as I confirm their participation. I am anticipating eight total participants.

Please let me know if you need anything else.

Regards,
Robert

Administrator Pruitt,

I hope this finds you well. I am reaching out on behalf of the Society of Chemical Manufacturers & Affiliates (SOCMA). We are a trade association representing the specialty chemicals industry. I have attached a meeting request from SOCMA's CEO, Jennifer Abril.

SOCMA member companies employ more than 100,000 workers across the country and produce some 50,000 products - valued at $60 billion annually - that make our standard of living possible. From pharmaceuticals to cosmetics, soaps to plastics, and all manner of industrial and construction products, SOCMA members make materials that save lives, make our food supply safe and abundant, and enable the manufacture of literally thousands of other products people use daily.

We hope to introduce you to some of the key players in the specialty chemical industry and explain our high priority issues.

Please contact me if you have any questions.

Regards,
Robert

Subject: Request to Scott Pruitt to speak in September or October at Heartland Institute Benefit Dinner

Michelle,

I hope you are well, and I appreciate all the work you did to see if Administrator Pruitt could speak at The Heartland Institute's climate conference in March. I hope Mr. Pruitt could speak at another Heartland event, which is why I'm sending this email.

Below my signature is an official invitation from Heartland Institute President Joseph Bast for Mr. Pruitt to be the keynote speaker at our annual benefit dinner, tentatively scheduled for September or October, depending on what's best for his schedule. We will be mailing this out in hard-copy form later this week, but I wanted to get the ball rolling immediately.

We certainly hope Administrator Pruitt will say "yes," and let me know if you have any questions.

Warm regards,

Jim Lakely
Director of Communications
The Heartland Institute

Environmental Protection Agency

Office of the Administrator, 1101A

1200 Pennsylvania Avenue, N.W.

Washington, DC 20460

Dear Administrator Pruitt:

Thank you for everything you've been doing to advance President Trump's agenda.

I was sorry your schedule didn't allow you to speak at our Twelfth International Conference on Climate Change, held March 23-24 in Washington DC. It was a huge success!

I am writing to ask if you could come to Chicago this fall to speak at The Heartland Institute's 33rd Anniversary Benefit Dinner. The event will be on a Wednesday or Thursday evening in September or October. We can be flexible for whatever date best suits you.

The event likely will be held in the evening at The Cotillion, a fine banquet hall located in a town just down the road from our offices in Arlington Heights, Illinois. The venue is used frequently by elected officials and candidates during political seasons and can hold up to 800 people.

Each year, our anniversary dinners attract nearly 500 people – and with you as our honored keynote speaker, we'd surely sell out the hall with nearly a thousand friends and pro-Trump supporters.

I hope you or your scheduler can give me a call soon with a "yes," and any other questions you might have regarding our event. You can reach me at 312/377-4000, or by email at jbast@heartland.org.

Please know that everyone here at Heartland is pulling for you and the entire Trump administration to be a success. Nothing less than the future of liberty is riding on it.

Sincerely,

Joseph L. Bast

About The Heartland Institute

The Heartland Institute is a 33-year-old national nonprofit research organization, founded in 1984, dedicated to finding and promoting ideas that empower people.

Mission: Our mission is to discover, develop, and promote free-market solutions to social and economic problems.

Staff: A full-time staff of 39, including 30 working in Arlington Heights, Illinois. Joseph Bast is president and CEO. Dr. Herbert Walberg is chairman of the board.

Policy Advisors: 370 academics and professional economists serve as policy advisors and 250 elected officials pay dues to serve on our Legislative Forum.

Publications: Heartland sends four monthly policy newspapers – *Budget & Tax News*, *Environment & Climate News*, *Health Care News*, and *School Reform News* – to every national and state elected officials in the United States and thousands of civic and business leaders. It also produces books, policy studies, booklets, podcasts, and videos.

Communications: In 2016, we appeared in print and on television or radio 853 times with a combined print circulation of 67.7 million readers. We hosted 15 websites generating more than 1.8 million pages views.

Policy Bot: Heartland hosts an online database and search engine called *PolicyBot* containing the complete text of (not just links to) more than 32,000 reports and commentaries from some 300 free-market think tanks and advocacy groups.

Events: Heartland hosted 68 events in 2016, attended by 10,616 people. We have hosted 12 International Conferences on Climate Change since 2008, attended by more than 5,000 people.

Government Relations: We contacted elected officials more than one million times in 2016, with 24,948 total direct personal contacts with elected officials, including 4,963 face-to-face meetings, 5,374 phone calls, 13,970 personal email contacts, and 641 contacts via personal mail.

Public positions: We focus on issues in education, environmental protection, health care, budgets and taxes, and constitutional reform.

Funding: Our 2016 income came from the following sources: foundations 67%; individuals 19%; business 11%; other 3%. Heartland is funded entirely by the tax-deductible contributions of its supporters and receives no funds from any government at any level.

Contact information: 3939 North Wilke Road, Arlington Heights, IL 60004, phone 312/377-4000, email think@heartland.org.

For more information: The "About" page on our website at www.heartland.org contains endorsements of our work, a history, and video prepared for our 25th anniversary in 2009.

Lincoln,
Please find attached the SAVE THE DATE for July 20th in which our Roanoke Cement plant in Virginia will host the EPA industrial showcase event

Our plant has achieved the energy star award 11 years in a row and it would be an honor if Administrator Pruitt could come and speak at the celebration event.

Please advise the next steps to see if this is a possibility or let me know what questions that you may have,
Don Ingerson

Hi Sydney,

I'm just following up on our May 24 meeting with Administrator Pruitt. I have the list of attendees (though we may add one more, I'll let you know as soon as possible):

Robert F. Helminiak

SOCMA

Managing Director of Government Relations

Jennifer Abril

SOCMA

President and CEO

Steel Hutchinson

GFS Organic Chemicals

Owner and President

(SOCMA's Previous Chairman)

Beth Bosley

Boron Specialties, LLC

Owner and President

John Foley

KMCO, KMTEX LLC

President and CEO

David Grimme

Baker Hughes

Vice President, Supply Chain

David Doles

Lonza

Senior Vice President, Global Head of Business Unit – Materials Performance & Protection

(SOCMA Chairman)

Please let me know what other information you need.

Regards,

Robert

Hi Sydney,

I'm following up on our conversation from earlier today. I'm excited to meet with the Administrator, May 24 at 2pm. I've filled out and attached the form as per your request.

I don't have the names of my member company participants, but I will get them to you as soon as I confirm their participation. I am anticipating eight total participants.

Please let me know if you need anything else.

Regards,
Robert

Administrator Pruitt,

I hope this finds you well. I am reaching out on behalf of the Society of Chemical Manufacturers & Affiliates (SOCMA). We are a trade association representing the specialty chemicals industry. I have attached a meeting request from SOCMA's CEO, Jennifer Abril.

SOCMA member companies employ more than 100,000 workers across the country and produce some 50,000 products - valued at $60 billion annually - that make our standard of living possible. From pharmaceuticals to cosmetics, soaps to plastics, and all manner of industrial and construction products, SOCMA members make materials that save lives, make our food supply safe and abundant, and enable the manufacture of literally thousands of other products people use daily.

We hope to introduce you to some of the key players in the specialty chemical industry and explain our high priority issues.

Please contact me if you have any questions.

Regards,
Robert

The Society of Chemical Manufacturers and Affiliates (SOCMA) Meeting with Administrator Pruitt

Meeting Objective: Brief Administrator Pruitt and staff on the specialty chemicals industry. Specifically, SOCMA wishes to address four high-level issues and four specific rules under EPA jurisdiction.

Specialty Chemicals Industry: SOCMA is the only U.S.-based trade association dedicated solely to the specialty chemical industry. Our member companies make the products and refine the raw materials that make our standard of living possible. SOCMA member companies employ more than 100,000 workers across the country and produce some 50,000 products – valued at $60 billion annually. From pharmaceuticals to cosmetics, soaps to plastics, and all manner of industrial and construction products, SOCMA members make materials that save lives, make our food supply safe and abundant, and enable the manufacture of thousands of other products.

Meeting Participants:

Jennifer Abril, SOCMA, President and CEO
Robert F. Helminiak, SOCMA, Managing Director of Government Relations
David Doles, Lonza, Inc, Senior Vice President, Global Head of Business Unit – Materials Performance & Protection (SOCMA Chairman)
J. Steel Hutchinson, GFS Chemicals, Owner and President (SOCMA Past Chairman)
John Foley, KMCO LLC, President and CEO
Beth Bosley, Boron Specialties, LLC, CEO and Founder
David Grimme, Baker Hughes, Inc, Vice President, CIS Supply Chain

EPA Directional Issues:

1. **Assumption of Good Intent:** Despite continuous safety and environmental improvements the prior administration assumed that companies were not operating with good intent. The industry hopes to build a relationship with EPA that extends from federal policy development to facility inspections (where EPA traditionally assumes industry to be a bad actor). SOCMA member companies prioritize the health and safety of their workers and the environment and seek to work in partnership with EPA to assure compliance.

2. **Consistency in Enforcement:** The industry seeks consistency in enforcement of TSCA, FIFRA, and RCRA regulations. SOCMA member companies historically have experienced inconsistent interpretation and application of regulations by federal, state and regional inspectors.

3. **Cost Benefit Analysis:** The specialty chemicals industry strongly believes that economic analyses must fully reflect costs to industry, and weigh those against the environmental and safety gains of regulations. EPA analysis should quantify the gains made from previous rulemakings and the projected gains from new rulemakings to fully balance the cost benefit analysis.

4. **Engaged and Funded Agency:** A properly engaged and funded EPA is essential to the specialty chemicals industry. SOCMA depends on the timely approval of new chemicals to continue to advance innovations in chemistry and the quality of life of Americans. Further, SOCMA strongly supports federal regulation of hazardous chemicals because a patchwork of state legislation and regulations creates unmanageable hurdles and costs, and disrupts business continuity.

Specific Regulations:

1. **Toxic Substances Control Act:** Timely review by EPA of new chemicals is critical to industry success and innovation; SOCMA is concerned that EPA has altered the review of new chemicals and dramatically slowed down the review process. Further, EPA has inexplicably raised the standard of the low volume exemption. In both cases, LCSA should not have impacted the review process and SOCMA strongly encourages EPA to return to the broadly excepted review process.

2. **Risk Management Program:** The Risk Management Program rule (RMP) finalized under the Obama Administration needs significant review, and implementation should be delayed because while the rule is intended to improve safety and security it could inadvertently increase security risks. SOCMA is supportive of EPA's current rulemaking to delay the effective date to February 19, 2019 and has testified in front of EPA on April 19, 2017 and subsequently submitted comments.

3. **Hazardous Waste Generator Rule:** The Hazardous Waste Generate rule alters the way a company qualifies as an unpermitted hazardous waste storage facility. SOCMA and others are engaged in litigation on the rule. SOCMA strongly encourages EPA to search for a solution outside the courtroom.

4. **1-In-2-Out**: SOCMA is strongly encouraged by and supportive of President Trump's 1-In-2-Out Executive Order. SOCMA participated in a public meeting (April 25, 2017) and submitted comments on the matter, including a list of regulations that we recommend for modification or elimination under the EO.

Thanks for your flexibility. We look forward to the visit on Wed, July 12 at 2:30 pm. In terms of questions about room set-up, we would like the meeting to be as interactive as possible. I defer to your judgement as to how the room is arranged given the space.

Please let us know what we need to do as it relates to security and entering the building. Some initial questions include:

- Do you need to know the names of attendees in advance? If so, what information do you need?
- What entrance do visitors need to use to enter the building? Will someone meet us in the lobby and direct us to the room location?

Subject: RE: email introduction re: July scheduling request with EPA Administrator Pruitt

Sydney,

I am also trying to schedule a meeting/visit to DOT with Secretary Chao. Her office got back to me last night and requested Thursday, July 13 in the afternoon.

Before I work with them further, I wanted to double back with you to see if Wed, July 12 around 2:30 pm would be a possibility for us to travel to EPA to meet with Administrator Pruitt – rather than Thursday.

If not, we understand and I'll work with the Secretary Chao's office on timing. We might be able to complete two agency meetings on Thursday afternoon. Our flight leaves late out of DC.

I'm just trying to be aware of all my options as we put the pieces together that is our agenda puzzle!

I sincerely appreciate all your help on this request.

This is great. To be on the safe side with travel, can we say 2 pm for the meeting start time? I received confirmation on Sen. Paul's time and it's 12:15 pm. I think having this extra 30 minutes will be better in case he is running late (which has happened every year).

How much time do you think we should allow for a group of 50 to get through security at EPA?

Sydney,

Would it be possible to meet at EPA on Thursday, July 13 anytime after 1:30 pm? Would that still be an option?

I received scheduling requests back from Sen. McConnell and Sen. Paul and they've requested our group meet with them mid-morning through lunch on Thursday at the Capitol.

If it's easier to speak by phone, please let me know a good time to give you a call.

Sydney,

Great news! Right now, our schedule on Wednesday, July 12 and Thursday, July 13 is flexible. I've sent speaking requests to all the Kentucky delegation offices and to Secretary Chao. I'm waiting to hear back from them.

We have space reserved in the Capitol Visitors Center for both days from 9:00 am to 3:00 pm.

Is there a time that you think would be better for Mr. Pruitt? Would he be traveling to us in the CVC or would you prefer our group hear from him at EPA?

Rusty,

Ethan Witt mentioned that you are interested in requesting a meeting with Administrator Pruitt when the Bluegrass Region Policy Group visits DC in July. I wanted to connect you with Sydney Hupp, who handles scheduling requests for the Administrator. She's your best contact for facilitating this request.

Please let our office know if you need anything else while you're in town. Hope all is well!

Best,

Katelyn

Subject: Re: Response for Administrator Scott Pruitt

Cheryl - thank you for the information and I look forward to meeting you. Chris

Sent from my BlackBerry 10 smartphone.

[redacted]

My name is Cheryl Woodward and I will assist you in the logistics for your meeting at EPA on Tuesday, May 23rd at 3 pm. The instructions/directions to EPA is below and if you have any questions please contact me. Look forward to seeing you all.

Directions: If you come by Metro, the Federal Triangle metro stop is directly below the building entrances. You would leave the metro station and go up all three sets of escalators from the train otherwise two escalators then do a small U-Turn to the left heading toward 12th street, the South Lobby entrance is directly and immediately to your right (Glass Doors -EPA Signified on Glass).

EPA address is 1200 Pennsylvania Avenue, NW. If you are coming by taxi/vehicle, you want to be dropped off on 12th NW, **which is between Pennsylvania and Constitution Avenue**. It is almost exactly half way between the two avenues on with Federal Triangle Metro sign and Trump Hotel Towers side entrance can be used as a landmark. From 12th Street, facing the building with the EPA and American flags, walk toward the building (under the flags) and take the glass door on your left hand side with the escalators going down to the metro on your left. This again will be the **South Lobby of the William Jefferson Clinton building.**

Once inside the building, security will prompt you to scan all items such as bags, coats etc., and then let the guards know that you were instructed to call Cheryl Woodward at 564-1274 or Michelle Hale at 564-1430 to escort you to the meeting with the Administrator. Security will make temporary cards for everyone. Allow for 15 minutes to get through the process.

Good morning Sydney,

I hope all is well, as you suggested, I wanted to touch back with you to see if it might be a little easier now to schedule a meeting with Mr. Pruitt. I strongly believe that our meeting will be very beneficial to Mr. Pruitt and the Trump Administration.

Thanks,

Paul Clark

Good morning Paul,

Apologies for the delay! Touched base with the scheduling team. We have quite a bit of travel coming up after we just got done doing quite a bit of travel (I'm new to DC but it seems like summer time is the time to be gone). Would you mind looping back to me in a few weeks once we sort though when we are going to be out of town? Kind of in a holding pattern waiting for several trips to come together.

Thank you!

Great,

Again, I am sure Mr. Pruitt, will find this meeting to be beneficial. As a Environmental Scientist with a Graduate degree from Johns Hopkins, not only does the connection of population growth, driven by immigration found as a valid environmental issue. But with Presidents Trump's focused on restricting our dysfunctional immigration system, I foresee Mr. Pruitt's effort to address these connection will be very beneficial to President Trump.

Subject: Request meeting with Mr. Pruitt: Regarding the environmental concerns of population growth driven by mass immigration.

Greetings Ms. Sidney,

My name is Paul Clark and I am the President of The Chesapeake Bay Population Stability Society (CBPSS). Our mission is to goal is to stabilize the population of the Chesapeake Bay watershed to ensure future environmental sustainability. Our mission includes generating greater awareness of the impacts of growth on the Bay which can be considered the Bay's leading environmental challenge. On behalf of the CBPSS, I would like to schedule a meeting with Mr. Pruitt regarding the environmental concerns of population growth driven by mass immigration. We believe that not only will this meeting be beneficial in helping efforts to reduce immigration, as is favored by President Trump, but can also provide suggestions that implement existing environmental laws and policies. We have confidence that the resources we provide will aid Mr. Pruitt in further reducing the impacts of population growth, a considerable environmental challenge.

Please let us know when you are able to schedule a time/day/place and I will ensure my availability. For more information please view us at http://cbpss.weebly.com and/or www.PandorasGreenBox.com

Thank you for your time.,

Paul Clark

Sent: Tue 5/23/2017 12:45:02 PM
Subject: RE: email introduction re: July scheduling request with EPA Administrator Pruitt

Sydney,

I am also trying to schedule a meeting/visit to DOT with Secretary Chao. Her office got back to me last night and requested Thursday, July 13 in the afternoon.

Before I work with them further, I wanted to double back with you to see if Wed, July 12 around 2:30 pm would be a possibility for us to travel to EPA to meet with Administrator Pruitt – rather than Thursday.

If not, we understand and I'll work with the Secretary Chao's office on timing. We might be able to complete two agency meetings on Thursday afternoon. Our flight leaves late out of DC.

I'm just trying to be aware of all my options as we put the pieces together that is our agenda puzzle!

I sincerely appreciate all your help on this request.

This is great. To be on the safe side with travel, can we say 2 pm for the meeting start time? I received confirmation on Sen. Paul's time and it's 12:15 pm. I think having this extra 30 minutes will be better in case he is running late (which has happened every year).

How much time do you think we should allow for a group of 50 to get through security at EPA?

Sydney,

Would it be possible to meet at EPA on Thursday, July 13 anytime after 1:30 pm? Would that still be an option?

I received scheduling requests back from Sen. McConnell and Sen. Paul and they've requested our group meet with them mid-morning through lunch on Thursday at the Capitol.

If it's easier to speak by phone, please let me know a good time to give you a call.

Sydney,

Great news! Right now, our schedule on Wednesday, July 12 and Thursday, July 13 is flexible. I've sent speaking requests to all the Kentucky delegation offices and to Secretary Chao. I'm waiting to hear back from them.

We have space reserved in the Capitol Visitors Center for both days from 9:00 am to 3:00 pm.

Is there a time that you think would be better for Mr. Pruitt? Would he be traveling to us in the CVC or would you prefer our group hear from him at EPA?

Rusty,

Ethan Witt mentioned that you are interested in requesting a meeting with Administrator Pruitt when the Bluegrass Region Policy Group visits DC in July. I wanted to connect you with Sydney Hupp, who handles scheduling requests for the Administrator. She's your best contact for facilitating this request.

Please let our office know if you need anything else while you're in town. Hope all is well!

Best,

Katelyn

From: Woodward, Cheryl
Sent: Tue 5/23/2017 12:18:25 PM
Subject: RE: Response for Administrator Scott Pruitt

My name is Cheryl Woodward and I will assist you in the logistics for your meeting at EPA on Tuesday, May 23rd at 3 pm. The instructions/directions to EPA is below and if you have any questions please contact me. Look forward to seeing you all.

Directions: If you come by Metro, the Federal Triangle metro stop is directly below the building entrances. You would leave the metro station and go up all three sets of escalators from the train otherwise two escalators then do a small U-Turn to the left heading toward 12th street, the South Lobby entrance is directly and immediately to your right (Glass Doors -EPA Signified on Glass).

EPA address is 1200 Pennsylvania Avenue, NW. If you are coming by taxi/vehicle, you want to be dropped off on 12th NW, **which is between Pennsylvania and Constitution Avenue**. It is almost exactly half way between the two avenues on with Federal Triangle Metro sign and Trump Hotel Towers side entrance can be used as a landmark. From 12th Street, facing the building with the EPA and American flags, walk toward the building (under the flags) and take the glass door on your left hand side with the escalators going down to the metro on your left. This again will be the **South Lobby of the William Jefferson Clinton building.**

Once inside the building, security will prompt you to scan all items such as bags, coats etc., and then let the guards know that you were instructed to call Cheryl Woodward at 564-1274 or Michelle Hale at 564-1430 to escort you to the meeting with the Administrator. Security will make temporary cards for everyone. Allow for 15 minutes to get through the process.

Sent: Mon 5/22/2017 10:30:15 PM
Subject: Meeting Request

I am writing on behalf of the Brick Industry Association (BIA) to request a meeting with Administrator Pruitt. BIA is a national trade association representing clay brick manufacturers, distributorships, and their suppliers. Two-thirds of all the brick shipped in North American is manufactured by BIA members. In addition, many BIA member companies are family-owned small businesses.

Many of BIA's members are subject to a recently-promulgated National Emissions Standard for Hazardous Air Pollutants for Brick Manufacturing (i.e., the "Brick MACT"). BIA has a pending challenge to this rule in the DC Circuit. BIA does not want to discuss the litigation with the Administrator. BIA does hope to discuss with the Administrator the enormous impact that the rule is having on the industry and some of BIA's ideas as to how the rule could be improved and the burden lessened.

A group of BIA members will be in Washington, DC, on Thursday, June 15. A meeting that date would be ideal. If that does not work for Administrator Pruitt, we would appreciate any suggested alternative dates.

Please feel free to contact me if you need anything more. Thanks for your consideration.

Subject: FW: Meeting Request

Dear Sydney:

I would like to request a meeting with the Administrator for Larry Ziemba, Executive Vice President, Refining, for Phillip 66. Larry has responsibility for the company's refining operations and serves in a leadership position with the American Fuels and Petrochemical Manufacturers Association. He has been working with other refiners and the Auto industry regarding the potential for higher octane fuels and other forward looking fuels issues. A brief bio is set forth below.

Larry is currently scheduled to be in D.C. on Friday June 2nd and Monday June 5th. If those days

would not work with the Administrator's schedule, he is happy to work with other days that would be more convenient for Administrator Pruitt.

Lawrence (Larry) M. Ziemba is executive vice president, Refining, for Phillips 66, a diversified energy manufacturing and logistics company. He has 35 years of experience in the oil and gas industry. Before joining Phillips 66 in May 2012, Ziemba previously worked for ConocoPhillips as president, Global Refining, a role he took on after serving as president, U.S. Refining, since 2003. He first joined Phillips Petroleum in 2001 after its acquisition of Tosco and was in charge of handling the integration of the refining operations during the merger with Conoco. Originally from Chicago, he started his career at Unocal's Chicago refinery in 1977. In 1988, he moved to Unocal's Los Angeles corporate headquarters as manager of planning/business development for its downstream business. In 1991, he managed the acquisition of Shell's Carson refinery and subsequently integrated the asset into Los Angeles operations. In 1997, Ziemba joined Tosco as they acquired Unocal's downstream business. In 1999, he was named vice president of Tosco's three San Francisco area refineries. In 2000, he was assigned to handle the acquisition and takeover of the Wood River refinery. He has held a number of industry and community leadership positions including board positions with American Fuels and Petrochemical Manufacturers Association, WRB Refining LP and the Western States Petroleum Association. Ziemba earned a bachelor's degree in mechanical engineering from the University of Illinois-Champaign in 1977 and a Master of Business Administration degree from the University of Chicago in 1985.

Thank you for your consideration,

Hi Sydney, I received your contact information from my colleagues at American Farm Bureau Federation and left you a voicemail. I am following up with an email in hopes you can help me with the best email address to reach Administrator Pruitt, so we can send him a letter from Michigan Farm Bureau and the Michigan Chamber of Commerce. The letter regards EPA's review of Michigan's delegated authority for managing Part 404 of the Clean Water Act. Administrator Pruitt has met with staff from our state's Department of Environmental Quality, who have alerted him to the concern Michigan agencies and organizations have with the EPA's review, and he has asked for those concerns to be sent to him.

Could you let me know which email Administrator Pruitt would prefer for us to reach him with this letter? Thank you for your help! Please feel free to contact me with any questions.

Subject: RE: Meeting Request: 06/21-06/22, Marine Engine Manufacturing Executives

Thanks Sydney. Would something later in the day on June 19th work for the Administrator? Our executives will be flying in from around the country, and we're a little worried about being able to get them all in town that early on a Monday morning. If later on the 19th doesn't work, how about June 20th, 26th, or 29th?

Thanks for all your help in getting this set up.

Thank you Sydney. We are flexible with a potential date of the meeting. Would June 19th,20th,26th or 29th work for the Administrator? We will ensure that it will be top-level executives from engine manufacturers who will be in attendance. Please let me know if one of these dates would be workable. Thank you.

Subject: Meeting Request: 06/21-06/22, Marine Engine Manufacturing Executives

Good afternoon,

I'm with the National Marine Manufacturers Association (NMMA). Earlier this week, NMMA and coalition partners sent the attached letter/petition to Administrator Pruitt. It had the support of over 26,000 recreational boaters and anglers across the country who are calling for RFS reform.

NMMA will have a group of marine engine manufacturing executives in town June 21-22, and we would like to request a meeting with Administrator Pruitt. Our industry's executive leadership would welcome the opportunity to discuss fuel policy and the RFS with the Administrator.

Please let me know what might be workable.

Thank you.

This is great. To be on the safe side with travel, can we say 2 pm for the meeting start time? I received confirmation on Sen. Paul's time and it's 12:15 pm. I think having this extra 30 minutes will be better in case he is running late (which has happened every year).

How much time do you think we should allow for a group of 50 to get through security at EPA?

Sydney,

Would it be possible to meet at EPA on Thursday, July 13 anytime after 1:30 pm? Would that still be an option?

I received scheduling requests back from Sen. McConnell and Sen. Paul and they've requested our group meet with them mid-morning through lunch on Thursday at the Capitol.

If it's easier to speak by phone, please let me know a good time to give you a call.

Sydney,

Great news! Right now, our schedule on Wednesday, July 12 and Thursday, July 13 is flexible. I've sent speaking requests to all the Kentucky delegation offices and to Secretary Chao. I'm waiting to hear back from them.

We have space reserved in the Capitol Visitors Center for both days from 9:00 am to 3:00 pm.

Is there a time that you think would be better for Mr. Pruitt? Would he be traveling to us in the CVC or would you prefer our group hear from him at EPA?

Rusty,

Ethan Witt mentioned that you are interested in requesting a meeting with Administrator Pruitt when the Bluegrass Region Policy Group visits DC in July. I wanted to connect you with Sydney Hupp, who handles scheduling requests for the Administrator. She's your best contact for facilitating this request.

Please let our office know if you need anything else while you're in town. Hope all is well!

Best,

Katelyn

Subject: NAHB Meeting w Administrator Pruitt

Hi Sydney!

Thanks for the call today. The National Association of Home Builders is very interested in having EPA Administrator Pruitt speak before a larger group of our members. In an effort to accommodate his schedule, we are willing to create a special meeting during our Mid-Year Meeting if the Administrator is available. The timing for the meeting would be Thursday, June 15 at a time that is convenient between 12:30 and 2:30 at the Marriott Wardman Park, 2660 Woodley Road, NW, Washington, DC. We would have an audience of approximately 700 members who are interested in hearing about Administrator Pruitt's vision for the agency, how the agency will address some of the high priority issues, and steps that may be taken to improve the regulatory environment for the Nation's home builders. We would also like to reserve some time for questions, if allowed.

Our Senior Officers would also like to meet privately with Administrator Pruitt. They will be in town and available for a quick visit next week, if a meeting on such short notice is possible. They could be available Wednesday, March 29, between 3 – 5 pm or Thursday, March 30, between 8 am – 12 pm. They could also be available for a meeting on Wednesday, June 14 or before or after the address to the members on June 15, if that schedule works.

Please take another look at the calendar and let me know what might be possible. I look forward to working with you and the Administrator in the future.

Thanks for your assistance!

Susan

Sydney,

Hope you are well. I just wanted to circle back with you on this request. Actually, on June 6, BRT is holding their meeting and there will be a lot of CEO's in town for the meeting. We have been speaking with Chevron and wanted to see if the Administrator would potentially be interested in doing a joint meeting with Mr. Heminger, as well as Chevron's CEO, John Watson.

Please let me know if you think we can make a time on June 6 work for a meeting with both of our companies. Thanks!

Mike

Hi Sydney,

Marathon Petroleum Corp.'s CEO, Gary Heminger, will be in town June 20-21 and is looking to meet with the Administrator. I've cc'd Mike Birsic who is a good friend and is the point person for setting this up. Mr. Heminger would like to talk about RFS and air regulations, among other things.

Mike, fill in any missing details.

Sydney, let me know if you need anything else from my end in the interim.

Best,

Mandy

External Meeting Request Form for
Administrator E. Scott Pruitt

U.S. Environmental Protection Agency

To request the Administrator to attend and/or speak at your event, please complete and submit the following form.

Today's Date: 5/22/2017

Meeting Date: 6/20/2017

Meeting Time: 5pm

Requested Location (if offsite, please list address, parking instructions, etc.):
USEP William Jefferson Clinton Building North (WJC North)
1200 Pennsylvania Ave, NW
Washington, DC 20004

Requestor: Michael Birsic, Marathon Petroelum Corporation

Purpose of the Meeting: To discuss the RFS and other Clean Air Act issues

Background on the Meeting: Marathon Petroleum Corporation's chairman of the board, president, and chief executive officer, Gary Heminger, is requesting a meeting to meet Administrator Scott Pruitt and to discuss EPA related issues pertinent to Marathon.

Role of the Administrator: To meet Mr. Heminger and provide insights into the agency's goals and to explain where Marathon can help the Agency better understand the challenges and opportunities of the refining industry.

Attendees:
Gary Heminger, Chairman of the Board, President, and Chief Executive Officer
David Whikehart, Vice President of Environment, Safety, and Corporate Affairs
Jake Menefee, Director, Federal Government Affairs
Michael Birsic, Senior Representative, Federal Government Affairs

Point of Contact:
Jake Menefee

Hi Lincoln,

I wanted to thank you and Administrator Pruitt for our meeting last week at Earth Day Texas. I appreciated the opportunity to share TNC's views on natural infrastructure, climate change, and federal funding levels for conservation and the environment. We look forward to continuing these discussions with Administrator Pruitt and other leaders at EPA. Please let me know if there are specific follow-up conversations that we should have.

I'd also like to reiterate my invitation to Administrator Pruitt to view some of TNC's work in the field. Of particular interest might be our efforts to develop green infrastructure for storm water management in Washington, DC, or our work to restore the ecological health of Chesapeake Bay. Please let me know if we might develop a field trip together.

All the best,

Glenn

Subject: FW: Meeting Request

Dear Sydney:

I would like to request a meeting with the Administrator for Larry Ziemba, Executive Vice President, Refining, for Phillip 66. Larry has responsibility for the company's refining operations and serves in a leadership position with the American Fuels and Petrochemical Manufacturers Association. He has been working with other refiners and the Auto industry regarding the potential for higher octane fuels and other forward looking fuels issues. A brief bio is set forth below.

Larry is currently scheduled to be in D.C. on Friday June 2nd and Monday June 5th. If those days would not work with the Administrator's schedule, he is happy to work with other days that would be more convenient for Administrator Pruitt.

Lawrence (Larry) M. Ziemba is executive vice president, Refining, for Phillips 66, a diversified energy manufacturing and logistics company. He has 35 years of experience in the oil and gas industry. Before joining Phillips 66 in May 2012, Ziemba previously worked for ConocoPhillips as president, Global Refining, a role he took on after serving as president, U.S. Refining, since 2003. He first joined Phillips Petroleum in 2001 after its acquisition of Tosco and was in charge of handling the integration of the refining operations during the merger with Conoco. Originally from Chicago, he started his career at Unocal's Chicago refinery in 1977. In 1988, he moved to Unocal's Los Angeles corporate headquarters as manager of planning/business development for its downstream business. In 1991, he managed the acquisition of Shell's Carson refinery and subsequently integrated the asset into Los Angeles operations. In 1997, Ziemba joined Tosco as they acquired Unocal's downstream business. In 1999, he was named vice president of Tosco's three San Francisco area refineries. In 2000, he was assigned to handle the acquisition and takeover of the Wood River refinery. He has held a number of industry and community leadership positions including board positions with American Fuels and Petrochemical Manufacturers Association, WRB Refining LP and the Western States Petroleum Association. Ziemba earned a bachelor's degree in mechanical engineering from the University of Illinois-Champaign in 1977 and a Master of Business Administration degree from the University of Chicago in 1985.

Thank you for your consideration,

Joe Stanko

Sent: Mon 5/22/2017 5:36:28 PM
Subject: RE: Questions for upcoming meeting

My name is Cheryl Woodward and I will assist you in the logistics for your meeting at EPA on Tuesday, May 23rd at 3 pm. The instructions/directions to EPA is below and if you have any questions please contact me. Look forward to seeing you all.

Directions: If you come by Metro, the Federal Triangle metro stop is directly below the building entrances. You would leave the metro station and go up all three sets of escalators from the train otherwise two escalators then do a small U-Turn to the left heading toward 12th street, the South Lobby entrance is directly and immediately to your right (Glass Doors -EPA Signified on Glass).

EPA address is 1200 Pennsylvania Avenue, NW. If you are coming by taxi/vehicle, you want to be dropped off on 12th NW, which is between Pennsylvania and Constitution Avenue. It is almost exactly half way between the two avenues on with Federal Triangle Metro sign and Trump Hotel Towers side entrance can be used as a landmark. From 12th Street, facing the building with the EPA and American flags, walk toward the building (under the flags) and take the glass door on your left hand side with the escalators going down to the metro on your left. This again will be the South Lobby of the William Jefferson Clinton building.

Once inside the building, security will prompt you to scan all items such as bags, coats etc., and then let the guards know that you were instructed to call Cheryl Woodward at 564-1274 or Michelle Hale at 564-1430 to escort you to the meeting with the Administrator. Security will make temporary cards for everyone. Allow for 15 minutes to get through the process.

Dear Mr. Pruitt,

We request the honor of your presence at the 3rd Biennial Oil & Gas Environmental Conference as a keynote speaker. The conference will be held on November 28-29, 2017, at the Royal Sonesta Houston Galleria, 2222 West Loop South, Houston, Texas 77027 with expected attendance of 450.

The Oil & Gas Environmental Conference is focused on new and emerging issues related to

environmental performance in the oil and gas industry. This event is intended to bring together recognized experts from relevant and diverse disciplines to provide a broad range of perspectives. The conference will feature a variety of panel discussions and breakout sessions designed to inform attendees of the latest environmental trends, and issues related to the oil & gas industry.

It would be an honor and privilege to have you address environmental professionals in the oil and gas industry at the 2017 Conference.

Please let us know if we can answer any questions you may have about the invitation.

Sincerely,

Cassandra Smith

Subject: RE: Request to Scott Pruitt to speak in September or October at Heartland Institute Benefit Dinner

Hi, Jim, thank you for your note and invitation. I'm copying our Executive Scheduler, Sydney Hupp, to get this in the hopper.

Appreciate you!

Michelle

Subject: Request to Scott Pruitt to speak in September or October at Heartland Institute Benefit Dinner

Michelle,

I hope you are well, and I appreciate all the work you did to see if Administrator Pruitt could speak at The Heartland Institute's climate conference in March. I hope Mr. Pruitt could speak at another Heartland event, which is why I'm sending this email.

Below my signature is an official invitation from Heartland Institute President Joseph Bast for Mr. Pruitt to be the keynote speaker at our annual benefit dinner, tentatively scheduled for September or October, depending on what's best for his schedule. We will be mailing this out in hard-copy form later this week, but I wanted to get the ball rolling immediately.

We certainly hope Administrator Pruitt will say "yes," and let me know if you have any questions.

Warm regards,

Jim Lakely

Environmental Protection Agency

Office of the Administrator, 1101A

1200 Pennsylvania Avenue, N.W.

Washington, DC 20460

Dear Administrator Pruitt:

Thank you for everything you've been doing to advance President Trump's agenda.

I was sorry your schedule didn't allow you to speak at our Twelfth International Conference on Climate Change, held March 23-24 in Washington DC. It was a huge success!

I am writing to ask if you could come to Chicago this fall to speak at The Heartland Institute's 33rd Anniversary Benefit Dinner. The event will be on a Wednesday or Thursday evening in September or October. We can be flexible for whatever date best suits you.

The event likely will be held in the evening at The Cotillion, a fine banquet hall located in a town just down the road from our offices in Arlington Heights, Illinois. The venue is used frequently by elected officials and candidates during political seasons and can hold up to 800 people.

Each year, our anniversary dinners attract nearly 500 people – and with you as our honored keynote speaker, we'd surely sell out the hall with nearly a thousand friends and pro-Trump supporters.

I hope you or your scheduler can give me a call soon with a "yes," and any other questions you might have regarding our event. You can reach me at 312/377-4000, or by email at jbast@heartland.org.

Please know that everyone here at Heartland is pulling for you and the entire Trump administration to be a success. Nothing less than the future of liberty is riding on it.

Sincerely,

Joseph L. Bast

About The Heartland Institute

The Heartland Institute is a 33-year-old national nonprofit research organization, founded in 1984, dedicated to finding and promoting ideas that empower people.

Mission: Our mission is to discover, develop, and promote free-market solutions to social and economic problems.

Staff: A full-time staff of 39, including 30 working in Arlington Heights, Illinois. Joseph Bast is president and CEO. Dr. Herbert Walberg is chairman of the board.

Policy Advisors: 370 academics and professional economists serve as policy advisors and 250 elected officials pay dues to serve on our Legislative Forum.

Publications: Heartland sends four monthly policy newspapers – *Budget & Tax News*, *Environment & Climate News*, *Health Care News*, and *School Reform News* – to every national and state elected officials in the United States and thousands of civic and business leaders. It also produces books, policy studies, booklets, podcasts, and videos.

Communications: In 2016, we appeared in print and on television or radio 853 times with a combined print circulation of 67.7 million readers. We hosted 15 websites generating more than 1.8 million pages

views.

Policy Bot: Heartland hosts an online database and search engine called *PolicyBot* containing the complete text of (not just links to) more than 32,000 reports and commentaries from some 300 free-market think tanks and advocacy groups.

Events: Heartland hosted 68 events in 2016, attended by 10,616 people. We have hosted 12 International Conferences on Climate Change since 2008, attended by more than 5,000 people.

Government Relations: We contacted elected officials more than one million times in 2016, with 24,948 total direct personal contacts with elected officials, including 4,963 face-to-face meetings, 5,374 phone calls, 13,970 personal email contacts, and 641 contacts via personal mail.

Public positions: We focus on issues in education, environmental protection, health care, budgets and taxes, and constitutional reform.

Funding: Our 2016 income came from the following sources: foundations 67%; individuals 19%; business 11%; other 3%. Heartland is funded entirely by the tax-deductible contributions of its supporters and receives no funds from any government at any level.

Contact information: 3939 North Wilke Road, Arlington Heights, IL 60004, phone 312/377-4000, email think@heartland.org.

For more information: The "About" page on our website at www.heartland.org contains endorsements of our work, a history, and video prepared for our 25th anniversary in 2009.

Dear Administrator Pruitt:

The Resource Development Council for Alaska, Inc. (RDC) is writing to invite you to speak at our 42nd Annual Membership Luncheon on June 28th. The luncheon, which has attracted up to 1,200 attendees in recent years, will be held at the Dena'ina Convention Center in Anchorage, Alaska.

Please find a formal letter of invitation attached. For more information on our policies, board, and membership, please visit akrdc.org.

We very much appreciate your consideration of our invitation and look forward to hearing from you soon.

Sincerely,
Marleanna Hall

USEPA Review Letter.pdf

MICHIGAN FARM BUREAU®

MICHIGAN CHAMBER of Commerce

May 23, 2017

Scott Pruitt, Administrator
U.S. Environmental Protection Agency
1200 Pennsylvania Avenue, N.W.
Washington, DC 20460

RE: Review of Michigan Clean Water Act Section 404 Permitting Program

Dear Administrator Pruitt,

On behalf of the Michigan Farm Bureau, the Michigan Chamber of Commerce, and the thousands of individuals and businesses represented by these organizations, we are writing to request a re-review of Michigan's Clean Water Act (CWA) Section 404 Permitting Program—as amended in 2013 by Michigan Public Act 98 (PA 98)—for compliance with the requirements of the CWA for state-administered Section 404 programs.

In 1984, Michigan assumed authority to administer the CWA Section 404 permit program for the discharge of dredged or fill materials into waters of the United States, and has continued to administer the program since that time. In 1997, a request was made by the Michigan Environmental Council to the United States Environmental Protection Agency (EPA) to review the program for compliance with the requirements of Section 404. An informal program review by the EPA was completed in April 2008, which identified a number of deficiencies in Michigan's program. Michigan's response to EPA's findings culminated in the passage of PA 98 in 2013, which made significant amendments to Parts 301 and 303 of Michigan's Natural Resources and Environmental Protection Act (NREPA) in an effort to address the identified programmatic deficiencies. The amended statute was sent to EPA in July 2013 by the Michigan Department of Environmental Quality (MDEQ) as a proposed revision to Michigan's CWA Section 404 program. EPA again reviewed the amended program for compliance, and in December 2016 issued its final determination that the revised program continued to show deficiencies and was therefore noncompliant with Section 404. EPA warned that failure to address these persisting deficiencies would result in revocation of the authority granted Michigan in 1984 to administer the permitting program.

It is our belief that the EPA's final determination regarding Michigan's revised program was in error, as it appeared to discount, if not entirely neglect, a number of mitigating factors and legal principles that would, together, mandate the opposite conclusion: that Michigan's program, as amended, is functionally equivalent to and at least as stringent as the standards imposed by CWA

Section 404 and should therefore be approved, as written. For this reason, we believe a second review of Michigan's amended program is both appropriate and necessary. Attached to this letter is a brief discussion of our primary legal reasons for disagreeing with the agency's conclusion regarding the fourteen (14) sections in NREPA that it identified as nonconforming, and for requesting a second review of Michigan's amended program.

We appreciate your time and attention to this matter, and look forward to working with you and your staff to facilitate a quick and thorough review of Michigan's program so the State can move forward with its implementation and stakeholders can proceed with certainty in planning and executing projects across our great state.

Appendix A
Legal Arguments Contesting EPA's Decision of Non-Compliance

1.) Section 30103(1)(g)(vii) Exemption for Culvert Replacement, Including Culvert Extensions of Not More Than 24 Additional Feet Per Culvert

EPA found that the exemption for culvert replacement, including the extension of an existing culvert by not more than 24 feet is inconsistent with the CWA because it entails more than maintenance of a structure to its original design and would result in more than a minor impact to the water body. Although a culvert extension does indeed alter the scope of size of the original fill design (which would be prohibited under 40 CFR § 232.3(c)(2)), EPA failed to consider the application of § 232.3(c)(6), which permits the construction or maintenance of roads in accordance with best management practices "to assure that flow and circulation patterns and chemical and biological characteristics of water of the United States are not impaired." This explicitly includes the practice of "bridg[ing], culvert[ing], or otherwise design[ing]" road fill "to prevent the restriction of expected flood flows." Many culverts in the state were constructed during a time when engineering knowledge was not as advanced as it is today, and as a result, a number of these culverts do not meet best management practices and are inadequate to prevent the restriction of flood flows and to protect the condition of the road and the transected water body. By denying an exemption for the replacement of a legacy culvert with one that is more appropriately sized to the roadway and water body (limited to no more than 24 feet of additional length), the EPA is acting inconsistently with the underlying purpose of the federal road maintenance exemption, which is to prevent the degradation of roadways and culverts in order to avoid the potential for even greater damage to the water body (such as erosion) should the culvert fail of its intended purpose. Therefore, Michigan's exemption is both defensible and more logically consistent with the purposes of the analogous federal exemptions.

2.) Section 30103(1)(m) Exemption for Controlled Access of Livestock to Streams

EPA objected to a new exemption for the construction of structures built to provide livestock access to water or to cross steams. The statute explicitly conditions the exemption on construction of the access or crossing in accordance with USDA, NRCS applicable practice standards, however, EPA was not satisfied, since the subsection itself is not explicitly limited to established (i.e., ongoing) farming operations. If one were to consider the livestock crossing exemption (which has no exact federal analogue) in isolation, it certainly could be susceptible to EPA's argument that it exceeds the scope of the federal farming exemption by not being limited to areas of established and ongoing farming/ranching use. However, statutory sections must be considered in the context of the entire statute, and PA 98 explicitly limits Michigan's agricultural exemption to activities that are part of "an established ongoing farming, ranching, horticultural, or silvicultural operation." MCL § 324.30305. Other exemptions throughout Michigan's law that touch or concern agriculture need not be explicitly limited to areas of established use because they all must be understood in light of the restrictions placed on the overarching agricultural exemption.

Further, as with the culvert maintenance exemption, the purpose of this exemption is to encourage practices that will serve to further the goals of the CWA and Michigan's law: to wit, the protection of regulated water bodies through the implementation of best-management practices. Requiring a permit to implement such conservation practices on a farm or ranch has the effect of discouraging their implementation, thereby creating a perverse incentive to avoid these practices. Ironically, by taking issue with this exemption, EPA is actually discouraging those activities that would serve to further the purposes and goals of the Act. At some point, the agency must consider functional equivalence rather than mere textual analogy.

3.) Section 30305(2)(m) Exemption for Modification of Utility Line Installation

EPA found this exemption to be problematic both because the term "knifing in" with reference to utility line installation (when the line is less than six (6) inches in diameter) was not defined to explicitly exclude the discharge of fill into regulated wetlands and because there was no direct analogue in federal statute or regulations. The second contention is insufficient grounds to reject a state exemption. The Act does not assert that qualifying state programs are limited to the explicit exemptions contained in federal regulations. The

test, rather, is whether the state program is at least as stringent as the federal program. It is entirely possible that a state could expound on a federal exemption while remaining as stringent in its regulation of discharges to regulated waters. For example, the EPA found Michigan's fencing exemption to be consistent with the federal law even though neither Part 323 of Title 33 or Part 232 of Title 40 explicitly mention fencing. Likewise, allowing the knifing in of utility lines, though not explicitly included in the federal regulations, is not inconsistent with federal law because the practice of knifing does not result in the discharge of additional fill material to wetlands, nor does it change the bottom elevation of wetlands, and therefore would not, by definition, be a prohibited activity. That Michigan chose to clarify this point by including "knifing-in" in its exemption is entirely within its discretion, and does not somehow change the inherently "exempt" nature of the activity. EPA's contention to the contrary lacks any possible factual grounding.

EPA also took issue with the exemption for placement of utility poles and pilings as "the placement of pilings…may, but does not always, include the discharge of fill material." Although this is certainly true, this is the purpose of exemptions – to exempt otherwise unlawful discharges when such discharge is deemed necessary and/or of such minimal impact as to not transgress the purposes of the Act. In this case, the exemption for utility pole placement is explicitly limited to installations with "minimal" (i.e. less than 1 cubic yard) of structural support and that "[minimize] any adverse effect on the wetland." Again, such carefully enunciated constraints demonstrate that this exemption is narrowly tailed to further the purposes of the Act.

4.) Section 30305(2)(o) Exemption for Placement of Biological Residues in Wetlands

EPA objected to this exemption on the grounds that the federal definition of "fill material" specifically includes woodchips, and because the discharge of woody wetland vegetation into a jurisdictional wetland in the course of land clearing has been considered by the courts to be a Section 404-regulated discharge. While citing the case of *Avoyelles Sportsmen's League v. Marsh*, 715 F.2d 897 (5th Cir. 1983) in support of its contention that the placement woody wetland vegetation that is removed from a wetland back into that wetland is *per se* an unlawful discharge of fill material, the EPA ignores cases that have added flexibility to this rule, including, e.g., *Save our Wetlands, Inc. v. Sands*, 711 F.2d 634 (5th Cir. 1983), in which the court noted that mechanized removal of trees from wetlands and incidental fallback associated therewith is not a discharge of dredged or fill material when the activity is not intended to permanently change the area from wetland into non-wetland. Although Michigan's exemption does not include this limitation verbatim, by limiting the exemption to the cutting of woody vegetation and in-place grinding of stumps (as opposed to leveling or addition of other, outside biological residues), it is clear that it is only meant to cover mechanized land-clearing activities that would have a minimal impact on the wetland and that would not result in the conversion of wetland to non-wetland.

5.) Section 30305(4) Exclusions for Incidentally Created Wetlands

EPA took issue with a number of the descriptions of incidentally created wetlands that are expressly excluded from regulation under Michigan's program. One of the exclusions (for wetlands created due to construction or operation of water treatment pods or stormwater facilities) that EPA pointed out as being inconsistent was present in Michigan's law prior to the passage of PA 98 and was not flagged by EPA during its initial review and noncompliant. Therefore, EPA's objection to that section appears to be entirely arbitrary. Further, Part 230 of Title 40 similarly exclude from regulation "[t]reatment ponds or lagoons designed to meet the requirements of the [Act]," and "[s]tormwater control features constructed to convey, treat, or store stormwater," so EPA's conclusion appears to even fly in the face of federal regulations.

The other exclusions flagged by the agency were added or modified by PA 98, but two of them address wetlands incidentally created by structures that drain only *uplands* (which are certainly outside of the purview of the CWA), and the final excludes wetlands created by the adoption and implementation of agricultural conservation practices, which one would think the agency would attempt to encourage, rather than discourage by threatening to pull any incidentally created wetlands within the reach of the Act. To justify its claim that such structures are jurisdictional, EPA relied on guidance documents promulgated by the agency, but cited no sections of statute or regulation to demonstrate that such an expansive reading of the Act's jurisdiction is legally defensible.

6.) Section 30305(5) Exemption for Waters that are Made Contiguous to Regulated Waters as a Result of Commercial Excavation and Mining.

EPA objected to this categorical exemption from regulation on the grounds that artificial structures such as commercial mining and excavation pits may be used to pull waters that would otherwise be non-jurisdictional within the reach of the Act. This conclusion, again, appears to completely ignore the fact Part 230 of Title 40 explicitly excludes from the definition of "waters of the United States" "water-filled depressions created in dry land incidental to mining or construction activity, including pits excavated for obtaining fill, sand, or gravel that fill with water." It follows that if such features themselves are not jurisdictional, they could also not be used to advance the line of regulation further "inland" (i.e. if a water was not previously jurisdictional by virtue of being within the prescribed distances of regulated waters, it makes no sense that it could *become* jurisdictional if a categorically non-jurisdictional water was created adjacent to it).

7.) Section 30311(7) Consideration of Feasible and Prudent Alternatives

EPA determined that subsection (7) of Michigan's "prudent and feasible" analysis was inconsistent with Section 230.10(a) of Title 40 by virtue of the guidelines' presumption that practicable alternatives to citing a project in a regulated wetland exist when the project is not water dependent. Why EPA believes that Section 230.10(a)'s formulation is applicable to this clause is not entirely clear, especially since subsection (4) of Section 30311 already addresses water-dependency by stating that "a permit shall not be issued unless the applicant also shows either [that]: (a) The proposed activity is primarily dependent upon being located in the wetland; [and] (b) A feasible and product alternative does not exist. Clearly, then, subsection (7) does not stand for the proposition that the nature of the activity (i.e. whether it is water dependent or not) shall not be considered when completing the feasible and prudent alternative analysis. Rather, it means that—aside from the water-dependency analysis in subsection (4)—MDEQ will not consider the use to which a permitted structure will be put when considering prudent and feasible alternatives. For example, a food processing facility would be treated the same as an industrial warehouse. We are not aware of any federal provisions that directly prohibit this type of analysis.

8.) Section 30311d(6) Conservation Mitigation Credits for Easement for Impacted Agricultural Sites

EPA's objection to Michigan's allowance for a conservation easement with MDEQ *as part* of mitigation requirements appears to be based on the assumption that this section means that such easement would entirely replace other mitigation requirements. The inclusion of the phrase "in part" renders the agency's interpretation invalid, as it clarifies that a conservation easement would not constitute the sum-total of mitigation required by the department. The remainder of Michigan's wetland protection act clearly demonstrates that the state continues to adhere to a "no net loss" principal of wetland mitigation.

9.) Section 30321(5) Definition of "Not Contiguous"

EPA objects to Michigan's limitation of the concept of "contiguity" (which is roughly equivalent to "adjacency" under the federal regulations) to those cases where there is either a direct surface water or interflowing groundwater connection to an otherwise jurisdictional water on the grounds that the federal regulations do not require such physical connection for a water to be deemed a regulated "water of the United States." Although it is true that in the most recent regulations, the agency extends the jurisdictional reach of the Act to certain bodies of water that are merely within a prescribed proximity to another jurisdictional water, it did so in an attempt to incorporate Justice Kennedy's "significant nexus" test from *Rapanos v. United States*, 547 U.S. 715 (2006) into the regulations. Michigan's requirement of some degree of hydrological connection between water bodies is not inconsistent with this principal, and it accomplishes the purposes of the Act by ensuring that those waters that could impact the water quality of other, downstream waters are regulated. Further, Michigan also regulates as jurisdictional isolated waters that are greater than five acres in size. When coupled together, it is highly unlikely that Michigan regulates *less* than would be regulated under the federal program,

notwithstanding the requirement for a hydrologic connection between a water body that is less than five acres in size and other, traditional jurisdictional waters.

10.) Section 30321(6) Use of Agricultural Drains to Establish Jurisdiction

PA 98 changed Michigan law to directly prohibit the use of agricultural drains (defined as a human-made conveyance of water that does not have continuous flow, flows primarily as a result of precipitation-induced surface runoff or groundwater drained through subsurface drainage, and serves agricultural production) to determine whether a wetland is contiguous—and, thus, regulated—to a jurisdictional lake, pond, river, or stream. EPA objected to this addition on the grounds that "[n]othing in federal law excludes consideration of agricultural drains when determining connection to waters of the United States." As a matter of first principals, EPA does not object to Michigan excluding agricultural drains, *themselves*, from regulation. In fact, the EPA also provides a categorical exemption for certain man-made ditches in its 2015 rule amending the definition of "waters of the United States." Rather, the agency asserts that even non-jurisdictional waters may be used to demonstrate a sufficient "connection" between an otherwise isolated, non-jurisdictional water to a downstream, jurisdictional water to bring such water within the purview of the Act. In addition to the argument advanced against this premise in the discussion of Section 30305(5), above, it must also be noted that both the majority opinion and Kennedy's concurring opinion in *Rapanos* strongly criticized the agency for attempting to regulate man-made drainage ditches and indicated in no uncertain terms that the Act's reach does not extend that far. *See*, *Rapanos*, at 734, 778-79. To the extent, therefore, that the agency relies on its own post-*Rapanos* guidance document to demonstrate that such waters may be regulated, this document appears to be an unfaithful reading of the court's opinion.

11.) Section 30321(7) Categorical Exemption for Drainage Structures from Definition of Wetland

As with the previous section, EPA found that the first part of this section was noncompliant on the grounds that a drainage structure could be a regulated wetland if it met the three wetland criteria. This section obviously does not stand for the proposition that an artificial drain could not possibly run through a wetland or that it could not possibly take on wetland characteristics, itself, through neglect or lack of maintenance. Rather, as it states, "in and of itself," an artificial drainage structure will not be considered a wetland. This is, again, consistent with the opinion of the Court in *Rapanos*, and is in the same vein as the agency's regulations, which list out a number of man-made structures that are excluded from the definition of "waters of the United States" even though they might manifest all of the characteristics of regulated wetlands or other waters. The Court has clearly endorsed excluding such manmade features from regulation under the Act, and the agency's decision to the contrary thus does not accord with the law.

Hello SeVera,

We are able to start at 8 a.m. on 4/6.

If we install only the two portraits from the NPG, the estimated time to install is 2-3 hours. We would need to confirm that the NPG staff can also meet us at 8 a.m.

If we also need to install the other 4-5 works already on site, the estimated time to install is 4 hours.

Should you wish to proceed with either option, please let me know as soon as possible. We will also need you to return the signed estimate.

Thank you,

Emilia

Hello SeVera,

I am checking on our availability for a 7 am start on 4/5 or 4/6. As mentioned in my previous email, labor before 8 am is subject to overtime rates.

Please note that the site visit today will give us a better idea of how long the installation will take. The installation time is also dependent on how much time is needed by the NPG staff to condition check the works.

Thank you,

Emilia

Dear Sydney

I would like to apologize to ask you to reappoint the meeting with the Administrator due to change in my travel date to US. Therefore I would kindly ask if possible to appoint the meeting on 10 or 11 May.

During our last meeting with Mr. Pruitt we discussed that we would need about an hour to cover all the revolutionary technologies I have sent you in my last email they would contribute a lot to the protection of the US environment.

All the technologies has a huge potential in saving the energy consumption and cleaning a lot of air.

Kindly advise,

Maxim

Personal Email/Ex. 6

Subject: Meeting

Dear Sydney,

Thank you very much for the finding us a slot to meet the Administrator despite the short notice.

Following our meeting we have agreed to meet during my next visit to US in the end of the month.

I would appreciate to appoint in advance the meeting with Administrator and with his team that will be required regarding following issues:

1. WaterGen – Water Air Generators product and the standards; our technology is saving the tremendous amount of electricity and standards of energy stars for home appliance air conditioners, dehumidifiers and industrial one.

2. Vertical Field – the solution for the pollution, I have left the materials

3. Smart LED – I will send you the materials in order to save energy and to reduce the pollution of the fluorescent lamps.

I would appreciate to have the meeting on 24 April if it is possible, if not kindly advise other alternatives.

I would appreciate to get the details of Sara, who attended our meeting and the picture we made with Administrator.

Many thanks,

Maxim.

Subject: Secretary Pruitt - Speaking Opportunity with New England Council

Good Morning Michelle,

On behalf of the New England Council, please find the attached invitation for Secretary Pruitt to speak its members at a Federal Policy Briefing, as part of their Annual Spring Event in Washington, D.C., on the afternoon of Wednesday, May 3, 2017.

The briefing will be held at the Willard Intercontinental Hotel from 2:00 – 4:00 PM. There are 4-5 speakers over the course of the afternoon, each speak for approximately 10-15 minutes. There may also be a few questions as well. They are able to accommodate what works best for the Secretary's schedule.

Additional information on the event, as well as background on the New England Council, is included in the attachment. I have also attached a separate list of speakers from the Obama and Bush Administrations as well.

Thank you for your consideration and please let me know if you have any additional questions.

Best,

Laine

Hi Sydney and Michelle,

Thanks so much for organizing the meeting for us 'aggies' last week with the Administrator. Our ag groups are part of a larger coalition that represents just about every facet of the economy. Owen McDonough, cc'd here, represents the Home Builders which is one of the major groups that are part of the coalition. I'm reaching out to you now to coordinate a meeting with the coalition and the Administrator. I'll wait to hear back from you on next steps. Happy to chat by phone, if that's easier. Thanks in advance.

We're all here in DC. Sometime this month would be perfect, the sooner the better really. We have our legislative fly-in starting on March 28 (with Mr. Pruitt speaking to our cattle producers on March 30) so it would be optimal for this meeting to happen before March 28. Thanks in advance for your effort on this. Happy to discuss further by phone if that's helpful. 202 347 0228.

External Meeting Request Form for
Administrator E. Scott Pruitt

U.S. Environmental Protection Agency

To request the Administrator to attend and/or speak at your event, please complete and submit the following form.

Today's Date: April 3, 2017

Meeting Date: TBD - at the Administrator's earliest convenience.

Meeting Time: TBD - at the Administrator's earliest convenience.

Requested Location (if offsite, please list address, parking instructions, etc.): EPA HQ

Requestor: Owen McDonough (on behalf of the Waters Advocacy Coalition)

Purpose of the Meeting: The purpose of this meeting is to introduce Administrator Pruitt to the Waters Advocacy Coalition (WAC; the Coalition) and its diverse membership.

Background on the Meeting: The Waters Advocacy Coalition represents a large cross-section of the nation's economy including the construction, real estate, mining, manufacturing, forestry, agriculture, energy, recreation and public health and safety sectors, all of which are vital to a thriving national economy and provide much needed jobs. Many of the Coalition's members construct residential developments, multi-family housing units, commercial buildings, shopping centers, factories, warehouses, waterworks, and other utility facilities. The Coalition's members construct, operate and maintain critical infrastructure: highways, bridges, railroads, tunnels, airports, electric generation, transmission, and distribution facilities, and pipeline facilities. The Coalition's agricultural members produce virtually every agricultural commodity produced commercially in the United States, including but not limited to significant portions of the U.S. milk, corn, cotton, sugar, egg, pork, and beef supply. In addition, other Coalition members sell and distribute fertilizer, crop protection, and biotechnology products used by American farmers. Coalition members design, build and manage golf facilities that provide economic development and tax revenue for thousands of communities across the country. Coalition members represent producers of most of America's coal, metals, and industrial and agricultural minerals; the manufacturers of mining and mineral processing machinery, equipment, and supplies; and the engineering and consulting firms, financial institutions, and other firms serving the mining industry. The Coalition also has member groups representing the energy industry that generate, transmit, transport, and distribute our Nation's energy to residential, commercial, industrial, and institutional customers.

Role of the Administrator: To meet with the Coalition.

Attendees: Representative staff from the Waters Advocacy Coalition's members will be invited to attend. Members of the Coalition are as follows:

Agricultural Retailers Association
American Exploration & Mining Association
American Farm Bureau Federation
American Forest & Paper Association
American Gas Association
American Iron and Steel Institute
American Petroleum Institute
American Public Power Association
American Road & Transportation Builders Association

Athens, TX 75751

Reliable One- Water

Enclosed are the results of analyses for samples received by the laboratory on 29-Apr-16 14:08. The analytical data provided relates only to the samples as received in this laboratory report.

ELI certifies that all results are NELAP compliant and performed in accordance with the referenced method except as noted in the Case Narrative or as noted with a qualifier. Any reproductions of this laboratory report should be in full and only with the written authorization from the client.

The total number of pages in this report is 10

Thank you for selecting ELI for your analytical needs. If you have any questions regarding this report, please contact us.

Sincerely,

Itzel Dominguez For Monica Smith
Project Manager

Gold King Mine

Reliable One Resources, Inc. (hereinafter "ROR") has tested the water at the Gold King Mine in Silverton, Colorado. The states that are being affected are Colorado, New Mexico & Utah. We have been successful in cleaning up the water that the mine is discharging. This is polluting the water flowing into the Animas and San Juan River.

Groundwater Remediation

ROR was asked by Argonne National Lab in Chicago, Illinois (David Surgnier) to pull samples from the North Kansas aquifer. We were asked to remove the high levels of Nitrate only. The before treatment results for Nitrate-N were 60.1 mg/L. After ROR treated this water the Nitrate level was reduced to 1.26mg/L, resulting in a 97.9% reduction. Attached you will find the water sample test results for the North Kansas aquifer.

Produced and Flowback Water

ROR has the capability to provide their customers with a process to recycle or discharge their Produced or Flowback Waters back into the streams.

Reliable One- Water

Enclosed are the results of analyses for samples received by the laboratory on 29-Apr-16 14:11. The analytical data provided relates only to the samples as received in this laboratory report.

ELI certifies that all results are NELAP compliant and performed in accordance with the referenced method except as noted in the Case Narrative or as noted with a qualifier. Any reproductions of this laboratory report should be in full and only with the written authorization from the client.

The total number of pages in this report is 10

Thank you for selecting ELI for your analytical needs. If you have any questions regarding this report, please contact us.

Sincerely,

Itzel Dominguez For Monica Smith
Project Manager

Subject: RE: NAFO meeting request follow-up

Hey – just wanted to follow-up again and see if you had a sense of timing. If we came to you, the best timing would be Wednesday, April 5 between 10:15 and 11:30 am, or maybe between 2:30-4 pm though our afternoon is getting pretty squeezed. If the Administrator came to us, there are plenty of choices:

- Thursday April 6 Board of Directors breakfast between 7am -8 am. Location - Fairmont Hotel (2401 M St NW), Culpepper Room

- Thursday April 6 Board of Directors meeting between 8 am and noon. Location - Fairmont Hotel (2401 M St NW), Roosevelt Room

- Wednesday, April 5 between 7 am-8 am – breakfast meeting with our Board. Location - Fairmont Hotel (2401 M St NW), Roosevelt Room

Subject: RE: NAFO meeting request follow-up

Yes, we could come to your office. What timing are you thinking? Our schedule on the 5th is pretty tight now, but this meeting is a priority. Probably the best timing would be between 10:15-11:30 am. We could also make it work in the afternoon between 2:30-4

pm

Here is the form. It wasn't clear to me which dates you were looking at or whether you were looking at a meeting or a "speech" so I gave you all the options in the form. Let me know if this works.

Again, our options are:

•□□□□□□ Thursday April 6 Board of Directors breakfast between 7am -8 am. Location - Fairmont Hotel (2401 M St NW), Culpepper Room

•□□□□□□ Thursday April 6 Board of Directors meeting between 8 am and noon. Location - Fairmont Hotel (2401 M St NW), Roosevelt Room

•□□□□□□ Wednesday, April 5 between 10:15 and 11:30 am – at your EPA office

•□□□□□□ Wednesday, April 5 between 7 am-8 am – breakfast meeting with our Board. Location - Fairmont Hotel (2401 M St NW), Roosevelt Room

Good morning Jane,

Thank you for the follow up and for the additional information! My apologies for the delay in responding to your request, we have been inundated with scheduling requests over the last few weeks but are happy that you have reached out to us! Would you be so kind as to fill out the attached speaking request form? It helps us with to streamline the requests and gets the answers we have to have knocked out early. Please feel free to reach out to me with any questions!

Thank you!

Ryan, Sydney – I wanted to follow up on this meeting request to have Administrator Pruitt speak with our Board next week. I know Crystal has spoken with you about it. We are anxious to get a day/time nailed down, as this meeting is a high priority for our fly-in.

One thing I wanted to clarify is that we are now fully booked in the afternoon on April 5. Our blocks of time in order of preference now are:

•□□□□□□ Thursday April 6 Board of Directors breakfast between 7am -8 am. Location - Fairmont Hotel (2401 M St NW), Culpepper Room

•□□□□□□ Thursday April 6 Board of Directors meeting between 8 am and noon. Location - Fairmont Hotel (2401 M St NW), Roosevelt Room

•□□□□□□ Wednesday, April 5 between 9 am and 11:30 am – at your EPA office

•□□□□□□ Wednesday, April 5 between 7 am-8 am – breakfast meeting with our Board. Location - Fairmont Hotel (2401 M St NW), Roosevelt Room

Information is attached. Let me know! And thank you.

Samantha:

I just wanted to send a note to firm up the fly-in dates/times for the Vinyl Institute.

On May 16, the Executive Committee for VI would come to you for a brief discussion of issues with you. Please let me know what time would work for you. I believe that they plan to have 10 people in attendance if my memory is correct. Once confirmed I will send you a list of names.

On May 17, the full fly-in attendance looks forward to hosting you from 3:15-3:45 at the Marriott Metro Center.

Please let me know if we can confirm times for each of these, and if Nancy plans to attend either or both of them.

Thank you very much, A.J. Ferate

Hi John,

I hope this note finds you well. I am writing to request a meeting with the Administrator on behalf of my client, the American Coalition for Clean Coal Electricity (ACCCE). The purpose of the meeting is to introduce ACCCE's new CEO, Paul Bailey, and discuss various policy initiatives.

By way of background, ACCCE is a partnership of the industries involved in producing electricity from coal. It's membership largely consists of coal producers, railroads and utilities.

Please feel free to contact me directly at 202-486-0521 if you have any questions. Thank you for your help and thoughtful consideration.

SPN-ALEC-RGA-EPA Call 5-18-17.docx

Thank you for all your help with this call. Attached is a one-page reference sheet for next week's call with Administrator Pruitt. I inserted the details below – please let me know if I need to change anything, especially the speaking and Q&A time.

Monthly State Policy Network Energy – Environmental Policy Huddle

This monthly call brings together energy and environmental experts from the network of 66 state-based free market think tanks, national think tanks, state legislators, legal experts and state governors' staff. The goal is to share state-level intelligence, resources and develop strategies on multi-state and national issues

Thursday, May 18, 2017 – 4:00 pm est

Speaker call-in number:

1-800-779-3177

Speaker code – 45324

Participant code - 7139036

Purpose of call: Environmental Protection Agency Administrator Scott Pruitt provides an update on proposed changes to EPA policy and regulations and *how they will impact states*. Many people on this call were leading the Clean Power Plan push-back in their state and are advocates for devolving decision making to the local level.

Agenda:

Call will start in speaker-only mode (moderated by an operator)

4:00 pm – Welcome, brief background about the monthly call and introduce EPA Administrator Scott

Pruitt, Jennifer Butler, State Policy Network

4:03 pm – Administrator Pruitt's remarks (10 minutes)

4:13 pm – Q&A - operator queued -up questions (10 minutes)

4:23 pm – Administrator Pruitt departs and call wrap-up

Main contact: Jennifer Butler

butler@spn.org

(561) 352-0011

Participating organizations:

State Policy Network - State Policy Network supports 66 independent state think tanks that develop practical public policy solutions to help solve some of our country's greatest challenges at the state and national levels.

American Legislative Exchange Council - ALEC is America's largest nonpartisan, voluntary membership organization of state legislators dedicated to the principles of limited government, free markets and federalism. It is comprised of nearly one-quarter of the country's state legislators and stakeholders from across the policy spectrum.

Republican Governors Public Policy Committee - RGPPC serves as the official policy arm of the Republican Governors Association. Bringing together 33 Republican governors from statehouses across the country, the RGPPC is committed to shaping public policy debates at the state and federal levels of government.

Jennifer Butler |Senior Policy Advisor | State Policy Network | M: (561) 352-0011 | www.spn.org |butler@spn.org

State Policy Network is the capacity building service organization for America's free market, state-focused think tanks.

Haven't gotten around to inviting them yet on this call because we were scheduling a few other issue related calls that will be before this one.

Still ok to include them?

It is not a problem – I am sure you all are extremely busy. I can set a call anytime that will be good for the Secretary's schedule. Because so many states are in legislative session, Thursdays and Fridays are best (in the afternoon so folks on the west coast can join us).

Looking at our network's schedule, the next few weeks are pretty open so we can be flexible if there are a few dates / times that work with his schedule.

Thank you!

Subject: State Policy Network - Speaking request

Attached is the completed form requesting Secretary Pruitt to join our monthly State Energy / Environmental Policy Call. To expand the call to other key parties in the states, I can invite ALEC and RGA to participate. Our three organizations have been on a lot of policy related calls (healthcare and tax reform) together lately.

Background on this call:

We kicked off this call in December of 2015 with the goal of getting as many states as possible to submit requests to EPA for two-year state plan extensions, but after the SCOTUS stay the call transitioned into getting as many states to stop

working on a plan. During session our weekly war room calls quickly became the go-to source for state action and info sharing. We not only have state and national think tank policy experts engaged, but also private industry and attorneys associated with state AG offices. We also deal with RPS mandates, carbon tax and messaging proactive free market solutions. The call is now on a monthly basis and would benefit greatly from receiving a first-hand update on changes we will see at the EPA, plus what support the agency needs during this transition.

Look forward to discussing this request. Thank you for your consideration.

Monthly State Policy Network Energy – Environmental Policy Huddle

This monthly call brings together energy and environmental experts from the network of 66 state-based free market think tanks, national think tanks, state legislators, legal experts and state governors' staff. The goal is to share state-level intelligence, resources and develop strategies on multi-state and national issues

Thursday, May 18, 2017 – 4:00 pm est

Speaker call-in number:
1-800-779-3177
Speaker code – 45324
Participant code - 7139036

Purpose of call: Environmental Protection Agency Administrator Scott Pruitt provides an update on proposed changes to EPA policy and regulations and *how they will impact states*. Many people on this call were leading the Clean Power Plan push-back in their state and are advocates for devolving decision making to the local level.

Agenda:
Call will start in speaker-only mode (moderated by an operator)
4:00 pm – Welcome, brief background about the monthly call and introduce EPA Administrator Scott Pruitt, Jennifer Butler, State Policy Network
4:03 pm – Administrator Pruitt's remarks (10 minutes)
4:13 pm – Q&A - operator queued -up questions (10 minutes)
4:23 pm – Administrator Pruitt departs and call wrap-up

Main contact: Jennifer Butler
butler@spn.org
(561) 352-0011

Participating organizations:
State Policy Network - State Policy Network supports 66 independent state think tanks that develop practical public policy solutions to help solve some of our country's greatest challenges at the state and national levels.

American Legislative Exchange Council - ALEC is America's largest nonpartisan, voluntary membership organization of state legislators dedicated to the principles of limited government, free markets and federalism. It is comprised of nearly one-quarter of the country's state legislators and stakeholders from across the policy spectrum.

Republican Governors Public Policy Committee - RGPPC serves as the official policy arm of the Republican Governors Association. Bringing together 33 Republican governors from statehouses across the country, the RGPPC is committed to shaping public policy debates at the state and federal levels of government.

To: Hale, Michelle <hale.michelle@epa.gov>
Cc: Jackson, Ryan <jackson.ryan@epa.gov>
Subject: Glass Packaging Institute invitation to the Administrator re May 3 [WARNING: DKIM validation failed]

Michelle: I hope all is well. I have the pleasure of forwarding the attached invitation to Administrator Pruitt to address the senior executives of the Glass Packaging Institute—which represents the domestic glass industry, including three glass plants in Oklahoma—sometime convenient to him between 8 am and 9:30 am on Wednesday May 3 at the Monocle on the Senate side of the Hill. I presume Administrator Pruitt is well familiar with the Oklahoma glass industry (plants in Muskogee, Sapulpa and Henryetta alone employ 1,200 Oklahomans) and can well appreciate that the entire glass industry is very interested in a range of important initiatives EPA is now undertaking that are of material importance to America's glass manufacturers. I note that Senator Inhofe has agreed to address the GPI execs from 8 am to 8:15 am that morning; if the Administrator would like to dovetail with Senator Inhofe's comments, perhaps at 8:15 to 8:30 or so, that would be marvelous, but GPI obviously would want to accommodate the Administrator at any time that would be convenient for his schedule.

If I can be of assistance, please just let me know. As indicated in the attached formal letter of invitation from GPI President Lynn Bragg, arrangements can be made through Bryan Vickers at 703-403-2882 (bvickers@pacellp.com).

Great thanks!

George Baker

Sydney and Aaron: Good morning. The Glass Packaging Institute is hopeful that Administrator Pruitt can be able to accept our invitation to speak at GPI's morning meeting on May 3--see below. To help with our planning, might I please inquire as what the prospects might be? If you have questions feel free to contact Bryan Vickers at bvickers@pacellp.com. Great thanks. Cc: Jackson, Ryan <jackson.ryan@epa.gov>
Subject: Glass Packaging Institute invitation to the Administrator re May 3 [WARNING: DKIM validation failed]

Michelle: I hope all is well. I have the pleasure of forwarding the attached invitation to Administrator Pruitt to address the senior executives of the Glass Packaging Institute—which represents the domestic glass industry, including three glass plants in Oklahoma—sometime convenient to him between 8 am and 9:30 am on Wednesday May 3 at the Monocle on the Senate side of the Hill. I presume Administrator Pruitt is well familiar with the Oklahoma glass industry (plants in Muskogee, Sapulpa and Henryetta alone employ 1,200 Oklahomans) and can well appreciate that the entire glass industry is very interested in a range of important initiatives EPA is now undertaking that are of material importance to America's glass manufacturers. I note that Senator Inhofe has agreed to address the GPI execs from 8 am to 8:15 am that morning; if the Administrator would like to dovetail with Senator Inhofe's comments, perhaps at 8:15 to 8:30 or so, that would be marvelous, but GPI obviously would want to accommodate the Administrator at any time that would be convenient for his schedule.

If I can be of assistance, please just let me know. As indicated in the attached formal letter of invitation from GPI President Lynn Bragg, arrangements can be made through Bryan Vickers at 703-403-2882 (bvickers@pacellp.com).

Great thanks!

George Baker

Subject: RE: Meeting Request from the Toy Association

My name is Cheryl Woodward and I will assist you in the logistics for your meeting at EPA on Wednesday, May 10th at 3:30 pm. The instructions/directions to EPA is below and if you have any questions please contact me. Please provide the list no later than Monday, May 8th. Look forward to seeing you all.

Directions

Directions: If you come by Metro, the Federal Triangle metro stop is directly below the building entrances. You would leave the metro station and go up all three sets of escalators and then do a small U-Turn to the right heading toward 12th street, the North Lobby entrance is directly and immediately to your left (Glass Doors -EPA Signified on Glass).

EPA address is 1200 Pennsylvania Avenue, NW. If you are coming by taxi/vehicle, you want to be dropped off on 12th NW, which is between 12th and Constitution Avenues. It is almost exactly half way between the two avenues on 12th street and the Federal Triangle Metro sign can be used as a landmark. From 12th Street, facing the building with the EPA and American flags, walk toward the building (under the flags) and take the glass door on your left hand side with the escalators going down to the metro on your left. This again will be the **South Lobby of the William Jefferson Clinton building.**

Once inside the building, security will prompt you to scan all items such as bags, coats etc., and then let the guards know that you were instructed to call Cheryl Woodward at 564-1274 or Michelle Hale at 564-1430 to escort you to the meeting with the Administrator. Security will make temporary cards for everyone. Allow for 15 minutes to get through the process.

Theater style might be the most pragmatic, but I'm open to other options as well.

I think the way you outlined it with him speaking for a bit, then taking questions would be great. We're very interested to hear his priorities for the agency, and specifically his plan for timely implementation of TSCA.

Does that help?

Thanks,

Autumn

Hi Sydney!

I wanted to send you along an updated attendance list for our meeting with Administrator Pruitt at 3:30 on May 9th. We do have some flexibility on how many people attend the meeting (we can cut all the non-essential Toy Association staff if necessary) so do let me know if you can accommodate a group this large. Feel free to call me if it's easier to discuss logistics over the phone.

We're very much looking forward to our meeting! Thanks again for helping facilitate.

Best,

Autumn

Oh this is such great news!

One small wrinkle…we had someone else (literally just 15 minutes ago) accept the 3:30pm time slot. Is there any way possible that Administrator Pruitt could come meet with us at 4:30pm at the Grand Hyatt OR we could come meet him in his office at 5:00pm at the EPA? If neither of these times work, please let me know and we will do our best to move the other meeting.

Thanks again and happy to chat on the phone if that's easier.

Best,

Autumn

Subject: May 15-16 Scheduling Request for Administrator Pruitt

Sydney,

I hope this finds you doing well. Cam Savage suggested that I reach out to you to submit my scheduling request for Administrator Pruitt to address our Indiana Leadership Forum group.

The Indiana Leadership Forum is a 501(c)(3) non-profit organization dedicated to educating Indiana's most talented business and community leaders about government, politics and policy to prepare them for greater civic involvement and leadership roles in their communities. The group was founded in 1994 by Indiana businessman, and former White House official, Al Hubbard. I have been serving as the Executive Director of the group since 2012. Each year, we bring a class of 25 professionals to Washington, D.C. toward the end of the program to meet with federal officials and policy experts.

We would greatly appreciate the opportunity to bring the group to the EPA to hear from Administrator Pruitt.

In terms of scheduling, we have time available on the afternoon of Monday, **May 15th** and also various times on Tuesday, **May 16th**. Is it possible for us to schedule a visit on one of those days?

I'm copying Kacey Shriner who is coordinating all the logistics for the trip.

Thank you so much for your time and consideration of this request.

To: "schwab.justin@epa.gov" <schwab.justin@epa.gov>
Subject: Americans for Tax Reform Invitation

Hi Justin -

Please find attached an invitation for Mr. Pruitt to join us as our special guest at an ATR Policy Roundtable Dinner in 2017. We will work around your schedule selecting a date – any time this year that works for you.

Please also find a copy of an information sheet attached.

The dinner will be held at ATR's downtown office from 6:30-8:30pm on an evening of your choosing. The evening begins with a 30 minute cocktail reception followed by a 1 hour dinner. We conclude with very brief, informal remarks.

The entire event is off the record. Attendees include government relations representatives from the trade association community and some of the largest companies in America. All dinner guests are supporters of ATR.

Please let me know if you have any questions. Also, if there is someone else I should be working with on this I'd appreciate an introduction.

Thank you!

All the best,

Megan

Sydney,

Cynthia Reid has asked me to work with you concerning Administrator Pruitt's May 4th speaking engagement before the Greater Oklahoma City Chamber. I am working on the scheduling form now and will have it sent back to you Monday morning. I just wanted to introduce myself as I will now be the contact going forward. My cell is listed below if case you need it the morning of the event, and of course will be on the scheduling form as well. Thank you!

Subject: Meeting Request With Administrator Pruitt

Dear Ms. Hupp,

I hope this note finds you well. I am writing to request a meeting with Administrator Pruitt on behalf of my company's President & CEO Paul Browning. I understand that there might be a form we'd need to fill out as part of the scheduling process, and I'd appreciate any assistance you can provide. Mr. Browning will be in Washington on 17th.

MHPSA is a U.S.-based manufacturer and provider of thermal power generation technologies. Mr. Browning would like to speak with Administrator Pruitt about our company's experience in deploying commercially-viable clean coal and emissions' control solutions in the United States. He would appreciate the opportunity to provide feedback on ways in which the Administration can expedite the deployment of commercially-viable technologies to achieve cleaner air and water and economic growth. Thank you in advance, and I look forward to hearing from you.

Best regards,

Victor

Hi Sydney,

Reliable One Resources, Inc has a meeting scheduled with Administrator Pruitt next Tuesday the 23rd @ 3:00 PM. I am needing the name of the building that your office is housed in & what floor & office/suite number that you are in?

Respectfully yours,
Sharissa Ward

Sydney

I just tried to call you to ask a quick question on the number you have listed below but didn't get an answer. Is there a better number to call you? My number is 202-368-4323.

Attached is the form I have filled out today.

I wanted to let you know to do the meeting the week of May 1st we will need to send in the Executive team which are listed on the request form. The team is well versed on the issues facing republic and will be able to provide in detail to the Administrator the issues facing Republic Services.

Thanks and let me know what more information you need from me.

Sydney

We will get this filled out and back to you by tomorrow.

We would like to do the meeting in the next couple of weeks and we can also offer to meet Mr. Pruitt outside of DC if you all are traveling the country. While the executive team for Republic is based in Phoenix we can get to anywhere.

Should we just outline that in the attachment?

Thanks.

Ryan

Hope you are well.

I wanted to email you to request a meeting with Administrator Pruitt with the CEO of Republic Services, Dan Slager. As you know Republic Services is the second largest waste company in the country.

Purpose of the meeting will be to update Mr. Pruitt on the issues we are dealing with at Republic and the issues surrounding the West Lake Landfill in Missouri.

I am happy to work with your staff to set up a meeting in the coming weeks or month.

Thanks and let me know what else you need from us.

Hi Sydney!

Yes, 10 a.m. on June 20th is perfect. Thank you!

Unfortunately, Mr. Donohue is traveling on May 9th. Any chance May 5th anytime between noon and 1:15 pm is he available? I realize the time is during the traditional lunch hour but we could make it a short meeting. Or what about May 11th? Thank you for your time and help.

Best regards,

Leila

Hi Leila,

We are confirmed for June 20 to speak. Is 10AM okay?

As for the meeting on May 8th, we are now traveling that day. Could we look at the 9th at 10AM?

Thank you!

It is not a problem – I am sure you all are extremely busy. I can set a call anytime that will be good for the Secretary's schedule. Because so many states are in legislative session, Thursdays and Fridays are best (in the afternoon so folks on the west coast can join us).

Looking at our network's schedule, the next few weeks are pretty open so we can be flexible if there are a few dates / times that work with his schedule.

Thank you!

Subject: State Policy Network - Speaking request

Attached is the completed form requesting Secretary Pruitt to join our monthly State Energy / Environmental Policy Call. To expand the call to other key parties in the states, I can invite ALEC and RGA to participate. Our three organizations have been on a lot of policy related calls (healthcare and tax reform) together lately.

Background on this call:

We kicked off this call in December of 2015 with the goal of getting as many states as possible to submit requests to EPA for two-year state plan extensions, but after the SCOTUS stay the call transitioned into getting as many states to stop working on a plan. During session our weekly war room calls quickly became the go-to source for state action and info sharing. We not only have state and national think tank policy experts engaged, but also private industry and attorneys associated with state AG offices. We also deal with RPS mandates, carbon tax and messaging proactive free market solutions. The call is now on a monthly basis

and would benefit greatly from receiving a first-hand update on changes we will see at the EPA, plus what support the agency needs during this transition.

Look forward to discussing this request. Thank you for your consideration.

Jennifer Butler |Senior Policy Advisor | State Policy Network | M: (561) 352-0011 | www.spn.org |butler@spn.org

Subject: FW: Meeting Request

Dear Sydney:

I would like to request a meeting with the Administrator for Larry Ziemba, Executive Vice President, Refining, for Phillip 66. Larry has responsibility for the company's refining operations and serves in a leadership position with the American Fuels and Petrochemical

Manufacturers Association. He has been working with other refiners and the Auto industry regarding the potential for higher octane fuels and other forward looking fuels issues. A brief bio is set forth below.

Larry is currently scheduled to be in D.C. on Friday June 2nd and Monday June 5th. If those days would not work with the Administrator's schedule, he is happy to work with other days that would be more convenient for Administrator Pruitt.

Lawrence (Larry) M. Ziemba is executive vice president, Refining, for Phillips 66, a diversified energy manufacturing and logistics company. He has 35 years of experience in the oil and gas industry. Before joining Phillips 66 in May 2012, Ziemba previously worked for ConocoPhillips as president, Global Refining, a role he took on after serving as president, U.S. Refining, since 2003. He first joined Phillips Petroleum in 2001 after its acquisition of Tosco and was in charge of handling the integration of the refining operations during the merger with Conoco. Originally from Chicago, he started his career at Unocal's Chicago refinery in 1977. In 1988, he moved to Unocal's Los Angeles corporate headquarters as manager of planning/business development for its downstream business. In 1991, he managed the acquisition of Shell's Carson refinery and subsequently integrated the asset into Los Angeles operations. In 1997, Ziemba joined Tosco as they acquired Unocal's downstream business. In 1999, he was named vice president of Tosco's three San Francisco area refineries. In 2000, he was assigned to handle the acquisition and takeover of the Wood River refinery. He has held a number of industry and community leadership positions including board positions with American Fuels and Petrochemical Manufacturers Association, WRB Refining LP and the Western States Petroleum Association. Ziemba earned a bachelor's degree in mechanical engineering from the University of Illinois-Champaign in 1977 and a Master of Business Administration degree from the University of Chicago in 1985.

Thank you for your consideration,

Joe Stanko

Dear Sydney,

I am writing to amend my participant list for ACC and the Biocide Panel's May 10 meeting with Administrator Pruitt. Mike Walls, Vice President, Regulatory and Technical Affairs, ACC also will be in attendance.

Would you please let me know who will be attending with Administrator Pruitt.

Thanks,

Komal

Sydney,

I apologize that it has taken a bit of time to return the attached meeting request form. Coordination among the attendees and finding available dates to propose to you and Administrator Pruitt was a little tricky. We are suggesting May 9, May 11 or May 12 (times specified in the form). If Administrator Pruitt is not free during those times, please let me know as soon as possible, and we will revisit calendars.

Thanks again.

Best,

Komal

Sydney

I just tried to call you to ask a quick question on the number you have listed below but didn't get an answer. Is there a better number to call you? My number is 202-368-4323.

Attached is the form I have filled out today.

I wanted to let you know to do the meeting the week of May 1st we will need to send in the

Executive team which are listed on the request form. The team is well versed on the issues facing republic and will be able to provide in detail to the Administrator the issues facing Republic Services.

Thanks and let me know what more information you need from me.

Ryan

Hope you are well.

I wanted to email you to request a meeting with Administrator Pruitt with the CEO of Republic Services, Dan Slager. As you know Republic Services is the second largest waste company in the country.

Purpose of the meeting will be to update Mr. Pruitt on the issues we are dealing with at Republic and the issues surrounding the West Lake Landfill in Missouri.

I am happy to work with your staff to set up a meeting in the coming weeks or month.

Thanks and let me know what else you need from us.

Subject: Industry Coalition Request to Meet with Administrator Pruitt

Hi Sydney,

As a follow up to your conversation with Scott Yager, I'm submitting the completed meeting request form on behalf of a diverse industry coalition representing nearly all sectors of the economy.

Please let me know if you need anything further at this point, and thanks for your help!

Best,

Owen

Hi Sydney and Michelle,

Thanks so much for organizing the meeting for us 'aggies' last week with the Administrator. Our ag groups are part of a larger coalition that represents just about every facet of the economy. Owen McDonough, cc'd here, represents the Home Builders which is one of the major groups that are part of the coalition. I'm reaching out to you now to coordinate a meeting with the coalition and the Administrator. I'll wait to hear back from you on next steps. Happy to chat by phone, if that's easier. Thanks in advance.

We're all here in DC. Sometime this month would be perfect, the sooner the better really. We have our legislative fly-in starting on March 28 (with Mr. Pruitt speaking to our cattle producers on March 30) so it would be optimal for this meeting to happen before March 28. Thanks in advance for your effort on this. Happy to discuss further by phone if that's helpful. 202 347 0228.

Good Morning Michelle,

On behalf of the New England Council, please find the attached invitation for Secretary Pruitt to speak its members at a Federal Policy Briefing, as part of their Annual Spring Event in Washington, D.C., on the afternoon of Wednesday, May 3, 2017.

The briefing will be held at the Willard Intercontinental Hotel from 2:00 – 4:00 PM. There are 4-5 speakers over the course of the afternoon, each speak for approximately 10-15 minutes. There may also be a few questions as well. They are able to accommodate what works best for the Secretary's schedule.

Additional information on the event, as well as background on the New England Council, is included in the attachment. I have also attached a separate list of speakers from the Obama and Bush Administrations as well.

Thank you for your consideration and please let me know if you have any additional questions.

Best,

Laine

To: Hupp, Sydney <hupp.sydney@epa.gov>
Cc: Jackson, Ryan <jackson.ryan@epa.gov>
Subject: Kansas Farm Bureau request to discuss Flint Hills range burning with Administrator Pruitt or staff

Sydney,

Kansas Farm Bureau would like to discuss the Clean Air Act, specifically Flint Hills (Kansas)

range burning, with Administrator Pruitt. There will be a group of approximately six Kansas Farm Bureau members in Washington, DC on the morning of Wednesday, May 24 where we would be able to visit. Our main concern is the challenge of needing a prescribed fire to maintain the natural ecosystem of the Flint Hills in Kansas and the Osage Hills in Oklahoma and how smoke from these necessary fires impact the ozone and PM2.5 standards. Exceedances or violations of a national ambient air quality standard directly related to prescribed fires in the Flint Hills and Osage Hills is becoming a challenge to manage.

In 2011, Sens. Inhofe and Moran introduce a bill addressing this issue:
https://www.moran.senate.gov/public/index.cfm/news-releases?ID=dc891dd7-ad7c-4d8f-83f7-aa7c4b644b3f

So far this year the media has written a number of stories:

Hi Susan,

Thank you for your email! So on the Mid-Year meeting, would you mind filling out the attached form so that we may discuss in scheduling? And as for the senior executives being in town next week, we actually just had a meeting cancelled at 3PM on the 29th. Is it still possible for your senior officers to meet with him then? It would be from 3:00-3:30 and I would request their names and topic of the meeting. Hoping this still works on your end!

Thank you!

Sydney

Subject: NAHB Meeting w Administrator Pruitt

Hi Sydney!

Thanks for the call today. The National Association of Home Builders is very interested in having EPA Administrator Pruitt speak before a larger group of our members. In an effort to accommodate his schedule, we are willing to create a special meeting during our Mid-Year Meeting if the Administrator is available. The timing for the meeting would be Thursday, June 15 at a time that is convenient between 12:30 and 2:30 at the Marriott Wardman Park, 2660 Woodley Road, NW, Washington, DC. We would have an audience of approximately 700 members who are interested in hearing about Administrator Pruitt's vision for the agency, how the agency will address some of the high priority issues, and steps that may be taken to improve the regulatory environment for the Nation's home builders. We would also like to reserve some time for questions, if allowed.

Our Senior Officers would also like to meet privately with Administrator Pruitt. They will be in town and available for a quick visit next week, if a meeting on such short notice is possible. They could be available Wednesday, March 29, between 3 – 5 pm or Thursday, March 30, between 8 am – 12 pm. They could also be available for a meeting on Wednesday, June 14 or before or after the address to the members on June 15, if that schedule works.

Please take another look at the calendar and let me know what might be possible. I look forward to working with you and the Administrator in the future.

Thanks for your assistance!

Susan

Hi Sydney, I hope things are well with you too! The first meeting is just with Chet Thompson,

AFPM's president. We're based in D.C. so his schedule is pretty flexible. I've copied Rebbie Riley, Chet's EA, to help with scheduling.

The second request is for AFPM's executives for the afternoon of June 15th. They'll be flying into town for a series of meetings and would like to visit with Administrator Pruitt if he's available. These are the executives we expect to join.

Larry Ziemba (AFPM Chairman of the Board)

Executive Vice President, Refining, Phillips 66

Joe Gorder (AFPM Vice Chairman)

Chairman, President and CEO, Valero Energy Corporation

Greg Goff (AFPM Past Chairman)

Chairman, President and CEO, Tesoro Corporation

Dennis Seith (AFPM Treasurer)

President and CEO, INEOS

Dan Coombs

Executive Vice President of Global Manufacturing, Projects, Refining & Technology, LyondellBasell Industries

George Damiris

CEO & President, HollyFrontier Corporation

Gary Heminger

Chairman, President and CEO, Marathon Petroleum Corporation

Dave Lamp

President and COO, Western Refining Company

Jack Lipinski

CEO, CVR Energy

Jim Loving

Sr. VP Refining, Pipelines and Terminals, CHS, Inc.

Jeff Ramsey

President and CEO, Flint Hills Resources

Jeff Webber (Associate Liaison)

President, AltairStrickland, Inc.

Michael Coyle (tentative on attendance)

President, Manufacturing, Chevron U.S.A., Inc.

Tom Nimbley (tentative on attendance)

CEO, PBF Energy, Inc.

Jerry Wascom (tentative on attendance)

President, ExxonMobil Refining & Supply Co.

I'll fill out the form for both meeting requests and send them back as soon as possible.

Thanks!
Geoff

Subject: AFPM Meeting Request

Ryan, I hope things are well. As we discussed last week, I would like to request a meeting for AFPM's president, Chet Thompson, with Administrator Pruitt in early May. Chet would like to reintroduce himself, discuss some of the issues that are top of mind for our refining and petrochemical members, and of course explore any ways AFPM can be helpful to the Administrator. By way of background, Chet was EPA Deputy General Counsel under President G.W. Bush.

Separately, we also have our Executive Committee meeting on June 15th in D.C. If I'm not overstepping, would it be possible to explore a second meeting with Administrator Pruitt and senior executives from our companies for that afternoon?

Thanks,

Geoff Moody

Hi Sydney,

Good to hear from you and happy to hear we're able to move forward!

We have an all-member coalition meeting at 2:00 today and will identify several possible dates at that time.

I'll touch base with you this afternoon.

Cheers,

Owen

Hi Sydney and Michelle,

Thanks so much for organizing the meeting for us 'aggies' last week with the Administrator. Our ag groups are part of a larger coalition that represents just about every facet of the economy. Owen McDonough, cc'd here, represents the Home Builders which is one of the major groups that are part of the coalition. I'm reaching out to you now to coordinate a meeting with the coalition and the Administrator. I'll wait to hear back from you on next steps. Happy to chat by phone, if that's easier. Thanks in advance.

We're all here in DC. Sometime this month would be perfect, the sooner the better really. We have our legislative fly-in starting on March 28 (with Mr. Pruitt speaking to our cattle producers on March 30) so it would be optimal for this meeting to happen before March 28. Thanks in advance for your effort on this. Happy to discuss further by phone if that's helpful. 202 347 0228.

It is not a problem – I am sure you all are extremely busy. I can set a call anytime that will be good for the Secretary's schedule. Because so many states are in legislative session, Thursdays and Fridays are best (in the afternoon so folks on the west coast can join us).

Looking at our network's schedule, the next few weeks are pretty open so we can be flexible if there are a few dates / times that work with his schedule.

Thank you!

Subject: State Policy Network - Speaking request

Attached is the completed form requesting Secretary Pruitt to join our monthly State Energy / Environmental Policy Call. To expand the call to other key parties in the states, I can invite ALEC and RGA to participate. Our three organizations have been on a lot of policy related calls (healthcare and tax reform) together lately.

Background on this call:

We kicked off this call in December of 2015 with the goal of getting as many states as possible to submit requests to EPA for two-year state plan extensions, but after the SCOTUS stay the call transitioned into getting as many states to stop working on a plan. During session our weekly war room calls quickly became the go-to source for state action and info sharing. We not only have state and national think tank policy experts engaged, but also private industry and attorneys associated with state AG offices. We also deal with RPS mandates, carbon tax and messaging proactive free market solutions. The call is now on a monthly basis and would benefit greatly from receiving a first-hand update on changes we will see at the EPA, plus what support the agency needs during this transition.

Look forward to discussing this request. Thank you for your consideration.

Jennifer Butler |Senior Policy Advisor | State Policy Network | M: (561) 352-0011 | www.spn.org |butler@spn.org

Great,

Again, I am sure Mr. Pruitt, will find this meeting to be beneficial. As a Environmental Scientist with a Graduate degree from Johns Hopkins, not only does the connection of population growth, driven by immigration found as a valid environmental issue. But with Presidents Trump's focused on restricting our

dysfunctional immigration system, I foresee Mr. Pruitt's effort to address these connection will be very beneficial to President Trump.

Subject: Request meeting with Mr. Pruitt: Regarding the environmental concerns of population growth driven by mass immigration.

Greetings Ms. Sidney,

My name is Paul Clark and I am the President of The Chesapeake Bay Population Stability Society (CBPSS). Our mission is to goal is to stabilize the population of the Chesapeake Bay watershed to ensure future environmental sustainability. Our mission includes generating greater awareness of the impacts of growth on the Bay which can be considered the Bay's leading environmental challenge. On behalf of the CBPSS, I would like to schedule a meeting with Mr. Pruitt regarding the environmental concerns of population growth driven by mass immigration. We believe that not only will this meeting be beneficial in helping efforts to reduce immigration, as is favored by President Trump, but can also provide suggestions that implement existing environmental laws and policies. We have confidence that the resources we provide will aid Mr. Pruitt in further reducing the impacts of population growth, a considerable environmental challenge.

Please let us know when you are able to schedule a time/day/place and I will ensure my availability. For more information please view us at http://cbpss.weebly.com and/or www.PandorasGreenBox.com

Thank you for your time.,

Paul Clark

Dear Amy Dewey,

As we discussed, AF&PA has requested two meetings with EPA. The first is a request for AF&PA's President and CEO and several of our member CEOs to meet with Administrator Pruitt on May 4th (see attached meeting request). To assist with scheduling that meeting, I have copied Sydney Hupp and Michelle Hale, as you suggested. I appreciate any help you can provide on scheduling this meeting.

The second is request for AF&PA staff to meet with Mandy Gunasekara and other key EPA staff to discuss our comments filed in response to the Department of Commerce Request for Information and to prepare for the meeting with Administrator Pruitt (see meeting request below). It is my understanding that Ms. Gunasekara has already facilitated the scheduling of that meeting. Thanks again for all your help.

Dear Amy Graham,

Thank you for your recent introductory message. We look forward to working with you on these and other issues. Jerry Schwartz

Subject: Meeting Request

Dear Ms. Gunasekara:

We are writing to request a meeting with you and your colleagues to discuss a number of EPA regulations and permit requirements that we have identified as adversely affecting our member's manufacturing operations. On March 31, AF&PA filed comments in response to the Department of Commerce's Request for Information pursuant to the President's January 24 directive, and our comments discuss problems and proposed solutions related to 77 distinct rules and permit issues impeding U.S. manufacturing. Most of the comments focus on EPA issues.

AF&PA President and CEO Donna Harman has requested a meeting with Administrator Pruitt on behalf of several of our CEOs on May 4th, and we believe that meeting with you and other key EPA staff in advance of that meeting would enable the Administrator to be well-briefed and ensure the meeting is as productive as possible. As the issues we would like to discuss span a number of EPA offices, we have copied several of your colleagues on this message. We will facilitate your busy schedule, but the dates of April 18-21 look good for us.

Top priority issues we would like to discuss include:

1. Carbon Neutrality of Biomass

2. Air Permit Gridlock

3. Human Health Water Quality Criteria

4. EPA Procurement Guidelines for Paper and Paper Products Containing Recovered Materials/Specifications, Labels and Standards

AF&PA represents U.S. manufacturers of pulp, paper, packaging, tissue and wood products. Our industry employs 900,000 hard working men and women, and our mills often are located in small, rural communities that need good-paying jobs. The U.S. forest products industry is very heavily regulated, but at the same time also must operate efficiently in a fiercely competitive global market.

We look forward to hearing from you soon and to discussing these important issues. Thank you for your consideration.

Best regards,

Paul Noe

Good morning, Sydney,

We have scheduled a meeting with Gary Cohn, Ray Starling and other NEC staff at the White House at 5:00p on Thursday afternoon, April 27, with several members of CropLife America's Executive Committee (a leadership subgroup of our Board of Directors). It should be finished by 5:30 or 5:45p.

Jay Vroom asked me to reach out to you to see if it might be possible to bring this small group (5-6 people or less) by the Administrator's office after that meeting, to say a brief hello and introduce these ag leaders.

Thank you for considering our request. If you need more information, don't hesitate to contact me.

I look forward to hearing from you.

Thanks for trying to make those work, Sydney.

While I have you looking, could you check on two other dates in June:

- The Global CEO for Mosaic, Joc O'Rourke is requesting to meet with Pruitt for 15-20 min on June 20th. He is only in county & DC that day. Mosaic is involved in a number of industries, but phosphate and potash production are the primary industries they are involved in here in the U.S.

-The American Foundry Society (AFS) Fly-in is on June 21st (or 20th.) Their specialty is "Metalcasting". They're asking for Administrator Pruitt to speak at their Leadership Breakfast on 21 June. If June 21st doesn't work, they can make June 20th work.

Thank you for letting me bother you with these; talk to you soon.

I appreciate you, AJF

Sent: Tuesday, April 11, 2017 11:29 AM
To: hupp.sydney@epa.gov
Subject: Meeting request (as discussed)

Sydney:

Thanks for the note yesterday. As mentioned, the Vinyl Institute is holding it's annual fly-in meeting in May. A request for Ryan Jackson to speak to the group on May 17th was previously forwarded by the organization.

This request is for the Executive Committee of the Vinyl Institute to meet for 15 minutes with the Administrator the day before the fly-in, on May 16th at any point during that day the Administrator is available.

The executive committee represents four large chemical companies that produce products such as PVC. Names that would likely be in attendance would include:

Bob Buesinger, Senior Vice President – Vinyls, Westlake Chemical, Houston, TX

Grant Evans, Vice President and General Manager – Vinyls, Occidental Chemical Corporation, Dallas, TX

Dick Heinle, Senior VP/General Manager – Vinyls, Formosa Plastics, Livingston, NJ

Dick Mason, Corporate Secretary, Shintech Inc., Houston, TX

Dick Doyle, President and CEO, Vinyl Institute, Washington, DC

Rich Krock, Vice President Regulatory and Technical Affairs, Vinyl Institute, Washington, DC

JC Walker, Partner, Keller & Heckman, Washington, DC

Should you have any additional questions about this you know where to find me.

Also, when I met with the Administrator a couple of weeks ago an invitation was extended to speak to the Oklahoma Independent Petroleum Association (OIPA) Annual Conference during the weekend of June 3-4 at any time he would be available. The conference is in Las Colinas, TX (Dallas metro area.) He seemed interested, but non-committal. Let me know if this is something he would be interested in doing.

Call me with any questions, Sydney. I appreciate you, A.J. Ferate

Subject: RE: Invitation from Southern Crop Production Assoc.

Hi Sydney. Thanks for your email. We are excited about the opportunity to visit with Administrator Pruitt next week.

In an effort at a quick response, I want to first suggest topics for next week's meeting, including: 1) reaffirming FIFRA's risk-based approach to regulating pesticides, 2) regulatory reform at the intersection of pesticide policy and the Endangered Species Act, and 3) reauthorizing the industry's fee-for-service program, PRIA.

I am away from my desk at the moment but will forward issue backgrounders on each of these three first thing in the morning as well as a list of those that will be attending this meeting.

Thanks for your assistance! I will be back in touch tomorrow morning.

Regards, Beau.

Sydney,

Rebeckah is attending to her final day duties here at CLA before going to USDA and Beau is currently travelling, but we have heard from SCPA leadership that they would prefer to meet on Thursday, May 4. A morning appointment would be preferable to the afternoon; however, either would work. Lunchtime is their only conflict that day with a standing appointment that would be inappropriate to cancel.

We look forward to hearing from you at your earliest convenience.

Thank you for all of your help,

Dear Ms. Hupp,

I know an invitation or two is floating around the offices there at EPA, but I was recently given your email as you are the scheduler for Administrator Pruitt. We want to formally invite Mr. Pruitt to be our opening keynote to our annual OK Building Summit & Expo on September 27, 2017, 10:00 am, at the Cox Convention Center. As builders and developers we heavily endorsed and applauded his appointment as Administrator of the EPA.

Our annual Summit has grown each year and last year we had over 650 in attendance. We would love to welcome Mr. Pruitt back to Oklahoma in his new role.

Thank you for consideration and please let me know if I can provide any additional details.

Hello Sydney,

Many thanks for your help to coordinate the meetings with Administrator Pruitt. Tuesday, May 2 works for Chet. Will the meeting likely take place in the morning or afternoon?

On June 15, please hold 2 p.m., and Geoff will confirm.

Best regards,

Rebbie

Subject: RE: AFPM Meeting Request

Hi Sydney, I hope things are well with you too! The first meeting is just with Chet Thompson, AFPM's president. We're based in D.C. so his schedule is pretty flexible. I've copied Rebbie Riley, Chet's EA, to help with scheduling.

The second request is for AFPM's executives for the afternoon of June 15th. They'll be flying into town for a series of meetings and would like to visit with Administrator Pruitt if he's available. These are the executives we expect to join.

Larry Ziemba (AFPM Chairman of the Board)

Executive Vice President, Refining, Phillips 66

Joe Gorder (AFPM Vice Chairman)

Chairman, President and CEO, Valero Energy Corporation

Greg Goff (AFPM Past Chairman)

Chairman, President and CEO, Tesoro Corporation

Dennis Seith (AFPM Treasurer)

President and CEO, INEOS

Dan Coombs

Executive Vice President of Global Manufacturing, Projects, Refining & Technology, LyondellBasell Industries

George Damiris

CEO & President, HollyFrontier Corporation

Gary Heminger

Chairman, President and CEO, Marathon Petroleum Corporation

Dave Lamp

President and COO, Western Refining Company

Jack Lipinski

CEO, CVR Energy

Jim Loving

Sr. VP Refining, Pipelines and Terminals, CHS, Inc.

Jeff Ramsey

President and CEO, Flint Hills Resources

Jeff Webber (Associate Liaison)

President, AltairStrickland, Inc.

Michael Coyle (tentative on attendance)

President, Manufacturing, Chevron U.S.A., Inc.

Tom Nimbley (tentative on attendance)

CEO, PBF Energy, Inc.

Jerry Wascom (tentative on attendance)

President, ExxonMobil Refining & Supply Co.

I'll fill out the form for both meeting requests and send them back as soon as possible.

Thanks!
Geoff

Good morning Geoff,

Hope this email finds you well! Ryan forwarded me the below email to facilitate getting the meetings mentioned on the Administrator's calendar. Are you all based in DC or will people need to travel in for the first meeting as well as the second? Trying to get an idea of which May days you would like for me to look at for your group. Additionally, would you mind filling out the attached document at your convenience?

Thank you!

Subject: AFPM Meeting Request

Ryan, I hope things are well. As we discussed last week, I would like to request a meeting for AFPM's president, Chet Thompson, with Administrator Pruitt in early May. Chet would like to reintroduce himself, discuss some of the issues that are top of mind for our refining and petrochemical members, and of course explore any ways AFPM can be helpful to the Administrator. By way of background, Chet was EPA Deputy General Counsel under President G.W. Bush.

Separately, we also have our Executive Committee meeting on June 15th in D.C. If I'm not overstepping, would it be possible to explore a second meeting with Administrator Pruitt and senior executives from our companies for that afternoon?

Thanks,

Geoff Moody

Sydney: Below and attached please find the info on the American Foundry Society Fly-in as you requested last week.

I may call you about those items I sent you last week to follow up as well.

As always, please let me know if you have any questions.

Respectfully, A.J. Ferate

Please see attached our agenda for the Fly-In in June. Should Administrator Pruitt be available Tuesday morning June 20, we would slot the "Changes at EPA on Regulations - What Does it Mean for the Metalcasting Industry?" in at either 10:15 am or 11:00 am in place of one of those panels. If the Administrator cannot join us – we would be delighted to have Samantha for the 7:30 am Breakfast Session keynote slot on June 21. You can see from the agenda what the other topics are of interest to our members and the caliber of speakers we have lined up so far.

As we have discussed, the American Foundry Society represents the U.S. metalcasting industry – the sixth-largest industry sector in America and the second largest supplier of castings in the world, after China. Metal castings are integral to virtually all U.S. manufacturing activities – especially national defense, energy and infrastructure. In the U.S., castings are used to produce 90% of all manufactured durable goods and nearly all manufacturing machinery.

The American metalcasting industry provides employment for over 200,000 men and women directly and supports thousands of other jobs indirectly. Our energy-intensive, trade-exposed industry supports a payroll of more than $9 billion and sales of more than $30.3 billion annually. Metalcasting plants are found in every state, and the industry is made of predominately small businesses, with 80% of domestic metalcasters having fewer than 100 employees.

Foundries are the mainstay of national defense. All sectors of the U.S. military are reliant on metal castings for jet fighters, ships, tanks, trucks, weapon systems and other vital operations. In fact, the U.S. Department of Defense has established formal programs to convert fabricated components to single-piece castings, improving our military's ability to cost-effectively produce such equipment in the least amount of time.

Metalcasting is one of the most energy-intensive industries in the U.S. Approximately 55% of its energy costs are consumed in melting. Mold making, core making, heat treatment, and post-cast operations also use significant energy. As such, the sector has been particularly hard hit by the regulatory overreach from EPA over the last eight years.

The American Foundry Society (AFS) is the major trade and technical association for the North American metalcasting industry. The association has more than 8,000 members representing over 2,000 metalcasting firms, their suppliers and customers. We will have about 150 owners, CEOs and executives in Washington for the Fly-In over those two days. Energy and enthusiasm among the attendees will be very high with the new Administration in place in Washington.

Thanks again for your help Stuart.

Best.

Cc: Jackson, Ryan <jackson.ryan@epa.gov>
Subject: Kansas Farm Bureau request to discuss Flint Hills range burning with Administrator Pruitt or staff

Sydney,

Kansas Farm Bureau would like to discuss the Clean Air Act, specifically Flint Hills (Kansas) range burning, with Administrator Pruitt. There will be a group of approximately six Kansas Farm Bureau members in Washington, DC on the morning of Wednesday, May 24 where we would be able to visit. Our main concern is the challenge of needing a prescribed fire to maintain the natural ecosystem of the Flint Hills in Kansas and the Osage Hills in Oklahoma and how smoke from these necessary fires impact the ozone and PM2.5 standards. Exceedances or violations of a national ambient air quality standard directly related to prescribed fires in the Flint Hills and Osage Hills is becoming a challenge to manage.

In 2011, Sens. Inhofe and Moran introduce a bill addressing this issue:
https://www.moran.senate.gov/public/index.cfm/news-releases?ID=dc891dd7-ad7c-4d8f-83f7-aa7c4b644b3f

So far this year the media has written a number of stories:

http://cjonline.com/news/state-government/local/2017-04-18/burning-questions-tradition-economics-cloud-debate-prairie

http://journalstar.com/news/local/article_420984a8-e0a3-546e-a36d-7333898b551f.html

Subject: RE: meeting request - Republic Services [WARNING: SPF validation failed] [WARNING: SPF validation failed]

My name is Cheryl Woodward and I will assist you in the logistics for your meeting at EPA on Tuesday, May 16 at 3:30 pm. The instructions/directions to EPA is below and if you have any questions please contact me. Please have **your attendee's list no later than Thursday, May 11** to submit to security for your entry. Look forward to seeing you all.

Directions: If you come by Metro, the Federal Triangle metro stop is directly below the building entrances. You would leave the metro station and go up all three sets of escalators from the train otherwise two escalators then do a small U-Turn to the right heading toward 12th street, the South Lobby entrance is directly and immediately to your right (Glass Doors -EPA Signified on Glass).

EPA address is 1200 Pennsylvania Avenue, NW. If you are coming by taxi/vehicle, you want to be dropped off on 12th NW, which is between 12th and Constitution Avenues. It is almost exactly half way between the two avenues on 12th street with Federal Triangle Metro sign and Trump Hotel Towers side entrance can be used as a landmark. From 12th Street, facing the building with the EPA and American flags, walk toward the building (under the flags) and take the glass door on your left hand side with the escalators going down to the metro on your left. This again will be the **South Lobby of the William Jefferson Clinton building.**

Once inside the building, security will prompt you to scan all items such as bags, coats etc., and then let the guards know that you were instructed to call Cheryl Woodward at 564-1274 or Michelle Hale at 564-1430 to escort you to the meeting with the Administrator. Security will make temporary cards for everyone. Allow for 15 minutes to get through the process.

Checking back on the potential for the Republic Services meeting with Administrator Pruitt. Is May 16th even a possibility or do we need to stick with the Friday May 19th time slot of 9:30 am you sent earlier.

Thanks and I appreciate you taking the time to help us out here.

Would you shoot me if I asked for availability for Tuesday May 16th? On the 16th I have a better chance of getting the executive team and the CEO in town for the meeting.

My apologies as the Republic team in Phoenix just made me aware of this change.

I just tried to call you to ask a quick question on the number you have listed below but didn't get an answer. Is there a better number to call you? My number is 202-368-4323.

Attached is the form I have filled out today.

I wanted to let you know to do the meeting the week of May 1st we will need to send in the Executive team which are listed on the request form. The team is well versed on the issues facing republic and will be able to provide in detail to the Administrator the issues facing Republic Services.

Thanks and let me know what more information you need from me.

Sydney

We will get this filled out and back to you by tomorrow.

We would like to do the meeting in the next couple of weeks and we can also offer to meet Mr. Pruitt outside of DC if you all are traveling the country. While the executive team for Republic is based in Phoenix we can get to anywhere.

Should we just outline that in the attachment?

Thanks.

Ryan

Hope you are well.

I wanted to email you to request a meeting with Administrator Pruitt with the CEO of Republic Services, Dan Slager. As you know Republic Services is the second largest waste company in the country.

Purpose of the meeting will be to update Mr. Pruitt on the issues we are dealing with at Republic and the issues surrounding the West Lake Landfill in Missouri.

I am happy to work with your staff to set up a meeting in the coming weeks or month.

Thanks and let me know what else you need from us.

Subject: RE: Meeting with Administrator Pruitt

Hi Sydney,

Thanks for the email and apologies for the delay in getting back to you. At this point, it's hard to say when Andrew may be in DC again due to a lot of additional commitments in April… However, it does look like he will be there for a speech on May 2nd. Any chance

Administrator Pruitt would even be in DC then, as far as you can tell?

Thanks!

Peter

Good afternoon Peter,

Hope this email finds you well! I am reaching out today about setting up a meeting to continue the discussion between Dow Chemical and Administrator Scott Pruitt. My apologies for the delay in getting this email into you—it has been a crazy time over here! Samantha let me know we need to get you on the schedule. What kind of time frame are you thinking on setting this up? Looking forward to working with you on this!

Best,

Sydney Hupp

Ms. Hupp:

Many thanks again to you and your colleagues for helping arrange this morning's visit with Administrator Pruitt. Pleased to report it was a productive and informative meeting for my turf research clients. They also look forward to providing several information items requested by the Administrator. Thanks also to Michelle Hale who met us in the lobby and guided us up to the "inner sanctum".

Hi Sydney. Thanks for your email. We are excited about the opportunity to visit with Administrator Pruitt next week.

In an effort at a quick response, I want to first suggest topics for next week's meeting, including: 1) reaffirming FIFRA's risk-based approach to regulating pesticides, 2) regulatory reform at the intersection of pesticide policy and the Endangered Species Act, and 3) reauthorizing the industry's fee-for-service program, PRIA.

I am away from my desk at the moment but will forward issue backgrounders on each of these three first thing in the morning as well as a list of those that will be attending this meeting.

Thanks for your assistance! I will be back in touch tomorrow morning.

Regards, Beau.

Sydney,

Rebeckah is attending to her final day duties here at CLA before going to USDA and Beau is currently travelling, but we have heard from SCPA leadership that they would prefer to meet on Thursday, May 4. A morning appointment would be preferable to the afternoon; however, either would work. Lunchtime is their only conflict that day with a standing appointment that would be inappropriate to cancel.

We look forward to hearing from you at your earliest convenience.

Dear Sydney and Michelle,

On behalf of Roy Bailey I am writing to you to reschedule the meeting with Administrator Pruitt for this week. The Administrator and Mr. Bailey spoke recently and discussed this request. Mr. Kirk just happens to be in the East this week and wondered if the

Administrator would be open to meet with Mr. Kirk and Mr. Bailey on the morning of the 17th or 18th. Mr. Kirk needs to be in New York City the afternoon of the 17th. That is why we choose those dates. Please let us know if either Wednesday or Thursday morning will work or what you might have to offer.

I look forward to hearing from you soon so, we may make plans.

Sincerely,

Gay

Sydney – the Governor advises that he's boarding now. If all goes well, he'll be in the air soon, but won't land until 5pm. Does the Administrator have any flexibility if we head straight for the EPA upon arrival, or do we need to look at other options?

Subject: Re: Follow up call with Administrator Pruitt

Sydney – the Governor would like to discuss CERCLA 108(b) hard rock mining regulations, a local mine that we've been working with EPA Region 9 on (to avoid Superfund) and funding for the EPA delegated programs for air and water.

On the logistical side, we will have a Virginia State Police officer driving us, but I've told him that we don't need him to accompany us in the building. However, would it be possible to have a space for him to park while he waits for us? Could you let me know the best place to enter, etc?

Thanks!

It's tight. The Governor is meeting with Secretary Perry at 10am, and then with the Attorney General was shifted to 11:15, so it makes it pretty difficult. The Governor would be available in the morning as well – could accommodate a breakfast meeting or anything up to a 9am meeting. We could also try to do a late meeting on the 25th, he lands at 330pm, so we could try to make a 5p or 6p meeting work, too.

Appreciate anything you can do to help make this work! Copying Troy, who I discussed this with earlier today as well.

Hi Sydney,

Thanks for your patience – we actually have two options for the November Annual Conference

in Chicago, IL. Hopefully one of these works for his schedule!

The two dates/times we have for our Annual Conference are:

Wednesday, November 8, 2017

Opening General Session

3.00pm – 4.30 pm *(presentation time roughly 3.20pm – we start the session with some associate business)*

OR

Friday, November 10, 2017

Business Meeting and General Session

9.00am – Noon *(presentation time approximately 10.30/10.45am depending on how quickly the session flows)*

Please let me know if something is unclear. If I need to redo the speaker form, just let me know. Always feel free to call me if you have questions. 703.375.0483.

Thank you!

Best,

Liz.

Hi Sydney –

I would love to find time for a phone call between Mr. Pruitt and Tony Perkins sometime this week or next. With Congress out for the Easter recess, things are a lot more quiet and flexible on our end. For the most part, Tony could be available for a call anytime each day, with the exception of 4:00 – 6:00 pm ET when he is preparing for and hosting his daily radio program.

As I mentioned to John, the topic of this call would be to discuss pulling together a small group of key business leaders around the country who are very excited about Administrator Pruitt's new leadership role.

Appreciate you sending me some times you think this call could take place in the next week or so.

Subject: Request for phone call today with Tony Perkins

Hi John –

Thank you for taking my call. Tony Perkins is hoping to speak with Mr. Pruitt today about a couple things:

1. We would love for him to stop by The Willard tomorrow anytime between 9:00 – 10:30 am to speak to 200 of our key supporters. This is basically the equivalent of a stakeholders meeting where we report to our major donors on FRC's impact over the last year and what we have planned for the future. We believe this crowd, many of them business owners, would be interested to hear from Mr. Pruitt on the important and necessary changes he is bringing to the EPA.

2. This is not as urgent, but he wanted to start the discussion about pulling together a small meeting of key business owners and Mr. Pruitt. This came out of a meeting Tony had a few weeks ago in California with some of our major supporters.

Tony's cell is Personal Phone/Ex. 6 If he doesn't answer, it's because he is on stage at this event, but he will call right back.

Thank you very much for passing along this request!

Subject: Re: AFS - GA FLY-IN AGENDA

The Vinyl Institute fly-in will occur tomorrow, the 17th and will have an attendance of about 75-85 attendees at the National Press Club. The current speaking slot is 3:15-3:45, but if Mandy cannot make that specific time work I think we can move some things around. While PVC MACT is the primary issue for the group I believe that there would be interest in hearing Mandy's thoughts on the new approach of EPA and any plans in the works.

Thank you!

Sydney: Below and attached please find the info on the American Foundry Society Fly-in as you requested last week.

I may call you about those items I sent you last week to follow up as well.

As always, please let me know if you have any questions.

Respectfully, A.J. Ferate

Please see attached our agenda for the Fly-In in June. Should Administrator Pruitt be available Tuesday morning June 20, we would slot the "Changes at

EPA on Regulations - What Does it Mean for the Metalcasting Industry?" in at either 10:15 am or 11:00 am in place of one of those panels. If the Administrator cannot join us – we would be delighted to have Samantha for the 7:30 am Breakfast Session keynote slot on June 21. You can see from the agenda what the other topics are of interest to our members and the caliber of speakers we have lined up so far.

As we have discussed, the American Foundry Society represents the U.S. metalcasting industry – the sixth-largest industry sector in America and the second largest supplier of castings in the world, after China. Metal castings are integral to virtually all U.S. manufacturing activities – especially national defense, energy and infrastructure. In the U.S., castings are used to produce 90% of all manufactured durable goods and nearly all manufacturing machinery.

The American metalcasting industry provides employment for over 200,000 men and women directly and supports thousands of other jobs indirectly. Our energy-intensive, trade-exposed industry supports a payroll of more than $9 billion and sales of more than $30.3 billion annually. Metalcasting plants are found in every state, and the industry is made of predominately small businesses, with 80% of domestic metalcasters having fewer than 100 employees.

Foundries are the mainstay of national defense. All sectors of the U.S. military are reliant on metal castings for jet fighters, ships, tanks, trucks, weapon systems and other vital operations. In fact, the U.S. Department of Defense has established formal programs to convert fabricated components to single-piece castings, improving our military's ability to cost-effectively produce such equipment in the least amount of time.

Metalcasting is one of the most energy-intensive industries in the U.S. Approximately 55% of its energy costs are consumed in melting. Mold making, core making, heat treatment, and post-cast operations also use significant energy. As such, the sector has been particularly hard hit by the regulatory overreach from EPA over the last eight years.

The American Foundry Society (AFS) is the major trade and technical association for the North American metalcasting industry. The association has more than 8,000 members representing over 2,000 metalcasting firms, their suppliers and customers. We will have about 150 owners, CEOs and executives in Washington for the Fly-In over those two days. Energy and enthusiasm among the attendees will be very high with the new Administration in place in Washington.

Thanks again for your help Stuart.

Best.

Sydney,

Great news! Right now, our schedule on Wednesday, July 12 and Thursday, July 13 is flexible. I've sent speaking requests to all the Kentucky delegation offices and to Secretary Chao. I'm waiting to hear back from them.

We have space reserved in the Capitol Visitors Center for both days from 9:00 am to 3:00 pm.

Is there a time that you think would be better for Mr. Pruitt? Would he be traveling to us in the CVC or would you prefer our group hear from him at EPA?

Rusty,

Ethan Witt mentioned that you are interested in requesting a meeting with Administrator Pruitt when the Bluegrass Region Policy Group visits DC in July. I wanted to connect you with Sydney Hupp, who handles scheduling requests for the Administrator. She's your best contact for facilitating this request.

Please let our office know if you need anything else while you're in town. Hope all is well!

Best,

Katelyn

Sydney – the Governor would like to discuss CERCLA 108(b) hard rock mining regulations, a local mine that we've been working with EPA Region 9 on (to avoid Superfund) and funding for the EPA delegated programs for air and water.

On the logistical side, we will have a Virginia State Police officer driving us, but I've told him that we don't need him to accompany us in the building. However, would it be possible to have a space for him to park while he waits for us? Could you let me know the best place to enter, etc?

Thanks!

It's tight. The Governor is meeting with Secretary Perry at 10am, and then with the Attorney General was shifted to 11:15, so it makes it pretty difficult. The Governor would be available in the morning as well – could accommodate a breakfast meeting or anything up to a 9am meeting. We could also try to do a late meeting on the 25th, he lands at 330pm, so we could try to make a 5p or 6p meeting work, too.

Appreciate anything you can do to help make this work! Copying Troy, who I discussed this with earlier today as well.

Good morning,

North Dakota Agriculture Commissioner Doug Goehring will be traveling to D.C., May 16th, 17th and the morning of the 18th, and would like to schedule 30 minutes of time to meet with Administrator Pruitt. Below are times windows he currently has available that would work for his schedule. Please let me know at your earliest convenience if a meeting will be possible, and what time frame will work best for a 30 minute meeting with the Administrator.

Tuesday, May 16

8 a.m.-2:45 p.m.

4:30 p.m.-5 p.m.

Wednesday, May 17

8 a.m.-8:30 a.m.

10:30 a.m.-11:15 a.m.

2 p.m.-5 p.m.

Thursday, May 18

8 a.m.-9:45 a.m.

11:30 a.m.-12 p.m.

Thanks again and please feel free to contact me with any questions.

Sydney: Below and attached please find the info on the American Foundry Society Fly-in as you requested last week.

I may call you about those items I sent you last week to follow up as well.

As always, please let me know if you have any questions.

Respectfully, A.J. Ferate

Please see attached our agenda for the Fly-In in June. Should Administrator Pruitt be available Tuesday morning June 20, we would slot the "Changes at EPA on Regulations - What Does it Mean for the Metalcasting Industry?" in at either 10:15 am or 11:00 am in place of one of those panels. If the Administrator cannot join us – we would be delighted to have Samantha for the 7:30 am Breakfast Session keynote slot on June 21. You can see from the agenda what the other topics are of interest to our members and the caliber of speakers we have lined up so far.

As we have discussed, the American Foundry Society represents the U.S. metalcasting industry – the sixth-largest industry sector in America and the second largest supplier of castings in the world, after China. Metal castings are integral to virtually all U.S. manufacturing activities – especially national defense, energy and infrastructure. In the U.S., castings are used to produce 90% of all manufactured durable goods and nearly all manufacturing machinery.

The American metalcasting industry provides employment for over 200,000 men and women directly and supports thousands of other jobs indirectly. Our energy-intensive, trade-exposed industry supports a payroll of more than $9 billion and sales of more than $30.3 billion annually. Metalcasting plants are found in every state, and the industry is made of predominately small businesses, with 80% of domestic metalcasters having fewer than 100 employees.

Foundries are the mainstay of national defense. All sectors of the U.S. military are reliant on metal castings for jet fighters, ships, tanks, trucks, weapon systems and other vital operations. In fact, the U.S. Department of Defense has established formal programs to convert fabricated components to single-piece castings, improving our military's ability to cost-effectively produce such equipment in the least amount of time.

Metalcasting is one of the most energy-intensive industries in the U.S. Approximately 55% of its energy costs are consumed in melting. Mold making, core making, heat treatment, and post-cast operations also use significant energy. As such, the sector has been particularly hard hit by the regulatory overreach from EPA over the last eight years.

The American Foundry Society (AFS) is the major trade and technical association for the North American metalcasting industry. The association has more than 8,000 members representing over 2,000 metalcasting firms, their suppliers and customers. We will have about 150 owners, CEOs and executives in Washington for the Fly-In over those two days. Energy and enthusiasm among the attendees will be very high with the new Administration in place in Washington.

Thanks again for your help Stuart.

Best.

Subject: Two AF&PA Meeting Requests

Dear Amy Dewey,

As we discussed, AF&PA has requested two meetings with EPA. The first is a request for AF&PA's President and CEO and several of our member CEOs to meet with Administrator Pruitt on May 4th (see attached meeting request). To assist with scheduling that meeting, I have copied Sydney Hupp and Michelle Hale, as you suggested. I appreciate any help you can provide on scheduling this meeting.

The second is request for AF&PA staff to meet with Mandy Gunasekara and other key EPA staff to discuss our comments filed in response to the Department of Commerce Request for Information and to prepare for the meeting with Administrator Pruitt (see meeting request below). It is my understanding that Ms. Gunasekara has already facilitated the scheduling of that meeting. Thanks again for all your help.

Dear Amy Graham,

Thank you for your recent introductory message. We look forward to working with you on these and other issues. Jerry Schwartz

From: Noe, Paul

Subject: Meeting Request

Dear Ms. Gunasekara:

We are writing to request a meeting with you and your colleagues to discuss a number of EPA regulations and permit requirements that we have identified as adversely affecting our member's manufacturing operations. On March 31, AF&PA filed comments

in response to the Department of Commerce's Request for Information pursuant to the President's January 24 directive, and our comments discuss problems and proposed solutions related to 77 distinct rules and permit issues impeding U.S. manufacturing. Most of the comments focus on EPA issues.

AF&PA President and CEO Donna Harman has requested a meeting with Administrator Pruitt on behalf of several of our CEOs on May 4th, and we believe that meeting with you and other key EPA staff in advance of that meeting would enable the Administrator to be well-briefed and ensure the meeting is as productive as possible. As the issues we would like to discuss span a number of EPA offices, we have copied several of your colleagues on this message. We will facilitate your busy schedule, but the dates of April 18-21 look good for us.

Top priority issues we would like to discuss include:

1. Carbon Neutrality of Biomass

2. Air Permit Gridlock

3. Human Health Water Quality Criteria

4. EPA Procurement Guidelines for Paper and Paper Products Containing Recovered Materials/Specifications, Labels and Standards

AF&PA represents U.S. manufacturers of pulp, paper, packaging, tissue and wood products. Our industry employs 900,000 hard working men and women, and our mills often are located in small, rural communities that need good-paying jobs. The U.S. forest products industry is very heavily regulated, but at the same time also must operate efficiently in a fiercely competitive global market.

We look forward to hearing from you soon and to discussing these important issues. Thank you for your consideration.

Best regards,

Paul Noe

Subject: Request; Reschedule meeting with Administrator Pruitt and RJ Kirk of Intrexon

Dear Sydney and Michelle,

On behalf of Roy Bailey I am writing to you to reschedule the meeting with Administrator Pruitt for this week. The Administrator and Mr. Bailey spoke recently and discussed this request. Mr. Kirk just happens to be in the East this week and wondered if the Administrator would be open to meet with Mr. Kirk and Mr. Bailey on the morning of the 17th or 18th. Mr. Kirk needs to be in New York City the afternoon of the 17th. That is why we choose those dates. Please let us know if either Wednesday or Thursday morning will work or what you might have to offer.

I look forward to hearing from you soon so, we may make plans.

Sincerely,

Gay

To: Ryan Jackson <jackson.ryan@epa.gov>
Cc: Luke Holland <Luke_Holland@inhofe.senate.gov>
Subject: Intrexon/Oxitec

Ryan;

Hope you are well. Congratulations on the appointment. I am happy for you and happy for the Country.

My firm is working with Intrexon (Oxitec) on several issues but most notably their genetically modified mosquito which has great relevance to the Zika crisis. We have been working with Luke Holland in Sen. Inhofe's office in regard to requesting an opportunity for the Intrexon, CEO RJ Kirk, to meet with the Administrator. I am not sure of the status of that request. I am copying Luke (who has been terrific) in order to coordinate. Below are the dates that would work for Mr. Kirk.

Dates that work:

April 12, 13, 14, 17, 18, 19 (NOTE: On the 18th, the meeting would have to conclude by 230 pm.)

April 24-28 (NOTE: April 24-28, as of now these dates work, but there could be some potential conflicts.)

May 3, 4, 5 (NOTE: May 5, the meeting would have to be early morning: 8 to 10 am (10 am hard stop))

Most ideal dates b/ RJ will be in DC:

Late afternoon on May 9

Until 1 pm hard stop on May 10

All day until 3:30 PM hard stop on May 11

All day on May 12

On a separate track, I have been working with John Tegeris (OS/ASPR/BARDA) at HHS on organizing an interagency meeting to discuss how we can properly move this technology to field trials in a timely manner. John is tasked with heading up the Tech Watch program. So, I know

EPA will be a key player in this planned meeting and I wanted you to be aware.

All the best in your new adventure. Sen. Inhofe misses you but told me he is very glad you are there.

Best-

Tim

Subject: Letter of Invitation: Australian American Leadership Dialogue, Gold Coast, Australia, 3-5 August 2017.

Dear Administrator Pruitt

Please find attached a letter of invitation from the Co-Chairs of the Australian American Leadership Dialogue, and former Australian Deputy Prime Ministers, Kim Beazley and Mark Vaile, inviting you to participate in the Leadership Dialogue's 25th Anniversary Forum to be held on the Gold Coast, Australia, from 3-5 August 2017.

The Leadership Dialogue is a private diplomatic initiative, which brings together Australian and American leaders from government, enterprise, media, education and the community to help review and refine the parameters of the bilateral relationship. The mission is to broaden and deepen mutual understanding between our nations and to enhance the framework for regional security in a manner that underwrites economic and cultural prosperity for our citizens. The Leadership Dialogue came out of initial discussions during the January 1992 official visit to Australia by President George HW Bush, and subsequently carried the imprimatur of President Clinton following his election in December 1992.

The Forum on the Gold Coast will begin on Thursday, August 3, with an evening Welcome Reception, followed by a number of "nightcaps" on key topical issues. The main program will continue on Friday, August 4, and Saturday, August 5, and will consist of Leadership Dialogue sessions (completely off the record), Australian and American political briefing lunches and a formal dinner on the Saturday evening. Key themes will include: national security; geo-economics and trade; cyber security; innovation and entrepreneurship; energy; and the environment.

We would be delighted to have you participate in our 25th Anniversary Forum.

For your background, I have attached and provided below some additional information on the Leadership Dialogue. Please have your staff contact me should they require anything further.

Kind regards,

David Jessup

Some further background to the Australian American Leadership Dialogue

- **The Leadership Dialogue has been publicly described as "the most significant exercise in private diplomacy ever undertaken in Australian history"**

- **The bipartisan Leadership Dialogue is the only non-USA initiated NGO to have ever been invited into the White House for private briefings—three times under President George W Bush, and twice under President Obama—2012 and 2014.**

- **Australian participants at the annual Leadership Dialogue have included Prime Ministers Paul Keating, John Howard, Kevin Rudd, Julia Gillard, Tony Abbott and Malcolm Turnbull plus successive Leaders of the Opposition from 1993 through to Bill Shorten today.**

- **Inter alia the Leadership Dialogue has been a facilitator of the successful FTA negotiations culminating in the FTA effective January 1, 2005.**

- **Our board includes former US Ambassador to Australia Hon Jeffrey Bleich**

- **Our board co-chairmen are former Australian Deputy Prime Minister Mark Vaile (who successfully negotiated the FTA with the USA) and most recent Australian Ambassador to the United States, Hon Kim Beazley—another former Deputy Prime Minister as well as Minister for Defence.**

- **Vice President Joe Biden has twice hosted a bipartisan group of Leadership Dialogue delegates at his residence.**

- **The 2012 photo at the residence of US Vice President Joe Biden (attached) depicts the bipartisan nature of the Leadership Dialogue: Ambassador Bleich, Vice**

President Biden, Ambassador Beazley (hidden), Bruce Reed (a founding member of the Leadership Dialogue since 1993), Phil Scanlan, former PM Kevin Rudd, current Leader of the Opposition Bill Shorten, Foreign Minister Julie Bishop, former PM Tony Abbott and former Trade Minister Craig Emerson.

- **The formal Leadership Dialogue sessions have around 80 delegates (political, government, industry and academic leaders from both the US and Australia). A moderator leads the discussion but it is very much designed as a free flowing discussion with participants contributing from the floor. There are no formal set piece presentations and everything is off the record.**

Thank you, Sydney. Given that we have such a large group flying in to attend, is there any way we could extend the meeting to an hour (ideally) or 45 minutes?

Thank you,
Marissa

Hi Sydney,

For planning purposes, how long will we have with the Administrator at our meeting next week?

I've also attached a final list of the attendees here.

Thank you,
Marissa

My name is Cheryl Woodward and I will assist you in the logistics for your meeting at EPA on Wednesday, April 26th. The instructions/directions to EPA is below and if you have any questions please contact me. Look forward to seeing you all.

Directions

Directions: If you come by Metro, the Federal Triangle metro stop is directly below the building entrances. You would leave the metro station and go up all three sets of escalators and then do a small U-Turn to the right heading toward 12th street, the North Lobby entrance is directly and immediately to your left (Glass Doors -EPA Signified on Glass).

EPA address is 1200 Pennsylvania Avenue, NW. If you are coming by taxi/vehicle, you want to be dropped off on 12th NW, which is between 12th and Constitution Avenues. It is almost exactly half way between the two avenues on 12th street and the Federal Triangle Metro sign can be used as a landmark. From 12th Street, facing the building with the EPA and American flags, walk toward the building (under the flags) and take the glass door on your left hand side with the escalators going down to the metro on your left. This again will be the South Lobby of the William Jefferson Clinton building.

Once inside the building, security will prompt you to scan all items such as bags, coats etc., and then let the guards know that you were instructed to call Cheryl Woodward at 564-1274 or Michelle Hale at 564-1430 to escort you to the meeting with the Administrator. Security will make temporary cards for everyone. Allow for 15 minutes to get through the process.

Hi Sydney-

Hope this note finds you well. Duke Energy's CEO, Lynn Good, met with Administrator Pruitt at CERAWeek back in March. They had a great discussion, and we wanted to schedule a follow-up call to go into more detail on some of the issues raised.

Would either May 18 or May 22 sometime between 2:30 and 5 pm work? I think 15-30 minutes for the phone call would be sufficient.

Thanks, Venu

Subject: Contura Energy Scheduling Request for Administrator Pruitt

Sydney,

I am reaching out with the hopes of scheduling a meeting with Administrator Pruitt for Kevin Crutchfield, our CEO, on either May 3-4th. For you background, Contura Energy is one of the country's largest coal companies with affiliate mining operations across multiple major coal basins in Pennsylvania, Virginia, West Virginia and Wyoming. You can find some additional information on Kevin in the attached bio.

He will be arriving in D.C. that morning, so any time after 10:30 AM on Wednesday should work. He is currently planning on flying out the afternoon of May 4, so morning would be preferable on Thursday.

While Kevin has met Scott in the past, the topics of this visit would be somewhat introductory, but also include a conversation about the current and future challenges facing both the domestic production and use of coal.

Any help you can provide in securing time with the Administrator would be greatly beneficial.

Thanks in advance for the consideration,

Jay

Sydney,

I just wanted to follow up regarding the outstanding scheduling request found below in hopes that you can help facilitate some time for Contura Energy's CEO, Kevin Crutchfield.

Your help is appreciated.

Thanks again,

Jay

Subject: Contura Energy Scheduling Request for Administrator Pruitt

Sydney,

I am reaching out with the hopes of scheduling a meeting with Administrator Pruitt for Kevin Crutchfield, our CEO, on either May 3-4th. For you background, Contura Energy is one of the country's largest coal companies with affiliate mining operations across multiple major coal basins in Pennsylvania, Virginia, West Virginia and Wyoming. You can find some additional information on Kevin in the attached bio.

He will be arriving in D.C. that morning, so any time after 10:30 AM on Wednesday should work. He is currently planning on flying out the afternoon of May 4, so morning would be preferable on Thursday.

While Kevin has met Scott in the past, the topics of this visit would be somewhat introductory, but also include a conversation about the current and future challenges facing both the domestic

production and use of coal.

Any help you can provide in securing time with the Administrator would be greatly beneficial.

Thanks in advance for the consideration,

Jay

Subject: Cement Association MAY Meeting/Keynote Request

Hi Michelle,

I am sure you are super busy, but I wanted to reach out to you because the Portland Cement Association is hosting our annual Washington, D.C. Fly-In on **May 9th and 10th**. PCA represents 92 percent of U.S. cement production capacity and have facilities in all 50 states. Cement and concrete product manufacturing directly or indirectly employs approximately 500,000 people in our country, and our collective industries contribute approximately $100 billion to our economy. The D.C. Fly-In is attended by CEO's and senior company executives. This year we will also invited other concrete trade associations to participate as well.

PCA would be honored to have Administrator Pruitt as our keynote speaker on **Tuesday, May 9th** anytime from **6pm** on at our opening dinner at the 101 Constitution Roof Terrace. Administrator Pruitt is welcome to join us for dinner, or just come to speak, whatever is best for your schedule. Attached is an invitation with additional details. Should this time not accommodate your schedule we also welcome the Administrator at our breakfast on **Wednesday, May 10th** at the Washington Marriott at Metro Center anytime from 7:00am to 10:00am. Additionally, Cement CEO's would be able to come for a meeting on Tuesday, May 9th at 4pm.

Happy to answer any additional questions or concerns via email or phone: 202-679-8223. If you could let us know no later than April 26th that would be very helpful. Thank

you again and enjoy the spring weather!

All My Best,

Rachel Derby

Vice President of Government Affairs

Portland Cement Association

Subject: The First 100 Days of the Trump Administration | May 3, 2017 | Speaker Invitation

Mike

It has been a long time. Keri Norris, Jeff Bell, and I were together in DC two weeks ago, and we were talking about you and our meeting with you and Harlan way back when, which led to our great victory at the FTC. I am sure your ears were ringing.

I am writing at Keri's suggestion to see if you might be able to help secure EPA Chairman Scott Pruitt's participation at an event we are hosting on the first 100 days of the Trump Administration. (See below) The event is scheduled for Wednesday, May 3, 2017, at

the Watergate Hotel in Washington, D.C. and we would like to feature Chairman Pruitt as a keynote speaker. Keri will be attending, as well as one or two other Legal Shield reps. I am hoping that you might be able to make it too.

The program will provide an overview of the President's early governing priorities as well as sessions on energy, infrastructure, consumer protection, communications, international trade, cybersecurity, government contracts, and other important areas of change. We are expecting 200-300 attendees from major U.S. corporations to attend. Confirmed speakers include CPSC Acting Chair Ann Marie Buerkle, Utah Attorney General Sean Reyes (who is being considered for the Federal Trade Commission Chairmanship), and Congressman Garret Graves. Other high-level agency, congressional, and administration speakers have been invited and are expected to commit in the coming days.

This event will offer speakers:

- An opportunity to highlight the administration's accomplishments from the first 100 days and lay out the agenda for the rest of the year.

- A large audience of thought leaders from a diverse list of companies, organizations, and communities, such as Baker Hughes, BP, Caterpillar, Chevron, ExxonMobil, Halliburton, Daimler, Dell, Keystone Consolidated Industries, JPMorgan Chase, Mars, Nestle, Samsung, Shell, Sprint, Steel Manufacturers Association, U.S. Chamber of Commerce, U.S. Steel Corporation, Verizon, and many others

- A platform to help contribute to the news

cycle on a day that will receive concentrated media focus at the premier program commemorating the 100th day in D.C. and build relationships with other senior administration officials and Members of Congress, as well as the business and legal community

If it is helpful, we can provide you with a list of expected attendees prior to the event.

We really would like to have Chairman Pruitt on the program, and one of my partners (Joseph Corrigan) has reached out to his office as well. Any help you can provide to secure his participation would be much appreciated and I will owe you one. If you need more information or just want to catch up, give me a call. 202.409.9433.

Subject: State Policy Network - Speaking request

Attached is the completed form requesting Secretary Pruitt to join our monthly State Energy / Environmental Policy Call. To expand the call to other key parties in the states, I can invite ALEC and RGA to participate. Our three organizations have been on a lot of policy related calls (healthcare and tax reform) together lately.

Background on this call:

We kicked off this call in December of 2015 with the goal of getting as many states as possible to submit requests to EPA for two-year state plan extensions, but after the SCOTUS stay the call transitioned into getting as many states to stop working on a plan. During session our weekly war

room calls quickly became the go-to source for state action and info sharing. We not only have state and national think tank policy experts engaged, but also private industry and attorneys associated with state AG offices. We also deal with RPS mandates, carbon tax and messaging proactive free market solutions. The call is now on a monthly basis and would benefit greatly from receiving a first-hand update on changes we will see at the EPA, plus what support the agency needs during this transition.

Look forward to discussing this request. Thank you for your consideration.

Subject: Re: scheduling issue

Hello Sydney !

Yes, I was wanting to set up a meeting with Mr. Ryan Jackson to discuss national emergency response issues that impact the U.S. EPA. I would like to bring two colleagues from Oklahoma that are experts about the EPA emergency response program to the meeting. We would like to propose a requested transition of an EPA asset back from where it originated which is the Department of Defense. We expect this will reduce costs for the EPA.

At any point, we would like to discuss a proposal to reduce the current costs of operation to the EPA.

I am originally from Yukon, Oklahoma and a Ph.D. graduate in physical chemistry from Oklahoma State University. I am one of the leading scientists in the country in the technical area of chemical and radiological emergency response technology with over 100 scientific publications and scientific lectures at numerous invited national and international scientific conferences. I have attached a short bio of my experience and a photo.

We would only need about 30-45 minutes with Mr. Jackson to discuss the issues related to the EPA and emergency response. We would be pleased to answer any questions that Mr. Jackson would want to ask about this technology area and the state of the Nation's chemical and radiological emergency response capabilities.

Thanks so much !

Mike

Sorry to pester you about the Administrator Pruitt invite. I wanted to let you know that we can offer him the featured speaker slot (keynote) -- first speaker of the day. Again, thank you for your help in trying to lock this down. We now have more than 200 registered and are expecting 300. I believe it presents a great opportunity for the EPA Administrator.

Here is the latest list of companies that will be in attendance:

Sydney

We will get this filled out and back to you by tomorrow.

We would like to do the meeting in the next couple of weeks and we can also offer to meet Mr. Pruitt outside of DC if you all are traveling the country. While the executive team for Republic is based in Phoenix we can get to anywhere.

Should we just outline that in the attachment?

Thanks.

Ryan

Hope you are well.

I wanted to email you to request a meeting with Administrator Pruitt with the CEO of Republic Services, Dan Slager. As you know Republic Services is the second largest waste company in the country.

Purpose of the meeting will be to update Mr. Pruitt on the issues we are dealing with at Republic and the issues surrounding the West Lake Landfill in Missouri.

I am happy to work with your staff to set up a meeting in the coming weeks or month.

Thanks and let me know what else you need from us.

Subject: Meeting with Administrator Pruitt

I would like to arrange a meeting with Administrator Pruitt to introduce him to NSSGA. NSSGA represents the aggregates industry, which provides the raw material in asphalt, concrete and cement used in nearly every construction or infrastructure project and employs over 100,000 in the U.S. We are very encouraged about the direction of EPA under Administrator Pruitt and would like to discuss our industry's unique issues, including air and water issues such as WOTUS and Conductivity. Please let me know if I can provide any additional information. We would like an in person meeting with our President and CEO, Michael Johnson, Senior Vice President, Government and Regulatory Affairs Laura O'Neill-Kaumo, myself and Administrator Pruitt. We realize this is a very busy time for the Administrator, but would greatly appreciate a short meeting to discuss our industry's issues.

HI Sydney,

Our best open windows for bringing the egg producers to meet with Administrator Pruitt are as follows:

Wednesday, May 17

3:00 pm - 5:00 pm

Thursday, May 18

9:00 am - 11:00 am

Can we find something in these windows that works or do we need to look for others?

Best!

Thanks so much for your reply Sydney. We certainly understand. As an alternative, would it be possible for 3 to 5 grower leaders in at some point to meet the Administrator over that period? These would be the people responsible for some of the largest egg producing operations in the country with multiple farm sites and more than 50 million laying hens under production.

Best!

Subject: Invitation to Administrator Pruitt to Offer a Keynote Address to the Nation's Egg Producers in DC on May 17, 18 or 19, 2017

Dear Ms. Hupp,

I hope you are well and settling in nicely at EPA.

Please see attached a letter inviting the Administrator to offer a keynote address to the nation's

egg producers at a meeting being held by United Egg Producers (UEP) here in Washington, D.C. on May 17, 18 or 19, 2017. Details are included in the letter.

UEP's farmer members raise hens that produce about 95% of the nation's eggs, and most of that egg production will be accounted for by the 150 or so egg producers in the audience listening to Administrator Pruitt's address should he decide to do this. These producers and UEP have been at the forefront of several US EPA rulemakings and policies that are central to how farmers operate today; Clean Water Act matters involving the Concentrated Animal Feeding Operations (CAFO) rule, WOTUS rule and the Chesapeake Bay TMDL as well as Clean Air Act and CERCLA/EPRCA matters as they relate to ammonia and other air emissions. These are tremendously important issues that relate directly to how egg producers can continue to proudly meet their environmental responsibilities and the growing demand for eggs, and in general make their contribution to the nation's safe, wholesome and abundant food supply.

These farmers would appreciate hearing about Administrator Pruitt's plans for US EPA's environmental programs so they can better understand how they could contribute to the success of his efforts and what these plans might mean for their farms and businesses.

Please let me know if you have any questions or if the Administrator can accept this invitation. Thank you in advance for your consideration of this request.

Best!

Tom Hebert

To: Hupp, Sydney <hupp.sydney@epa.gov>
Subject: Meeting with Administrator Pruitt

I would like to arrange a meeting with Administrator Pruitt to introduce him to NSSGA. NSSGA represents the aggregates industry, which provides the raw material in asphalt, concrete and cement used in nearly every construction or infrastructure project and employs over 100,000 in the U.S. We are very encouraged about the direction of EPA under Administrator Pruitt and would like to discuss our industry's unique issues, including air and water issues such as WOTUS and Conductivity. Please let me know if I can provide any additional information. We would like an in person meeting with our President and CEO, Michael Johnson, Senior Vice President, Government and Regulatory Affairs Laura O'Neill-Kaumo, myself and Administrator Pruitt. We realize this is a very busy time for the Administrator, but would greatly appreciate a

short meeting to discuss our industry's issues.

Hi Kristin,

Hope you're well! Touching base on the Gov call proposed on April 17th at 1PM CST. The Administrator is set to be traveling that day but I am trying to work out logistically finding a way for him to call in and participate on the road. Is it okay if I reach back to you on this tomorrow afternoon?

Thank you!

Hey Emily,

Apologies for the delay in getting back with you! Unfortunately the Administrator is not able to attend. So sorry it took us awhile and please please let Mr. Nash know that we are grateful for his kind invitation. Hopefully they are able to connect again soon.

Have a great weekend!

Hi Sydney,

I think there is slight confusion. We are not inviting Administrator Pruitt to speak, which the form suggests otherwise. My message was just to let you all know that The Burton Awards would be sending an invitation for him to attend as a **guest**, and if he does attend that Bernie would like to invite him to sit at his table. Administrator Pruitt spoke a few years back at this event, so he should be familiar with it.

Please let me know if you still need me to fill out the form, though.

Thank you,

Emily

On Apr 7, 2017, at 4:50 PM, Lundahl, Emily <ELundahl@cozen.com> wrote:

Hi Millan,

Hope you are well. Bernie wanted me to let you know that Administrator Pruitt will be receiving an invitation to the Burton Awards from Bill Burton. You may recall that the Administrator spoke at one of the luncheons a few years ago in his AG capacity. The Burton Awards will take place on Monday, May 22. If he is able to attend, Bernie would like to invite him to sit at his table with Lori Kalani and Senator Luther Strange who has said he would be attending. Administrator Pruitt's wife or a staff member is also invited.

Let me know if you have any questions.

Thank you,

Emily

Sydney & Aaron,

Sorry for the slow reply, I was on the Hill most of the day.

For the week of the 15th, there's several open dates: May 15, 18, and 19. I'd recommend against Friday the 19th, as it's harder to draw audiences at the end of

a Friday.

Those three dates work for events in the late afternoon, early evening. If you'd like to do morning or midday, let me know, and I'll get more dates.

Best,

Adam

Dear Sydney,

Thanks again for considering the Hoover Institution's invitation. In the meantime, the American Bar Association would like to invite a member of Administrator Pruitt's team to participate in a panel discussion at an upcoming conference in DC, on May 19. It would be a panel discussion on federalism and federal policy.

Is there a form that the ABA should complete and submit?

(I'm the middleman on this because I happen to serve on this ABA committee, which asked me to submit and invitation.)

Subject: RE: Request for meeting next week with Administrator Pruitt with CEO of Syngenta

Hi Sydney,

Thanks again for your help. This is a brief high-level introduction to the new CEO. Erik would like to provide Administrator Pruitt with an overview of the vision of Syngenta. With its size, scope and global role in agriculture and biodiversity, Eric would like to discuss some of the new innovative products and seed treatments that are tools for the American farmer.

Should it be useful to you and Administrator Pruitt, we are providing some brief background below.

Background on Syngenta and Erik Fyrwald, CEO

Syngenta is one of the world's largest providers of products to help farmers achieve sustainable crop and food security. Syngenta operates in 90 countries with nearly 30,000 employees and generates nearly $13 B in annual sales. Erik Fyrwald is the CEO of Syngenta, a position he has held since June 1, 2016. Previously, he served as President and CEO of Univar, a world leader in the distribution of chemistry related products and services, as well as Nalco Holding Co., a leading global provider of water treatment and oil and gas products and services. Additionally, Mr. Fyrwald spent 27 years at DuPont, where he held positions relating to technology, manufacturing, sales and marketing, strategic planning, and management. He also serves on the Board of Directors of Eli Lilly & Company and the Society of Chemical Industry. Mr. Fyrwald holds degrees from the University of Delaware and the Harvard School of Business.

Hi Sydney,

Thank you for your email. To answer your question, Mr. Fyrwald is coming from Basel, Switzerland and therefore is not in the DC area very much. Do you think there would be any way to squeeze in even a brief meeting with Administrator Pruitt on either Monday or Tuesday?

Sarah

Subject: Request for meeting next week with Administrator Pruitt with CEO of Syngenta

Hi Holly and Kenneth,

It was lovely to meet you last week with the Greater Phoenix Economic Council (GPEC). You both and Administrator Pruitt were very helpful. On a separate topic, this is a request for a brief meeting for Monday or Tuesday with Administrator Pruitt with the CEO of Syngenta, Erik Fyrwald, who will be in Washington, D.C. at that time. As you may know, Syngenta is one of the world's largest providers of products to help farmers achieve sustainable crop and food security. Syngenta operates in 90 countries with nearly 30,000 employees and generates nearly $13 B in annual sales. We are providing additional background on Erik below.

Background on Erik Fyrwald, CEO, Syngenta

Erik Fyrwald is the CEO of Syngenta, a position he has held since June 1, 2016. Previously, he served as President and CEO of Univar, a world leader in the distribution of chemistry related products and services, as well as Nalco Holding Co., a leading global provider of water treatment and oil and gas products and services. Additionally, Mr. Fyrwald spent 27 years at DuPont, where he held positions relating to technology, manufacturing, sales and marketing, strategic planning, and management. He also serves on the Board of Directors of Eli Lilly & Company and the Society of Chemical Industry. Mr. Fyrwald holds degrees from the University of Delaware and the Harvard School of Business.

Can you please let us know if a brief meeting would be possible with Administrator Pruitt on Monday or Tuesday?

Thank you,
Sarah

Subject: Two AF&PA Meeting Requests

Dear Amy Dewey,

As we discussed, AF&PA has requested two meetings with EPA. The first is a request for AF&PA's President and CEO and several of our member CEOs to meet with Administrator Pruitt on May 4th (see attached meeting request). To assist with scheduling that meeting, I have copied Sydney Hupp and Michelle Hale, as you suggested. I appreciate any help you can provide on scheduling this meeting.

The second is request for AF&PA staff to meet with Mandy Gunasekara and other key EPA staff to discuss our comments filed in response to the Department of Commerce Request for Information and to prepare for the meeting with Administrator Pruitt (see meeting request below). It is my understanding that Ms. Gunasekara has already facilitated the scheduling of that meeting. Thanks again for all your help.

Dear Amy Graham,

Thank you for your recent introductory message. We look forward to working with you on these and other issues. Jerry Schwartz

From: Noe, Paul
Sent: Tuesday, April 4, 2017 5:33 PM
To: Mandy Gunasekara (Gunasekara.Mandy@Epa.gov) <Gunasekara.Mandy@Epa.gov>
Cc: Bhandaram, Sundara <Sundara_Bhandaram@afandpa.org>; Samantha Dravis (Dravis.Samantha@Epa.gov) <Dravis.Samantha@Epa.gov>; Sarah Greenwalt (Greenwalt.Sarah@Epa.gov) <Greenwalt.Sarah@Epa.gov>; George Sugiyama (Sugiyama.George@Epa.gov) <Sugiyama.George@Epa.gov>; Ryan Jackson (Jackson.Ryan@Epa.gov) <Jackson.Ryan@Epa.gov>
Subject: Meeting Request

Dear Ms. Gunasekara:

We are writing to request a meeting with you and your colleagues to discuss a number of EPA regulations and permit requirements that we have identified as adversely affecting our member's manufacturing operations. On March 31, AF&PA filed comments in response to the Department of Commerce's Request for Information pursuant to the President's January 24 directive, and our comments discuss problems and proposed solutions related to 77 distinct rules and permit issues impeding U.S. manufacturing. Most of the comments focus on EPA issues.

AF&PA President and CEO Donna Harman has requested a meeting with Administrator

Pruitt on behalf of several of our CEOs on May 4th, and we believe that meeting with you and other key EPA staff in advance of that meeting would enable the Administrator to be well-briefed and ensure the meeting is as productive as possible. As the issues we would like to discuss span a number of EPA offices, we have copied several of your colleagues on this message. We will facilitate your busy schedule, but the dates of April 18-21 look good for us.

Top priority issues we would like to discuss include:

1. Carbon Neutrality of Biomass

2. Air Permit Gridlock

3. Human Health Water Quality Criteria

4. EPA Procurement Guidelines for Paper and Paper Products Containing Recovered Materials/Specifications, Labels and Standards

AF&PA represents U.S. manufacturers of pulp, paper, packaging, tissue and wood products. Our industry employs 900,000 hard working men and women, and our mills often are located in small, rural communities that need good-paying jobs. The U.S. forest products industry is very heavily regulated, but at the same time also must operate efficiently in a fiercely competitive global market.

We look forward to hearing from you soon and to discussing these important issues. Thank you for your consideration.

Best regards,

Paul Noe

Sydney,

Hope you're having a good Friday, I needed to make a couple changes to our list of attendees. Secretary Perdue ended up only having the 9:30 slot on Tuesday to meet with the rest of our group, so I needed to pull our CEO into that meeting but have replaced with our Senior Exec VP. Here is the updated list.

Matt McInerney, Senior Executive Vice President, Western Growers

Carol Chandler, Chandler Farms LP, Selma, CA

Ron Ratto, Ratto Bros., Inc., Modesto, CA

Craig Reade, Bonipak Produce, Inc. Santa Maria, CA

Stephen F. Patricio, Westside Produce, Firebaugh, California

George Adam, Innovative Produce, Santa Maria, CA

Robert Sakata, Sakata Farms, Brighton, CO

Hank Giclas, Executive Vice President, Western Growers

Ken Barbic, Senior Director, Western Growers

Thanks and let me know if you need anything else from me in advance of Tuesday's meeting ,

Ken

Subject: RE: Western Growers Meeting Request

My name is Cheryl Woodward and I will assist you in the logistics for your meeting at EPA on Tuesday, May 16th at 9:30 am. The instructions/directions to EPA is below and if you have any questions please contact me. Look forward to seeing you all.

Directions: If you come by Metro, the Federal Triangle metro stop is directly below the building entrances. You would leave the metro station and go up all three sets of escalators from the train otherwise two escalators then do a small U-Turn to the right heading toward 12th street, the South Lobby entrance is directly and immediately to your right (Glass Doors -EPA Signified

on Glass).

EPA address is 1200 Pennsylvania Avenue, NW. If you are coming by taxi/vehicle, you want to be dropped off on 12th NW, which is between 12th and Constitution Avenues. It is almost exactly half way between the two avenues on 12th street with Federal Triangle Metro sign and Trump Hotel Towers side entrance can be used as a landmark. From 12th Street, facing the building with the EPA and American flags, walk toward the building (under the flags) and take the glass door on your left hand side with the escalators going down to the metro on your left. This again will be the **South Lobby of the William Jefferson Clinton building.**

Once inside the building, security will prompt you to scan all items such as bags, coats etc., and then let the guards know that you were instructed to call Cheryl Woodward at 564-1274 or Michelle Hale at 564-1430 to escort you to the meeting with the Administrator. Security will make temporary cards for everyone. Allow for 15 minutes to get through the process.

Dear Sydney,

Attached is a meeting request letter from Western Growers CEO, Tom Nassif. Our board of directors will be in DC the week of May 15th, and would appreciate the opportunity to meet with Administrator Pruitt.

As an aside, I'm good friends with Luke Holland, and got your contact information from him, if there is someone else that this request should go through additionally please advise or pass along as appropriate.

Thanks again, let me know if you need any additional information to process this request, and I look forward to hearing back.

Best,

Ken

Ryan, Byron, and Sydney, I am looping-back just to make sure that this invitation has gotten into the right hands for Administrator Pruitt's consideration. The meeting request with Administrator Pruitt is for anytime on Wednesday, May 3, before 3:00. The meeting attendees would include the Board Executive Committee of the Southern Crop Production Association.

I remain available at your convenience to discuss in greater detail.

Thank you for your consideration.

Beau.

Hi Ryan, Byron and Sydney. I have the pleasure of getting to work with Rebeckah in government relations at CropLife America. I look forward to getting to know you better and developing a working relationship.

Rebeckah has forwarded an invitation (attached) from the Southern Crop Production Association (SCPA) inviting Administrator Pruitt to visit with their membership during their annual DC fly-in on May 3. I sincerely hope that the Administrator has some time in his schedule to accept this invitation.

I remain available to discuss this meeting request at your convenience.

Regards, Beau.

Subject: Meeting with Administrator Pruitt

I would like to arrange a meeting with Administrator Pruitt to introduce him to NSSGA. NSSGA represents the aggregates industry, which provides the raw material in asphalt, concrete and cement used in nearly every construction or infrastructure project and employs over 100,000 in the U.S. We are very encouraged about the direction of EPA under Administrator Pruitt and would like to discuss our industry's unique issues, including air and water issues such as WOTUS and Conductivity. Please let me know if I can provide any additional information. We would like an in person meeting with our President and CEO, Michael Johnson, Senior Vice President, Government and Regulatory Affairs Laura O'Neill-Kaumo, myself and Administrator Pruitt. We realize this is a very busy time for the Administrator, but would greatly appreciate a short meeting to discuss our industry's issues.

Hi Sydney, I hope things are well with you too! The first meeting is just with Chet Thompson, AFPM's president. We're based in D.C. so his schedule is pretty flexible. I've copied Rebbie Riley, Chet's EA, to help with scheduling.

The second request is for AFPM's executives for the afternoon of June 15th. They'll be flying into town for a series of meetings and would like to visit with Administrator Pruitt if he's available. These are the executives we expect to join.

Larry Ziemba (AFPM Chairman of the Board)

Executive Vice President, Refining, Phillips 66

Joe Gorder (AFPM Vice Chairman)

Chairman, President and CEO, Valero Energy Corporation

Greg Goff (AFPM Past Chairman)

Chairman, President and CEO, Tesoro Corporation

Dennis Seith (AFPM Treasurer)

President and CEO, INEOS

Dan Coombs

Executive Vice President of Global Manufacturing, Projects, Refining & Technology, LyondellBasell Industries

George Damiris

CEO & President, HollyFrontier Corporation

Gary Heminger

Chairman, President and CEO, Marathon Petroleum Corporation

Dave Lamp

President and COO, Western Refining Company

Jack Lipinski

CEO, CVR Energy

Jim Loving

Sr. VP Refining, Pipelines and Terminals, CHS, Inc.

Jeff Ramsey

President and CEO, Flint Hills Resources

Jeff Webber (Associate Liaison)

President, AltairStrickland, Inc.

Michael Coyle (tentative on attendance)

President, Manufacturing, Chevron U.S.A., Inc.

Tom Nimbley (tentative on attendance)

CEO, PBF Energy, Inc.

Jerry Wascom (tentative on attendance)

President, ExxonMobil Refining & Supply Co.

I'll fill out the form for both meeting requests and send them back as soon as possible.

Thanks!
Geoff

Subject: AFPM Meeting Request

Ryan, I hope things are well. As we discussed last week, I would like to request a meeting for AFPM's president, Chet Thompson, with Administrator Pruitt in early May. Chet would like to reintroduce himself, discuss some of the issues that are top of mind for our refining and petrochemical members, and of course explore any ways AFPM can be helpful to the Administrator. By way of background, Chet was EPA Deputy General Counsel under President G.W. Bush.

Separately, we also have our Executive Committee meeting on June 15th in D.C. If I'm not overstepping, would it be possible to explore a second meeting with Administrator Pruitt and senior executives from our companies for that afternoon?

Thanks,

Subject: Request for meeting next week with Administrator Pruitt with CEO of Syngenta

Hi Holly and Kenneth,

It was lovely to meet you last week with the Greater Phoenix Economic Council (GPEC). You both and Administrator Pruitt were very helpful. On a separate topic, this is a request for a brief meeting for Monday or Tuesday with Administrator Pruitt with the CEO of Syngenta, Erik Fyrwald, who will be in Washington, D.C. at that time. As you may know, Syngenta is one of the world's largest providers of products to help farmers achieve sustainable crop and food security. Syngenta operates in 90 countries with nearly 30,000 employees and generates nearly $13 B in annual sales. We are providing additional background on Erik below.

Background on Erik Fyrwald, CEO, Syngenta

Erik Fyrwald is the CEO of Syngenta, a position he has held since June 1, 2016. Previously, he served as President and CEO of Univar, a world leader in the distribution of chemistry related products and services, as well as Nalco Holding Co., a leading global provider of water treatment and oil and gas products and services. Additionally, Mr. Fyrwald spent 27 years at DuPont, where he held positions relating to technology, manufacturing, sales and marketing, strategic planning, and management. He also serves on the Board of Directors of Eli Lilly & Company and the Society of Chemical Industry. Mr. Fyrwald holds degrees from the University of Delaware and the Harvard School of Business.

Can you please let us know if a brief meeting would be possible with Administrator Pruitt on Monday or Tuesday?

Thank you,
Sarah

Subject: Schedule Request for Administrator Pruitt

Millan & Sydney—

Good afternoon! Ron Hays with the Radio Oklahoma Network in Oklahoma City shared your contact information with me.

The National Association of Farm Broadcasting will hold its annual Washington Watch event next month in our nation's capital. Farm broadcasters in attendance come from a diverse geography across the US, covering a variety of issues. These broadcast journalists connect with the nation's farmers and ranchers multiple times daily in their broadcasts and are responsible for communicating the developments of regulation and legislation with their listeners and viewers.

Our group of over 35 broadcasters will be at the US Department of Agriculture in the Williamsburg Room (Room 104-A of the Whitten Building) on the morning of Tuesday, May 2, and have invited the Secretary of Agriculture nominee, along with other members of the USDA team to meet with us for remarks and a question and answer session. A request has also been shared with Interior Secretary Zinke's office. I'm reaching out to you to request Administrator Pruitt also speak during our time at USDA. The session would include approximately 5-10 minutes of speaking time from the Administrator, followed by a question and answer session with farm broadcasters.

Please let me know what additional information I can provide and if there are additional contacts at EPA we should contact to include the Administrator in our program.

Thank you for your consideration. I'll look forward to hearing from you or one of the members of your team.

Dear Ryan,

Very glad to meet you with Administrator Pruitt today. With this email, introducing you to Steve Koonin, now at NYU, formerly Undersecretary of Energy in DOE and Provost of Caltech. He's an MIT Ph.D. in astrophysics. I've attached his article on climate science not being settled from the Wall Street Journal.

He's based in New York City but will be down for a meeting of the top physicists on April 28, and could come a day early. Or they could meet in New York City. I think the Administrator would find an 1 ½ to 2 hours very useful for deepening the texture on the climate change discussion. As I mentioned, Steve will have a new article coming up in the WSJ later this month.

Kind regards,

Dan

Subject: Request for meeting next week with Administrator Pruitt with CEO of Syngenta

Hi Holly and Kenneth,

It was lovely to meet you last week with the Greater Phoenix Economic Council (GPEC). You both and Administrator Pruitt were very helpful. On a separate topic, this is a request for a brief meeting for Monday or Tuesday with Administrator Pruitt with the CEO of Syngenta, Erik Fyrwald, who will be in Washington, D.C. at that time. As you may know, Syngenta is one of the world's largest providers of products to help farmers achieve sustainable crop and food security. Syngenta operates in 90 countries with nearly 30,000 employees and generates nearly $13 B in annual sales. We are providing additional background on Erik below.

Background on Erik Fyrwald, CEO, Syngenta

Erik Fyrwald is the CEO of Syngenta, a position he has held since June 1, 2016. Previously, he served as President and CEO of Univar, a world leader in the distribution of chemistry related products and services, as well as Nalco Holding Co., a leading global provider of water treatment and oil and gas products and services. Additionally, Mr. Fyrwald spent 27 years at DuPont, where he held positions relating to technology, manufacturing, sales and marketing, strategic planning, and management. He also serves on the Board of Directors of Eli Lilly & Company and the Society of Chemical Industry. Mr. Fyrwald holds degrees from the University of Delaware and the Harvard School of Business.

Can you please let us know if a brief meeting would be possible with Administrator Pruitt on Monday or Tuesday?

Thank you,
Sarah

Thanks so much for your reply Sydney. We certainly understand. As an alternative, would it be possible for 3 to 5 grower leaders in at some point to meet the Administrator over that period? These would be the people responsible for some of the largest egg producing operations in the country with multiple farm sites and more than 50 million laying hens under production.

Best!

Tom Hebert

Good afternoon Mr. Herbert,

Thank you for reaching out to me and thank you for the invitation for Administrator Pruitt to keynote! Unfortunately, we are unable to participate this time due to conflicts on the schedule those days. Please do not hesitate to reach out to us in the future though! Hopeful you have a great rest of your week.

Best,

Sydney

Subject: Invitation to Administrator Pruitt to Offer a Keynote Address to the Nation's Egg

Producers in DC on May 17, 18 or 19, 2017

Dear Ms. Hupp,

I hope you are well and settling in nicely at EPA.

Please see attached a letter inviting the Administrator to offer a keynote address to the nation's egg producers at a meeting being held by United Egg Producers (UEP) here in Washington, D.C. on May 17, 18 or 19, 2017. Details are included in the letter.

UEP's farmer members raise hens that produce about 95% of the nation's eggs, and most of that egg production will be accounted for by the 150 or so egg producers in the audience listening to Administrator Pruitt's address should he decide to do this. These producers and UEP have been at the forefront of several US EPA rulemakings and policies that are central to how farmers operate today; Clean Water Act matters involving the Concentrated Animal Feeding Operations (CAFO) rule, WOTUS rule and the Chesapeake Bay TMDL as well as Clean Air Act and CERCLA/EPRCA matters as they relate to ammonia and other air emissions. These are tremendously important issues that relate directly to how egg producers can continue to proudly meet their environmental responsibilities and the growing demand for eggs, and in general make their contribution to the nation's safe, wholesome and abundant food supply.

These farmers would appreciate hearing about Administrator Pruitt's plans for US EPA's environmental programs so they can better understand how they could contribute to the success of his efforts and what these plans might mean for their farms and businesses.

Please let me know if you have any questions or if the Administrator can accept this invitation. Thank you in advance for your consideration of this request.

Best!

Tom Hebert

Hi Millan,

Hope you are well. Bernie wanted me to let you know that Administrator Pruitt will be receiving an invitation to the Burton Awards from Bill Burton. You may recall that the Administrator spoke at one of the luncheons a few years ago in his AG capacity. The Burton Awards will take place on Monday, May 22. If he is able to attend, Bernie would like to invite him to sit at his table with Lori Kalani and Senator Luther Strange who has said he would be attending. Administrator Pruitt's wife or a staff member is also invited.

Let me know if you have any questions.

Thank you,

Emily

Rusty,

Ethan Witt mentioned that you are interested in requesting a meeting with Administrator Pruitt when the Bluegrass Region Policy Group visits DC in July. I wanted to connect you with Sydney Hupp, who handles scheduling requests for the Administrator. She's your best contact for facilitating this request.

Please let our office know if you need anything else while you're in town. Hope all is well!

Best,

Katelyn

Hi Sydney and Michelle,

Thanks so much for organizing the meeting for us 'aggies' last week with the Administrator. Our ag groups are part of a larger coalition that represents just about every facet of the economy. Owen McDonough, cc'd here, represents the Home Builders which is one of the major groups that are part of the coalition. I'm reaching out to you now to coordinate a meeting with the coalition and the Administrator. I'll wait to hear back from you on next steps. Happy to chat by phone, if that's easier. Thanks in advance.

Subject: Fw: AFS - GA FLY-IN AGENDA

Sydney: Below and attached please find the info on the American Foundry Society Fly-in as you requested last week.

I may call you about those items I sent you last week to follow up as well.

As always, please let me know if you have any questions.

Respectfully, A.J. Ferate

Please see attached our agenda for the Fly-In in June. Should Administrator Pruitt be available Tuesday morning June 20, we would slot the "Changes at EPA on Regulations - What Does it Mean for the Metalcasting Industry?" in at either 10:15 am or 11:00 am in place of one of those panels. If the Administrator cannot join us – we would be delighted to have Samantha for the

7:30 am Breakfast Session keynote slot on June 21. You can see from the agenda what the other topics are of interest to our members and the caliber of speakers we have lined up so far.

As we have discussed, the American Foundry Society represents the U.S. metalcasting industry – the sixth-largest industry sector in America and the second largest supplier of castings in the world, after China. Metal castings are integral to virtually all U.S. manufacturing activities – especially national defense, energy and infrastructure. In the U.S., castings are used to produce 90% of all manufactured durable goods and nearly all manufacturing machinery.

The American metalcasting industry provides employment for over 200,000 men and women directly and supports thousands of other jobs indirectly. Our energy-intensive, trade-exposed industry supports a payroll of more than $9 billion and sales of more than $30.3 billion annually. Metalcasting plants are found in every state, and the industry is made of predominately small businesses, with 80% of domestic metalcasters having fewer than 100 employees.

Foundries are the mainstay of national defense. All sectors of the U.S. military are reliant on metal castings for jet fighters, ships, tanks, trucks, weapon systems and other vital operations. In fact, the U.S. Department of Defense has established formal programs to convert fabricated components to single-piece castings, improving our military's ability to cost-effectively produce such equipment in the least amount of time.

Metalcasting is one of the most energy-intensive industries in the U.S. Approximately 55% of its energy costs are consumed in melting. Mold making, core making, heat treatment, and post-cast operations also use significant energy. As such, the sector has been particularly hard hit by the regulatory overreach from EPA over the last eight years.

The American Foundry Society (AFS) is the major trade and technical association for the North American metalcasting industry. The association has more than 8,000 members representing over 2,000 metalcasting firms, their

suppliers and customers. We will have about 150 owners, CEOs and executives in Washington for the Fly-In over those two days. Energy and enthusiasm among the attendees will be very high with the new Administration in place in Washington.

Thanks again for your help Stuart.

Best.

Sydney & Aaron,

Sorry for the slow reply, I was on the Hill most of the day.

For the week of the 15th, there's several open dates: May 15, 18, and 19. I'd recommend against Friday the 19th, as it's harder to draw audiences at the end of a Friday.

Those three dates work for events in the late afternoon, early evening. If you'd like to do morning or midday, let me know, and I'll get more dates.

Best,

Adam

Administrator Pruitt,

I hope this finds you well. I am reaching out on behalf of the Society of Chemical Manufacturers & Affiliates (SOCMA). We are a trade association representing the specialty chemicals industry. I have attached a meeting request from SOCMA's CEO, Jennifer Abril.

SOCMA member companies employ more than 100,000 workers across the country and produce some 50,000 products - valued at $60 billion annually - that make our standard of living possible. From pharmaceuticals to cosmetics, soaps to plastics, and all manner of industrial and construction products, SOCMA members make materials that save lives, make our food supply safe and abundant, and enable the manufacture of literally thousands of other products people use daily.

We hope to introduce you to some of the key players in the specialty chemical industry and explain our high priority issues.

Please contact me if you have any questions.

Regards,
Robert

Robert F. Helminiak | Managing Director, Government Relations

Society of Chemical Manufacturers & Affiliates (SOCMA)<http://www.socma.com/>

That would actually be perfect! We have a dinner on the Hill with Sen. Barrasso at 6:30pm this works out well. We have 25-27 board members including a couple senior staff if that is possible?

Thanks so much, Eric

Subject: Wynn, thanks for your help. I have sent the whole spiel in case you need to send this to someone who does not know Mr. Catsimatidis.

John Catsimatidis is a businessman here in New York City and he also

has the #1 radio program which airs Sunday mornings in New York, Washington DC, Philadelphia and Boston area. CatsRoundtable.com (https://en.wikipedia.org/wiki/John_Catsimatidis)

The program is taped during the week. The interview is taped over the phone and takes between 8- 10 minutes. We would very much like to have the Director Pruitt on for a few minutes this week. Anytime the Director has a few minutes I will make it work. Talk about anything he would like. Most recently coal.

Mr. Catsimatidis and Director Pruitt are well known to each other.

We have the top guests in the Country. (see below)

Please let me know if this would be possible and I will work out the all details at your convenience.

Hope to hear from you.

Hi Susan,

Thank you for your email! So on the Mid-Year meeting, would you mind filling out the attached form so that we may discuss in scheduling? And as for the senior executives being in town next week, we actually just had a meeting cancelled at 3PM on the 29th. Is it still possible for your senior officers to meet with him then? It would be from 3:00-3:30 and I would request their names and topic of the meeting. Hoping this still works on your end!

Thank you!

Sydney

Subject: NAHB Meeting w Administrator Pruitt

Hi Sydney!

Thanks for the call today. The National Association of Home Builders is very interested in having EPA Administrator Pruitt speak before a larger group of our members. In an effort to accommodate his schedule, we are willing to create a special meeting during our Mid-Year

Meeting if the Administrator is available. The timing for the meeting would be Thursday, June 15 at a time that is convenient between 12:30 and 2:30 at the Marriott Wardman Park, 2660 Woodley Road, NW, Washington, DC. We would have an audience of approximately 700 members who are interested in hearing about Administrator Pruitt's vision for the agency, how the agency will address some of the high priority issues, and steps that may be taken to improve the regulatory environment for the Nation's home builders. We would also like to reserve some time for questions, if allowed.

Our Senior Officers would also like to meet privately with Administrator Pruitt. They will be in town and available for a quick visit next week, if a meeting on such short notice is possible. They could be available Wednesday, March 29, between 3 – 5 pm or Thursday, March 30, between 8 am – 12 pm. They could also be available for a meeting on Wednesday, June 14 or before or after the address to the members on June 15, if that schedule works.

Please take another look at the calendar and let me know what might be possible. I look forward to working with you and the Administrator in the future.

Thanks for your assistance!

Susan

Subject: Wynn, thanks for your help. I have sent the whole spiel in case you need to send this to someone who does not know Mr. Catsimatidis.

John Catsimatidis is a businessman here in New York City and he also has the #1 radio program which airs Sunday mornings in New York, Washington DC, Philadelphia and Boston area. CatsRoundtable.com (https://en.wikipedia.org/wiki/John_Catsimatidis)

The program is taped during the week. The interview is taped over the phone and takes between 8- 10 minutes. We would very much like to have the Director Pruitt on for a few minutes this week. Anytime the Director has a few minutes I will make it work. Talk about anything he would like. Most recently coal.

Mr. Catsimatidis and Director Pruitt are well known to each other.

We have the top guests in the Country. (see below)

Please let me know if this would be possible and I will work out the all details at your convenience.

Hope to hear from you.

Thank you for all your help with this call. Attached is a one-page reference sheet for next week's call with Administrator Pruitt. I inserted the details below – please let me know if I need to change anything, especially the speaking and Q&A time.

Monthly State Policy Network Energy – Environmental Policy Huddle

This monthly call brings together energy and environmental experts from the network of 66 state-based free market think tanks, national think tanks, state legislators, legal experts and state governors' staff. The goal is to share state-level intelligence, resources and develop strategies on multi-state and national issues

Thursday, May 18, 2017 – 4:00 pm est

Speaker call-in number:

1-800-779-3177

Speaker code – 45324

Participant code - 7139036

Purpose of call: Environmental Protection Agency Administrator Scott Pruitt provides an update on proposed changes to EPA policy and regulations and *how they will impact states*. Many people on this

call were leading the Clean Power Plan push-back in their state and are advocates for devolving decision making to the local level.

Agenda:

Call will start in speaker-only mode (moderated by an operator)

4:00 pm – Welcome, brief background about the monthly call and introduce EPA Administrator Scott Pruitt, Jennifer Butler, State Policy Network

4:03 pm – Administrator Pruitt's remarks (10 minutes)

4:13 pm – Q&A - operator queued -up questions (10 minutes)

4:23 pm – Administrator Pruitt departs and call wrap-up

Main contact: Jennifer Butler

butler@spn.org

(561) 352-0011

Participating organizations:

State Policy Network - State Policy Network supports 66 independent state think tanks that develop practical public policy solutions to help solve some of our country's greatest challenges at the state and national levels.

American Legislative Exchange Council - ALEC is America's largest nonpartisan, voluntary membership organization of state legislators dedicated to the principles of limited government, free markets and federalism. It is comprised of nearly one-quarter of the country's state legislators and stakeholders from across the policy spectrum.

Republican Governors Public Policy Committee - RGPPC serves as the official policy arm of the Republican Governors Association. Bringing together 33 Republican governors from statehouses across the country, the RGPPC is committed to shaping public policy debates at the state and federal levels of government.

It is not a problem – I am sure you all are extremely busy. I can set a call anytime that will be good for the Secretary's schedule. Because so many states are in legislative session, Thursdays and Fridays are best (in the afternoon so folks on the west coast can join us).

Looking at our network's schedule, the next few weeks are pretty open so we can be flexible if there are a few dates / times that work with his schedule.

Thank you!

Subject: State Policy Network - Speaking request

Attached is the completed form requesting Secretary Pruitt to join our monthly State Energy / Environmental Policy Call. To expand the call to other key parties

in the states, I can invite ALEC and RGA to participate. Our three organizations have been on a lot of policy related calls (healthcare and tax reform) together lately.

Background on this call:

We kicked off this call in December of 2015 with the goal of getting as many states as possible to submit requests to EPA for two-year state plan extensions, but after the SCOTUS stay the call transitioned into getting as many states to stop working on a plan. During session our weekly war room calls quickly became the go-to source for state action and info sharing. We not only have state and national think tank policy experts engaged, but also private industry and attorneys associated with state AG offices. We also deal with RPS mandates, carbon tax and messaging proactive free market solutions. The call is now on a monthly basis and would benefit greatly from receiving a first-hand update on changes we will see at the EPA, plus what support the agency needs during this transition.

Look forward to discussing this request. Thank you for your consideration.

Generally yes—but we might be able to figure something out for late morning on the 3rd although it's tight. We have meetings scheduled in the Senate that morning and a lunch on the House side.

On the 2nd (Tuesday) our morning meetings will be at the Willard- and if it's easier for him to come to us that morning but not the lunch meeting we can work that out too. That day he could have his pick of time slots for the afternoon after lunch (assuming the lunch hour still does not work). We have a dinner back at the Willard at 6pm but would be able to come to you up until

about 4:30 I think.

If the 2nd really is too tight, we have a board meeting all day on the 1st… would he be interested at all in attending/speaking to- our opening dinner the evening of the 1st at the Willard? He wouldn't have to stay if he didn't want to… just an option. Congressman Bill Johnson (R-OH) will be attending that dinner as he has been a great ally of ours.

Thank you for all your help with this call. Attached is a one-page reference sheet for next week's call with Administrator Pruitt. I inserted the details below – please let me know if I need to change anything, especially the speaking and Q&A time.

Monthly State Policy Network Energy – Environmental Policy Huddle

This monthly call brings together energy and environmental experts from the network of 66 state-based free market think tanks, national think tanks, state legislators, legal experts and state governors' staff. The goal is to share state-level intelligence, resources and develop strategies on multi-state and national issues

Thursday, May 18, 2017 – 4:00 pm est

Speaker call-in number:

1-800-779-3177

Speaker code – 45324

Participant code - 7139036

Purpose of call: Environmental Protection Agency Administrator Scott Pruitt provides an update on proposed changes to EPA policy and regulations and *how they will impact states*. Many people on this call were leading the Clean Power Plan push-back in their state and are advocates for devolving decision making to the local level.

Agenda:

Call will start in speaker-only mode (moderated by an operator)

4:00 pm – Welcome, brief background about the monthly call and introduce EPA Administrator Scott Pruitt, Jennifer Butler, State Policy Network

4:03 pm – Administrator Pruitt's remarks (10 minutes)

4:13 pm – Q&A - operator queued -up questions (10 minutes)

4:23 pm – Administrator Pruitt departs and call wrap-up

Main contact: Jennifer Butler

butler@spn.org

(561) 352-0011

Participating organizations:

State Policy Network - State Policy Network supports 66 independent state think tanks that develop practical public policy solutions to help solve some of our country's greatest challenges at the state and national levels.

American Legislative Exchange Council - ALEC is America's largest nonpartisan, voluntary membership organization of state legislators dedicated to the principles of limited government, free markets and federalism. It is comprised of nearly one-quarter of the country's state legislators and stakeholders from across the policy spectrum.

Republican Governors Public Policy Committee - RGPPC serves as the official policy arm of the Republican Governors Association. Bringing together 33 Republican governors from statehouses across the country, the RGPPC is committed to shaping public policy debates at the state and federal levels of government.

Subject: State Policy Network - Speaking request

Attached is the completed form requesting Secretary Pruitt to join our monthly State Energy / Environmental Policy Call. To expand the call to other key parties in the states, I can invite ALEC and RGA to participate. Our three organizations have been on a lot of policy related calls (healthcare and tax reform) together lately.

Background on this call:

We kicked off this call in December of 2015 with the goal of getting as many states as possible to submit requests to EPA for two-year state plan extensions, but after the SCOTUS stay the call transitioned into getting as many states to stop working on a plan. During session our weekly war room calls quickly became the go-to source for state action and info sharing. We not only have state and national think tank policy experts engaged, but also private industry and attorneys associated with state AG offices. We also deal with RPS mandates, carbon tax and messaging proactive free market solutions. The call is now on a monthly basis and would benefit greatly from receiving a first-hand update on changes we will see at the EPA, plus what support the agency needs during this transition.

Look forward to discussing this request. Thank you for your consideration.

Hello Ms. Hupp !

Hope this finds you well.

Over the past 3 weeks I have sent 2 emails, left 1 voice message, and 1 LinkedIn Message:

- On Saturday 4-1-2017, I replied to your below message – with the completed Meeting Request Form attached.

- On Sunday 4-9-2017, I sent a follow-on email – again with the completed Meeting Request Form.

- On Thursday 4-13-2017 i left a voice message on your office phone.

- Sometime last week I also sent you a LinkedIn invitation.

I'm certain that you are very busy, and since I have not received acknowledgement of any sort from you, I'm unable to know if any of my messages are even making their way to your attention.

Please, Is it at all possible that you could sent me a quick note back, to help me know if we should seek another means to reaching you and/or Director Pruitt?

We have already met and spoken with Mr. Tom Dadey, and still look forward to having arranged a short meeting between Mr. Pruitt and EPSI's Mr. Steve Sexton

Thank You again Ms. Hupp

Best Regards

Mark Ranalli

Subject: per Karen Bianco from your office - we are requesting a quick meeting between EPA Secretary Pruitt and EPSI President Steve Sexton

Dear Ms. Hupp,

Per a friendly conversation today (approx. 2:30 pm) and direction from your Karen Bianco to Mr. Doug R. Jarvis of Green Visions Solar in Upstate New York, Doug and I are writing to

respectfully request/schedule a 5 to 10 minute appointment for a telephone conversation between Mr. EPA Secretary Scott Pruitt and EPSI (Environment & Power Systems International (http://www.vocgen.com/) President, Mr. Steve Sexton; that Mr. Sexton may discuss how EPSI's VOCGEN technology can uniquely help our President Trump to revitalize U.S. manufacturing and jobs and careers in America, – and while directly positively affecting a cleaner environment than called for by the Clean Power Plan.

As background for that conversation, assuming Secretary Pruitt has not heard this yet from Mr. Tom Dadey, we attached the VOCGEN National Plan and drafted the below talking points:

• the Vocgen eliminates the age-old cost vs. compliance paradigm; making cost-effective air pollution controls and clean energy available to all industrial operations;

• Vocgen is a market-based energy (combined heat and power) and air pollution control solution designed to serve over 46,000 US industrial operations;

• Vocgen gensets (1 unit) reduce energy consumption; generating positive cash flows exceeding $1 Million/year;

• the Vocgen technology has been vetted by:

U.S. DOE - Department of Energy, Berkeley National Labs

U.S. EPA - Environmental Protection Agency

U.S. DARPA - Defense Advanced Research Projects Agency, an agency of the U.S. Department of Defense

GTI - Gas Technology Institute (formerly 1976 founded Gas Research Institute)

EPRI - Electric Power Research Institute

ACEEE - American Society for an Energy-Efficient Economy

CEC - California Energy Commission

We look forward to hearing from you in regard to scheduling a date and time.

Thank You Ms. Hupp and Ms. Bianco !

Should you have any questions regarding the VOCGEN technology or EPSI, toward scheduling the appointment, please feel free to call either of us at your convenience.

Best Regards

Doug and Mark

Ryan

Hope you are well.

I wanted to email you to request a meeting with Administrator Pruitt with the CEO of Republic Services, Dan Slager. As you know Republic Services is the second largest waste company in the country.

Purpose of the meeting will be to update Mr. Pruitt on the issues we are dealing with at Republic and the issues surrounding the West Lake Landfill in Missouri.

I am happy to work with your staff to set up a meeting in the coming weeks or month.

Thanks and let me know what else you need from us.

Lincoln,
Please find attached the SAVE THE DATE for July 20th in which our Roanoke Cement plant in Virginia will host the EPA industrial showcase event

Our plant has achieved the energy star award 11 years in a row and it would be an honor if Administrator Pruitt could come and speak at the celebration event.

Please advise the next steps to see if this is a possibility or let me know what questions that you may have,
Don Ingerson

Good morning Geoff,

Hope this email finds you well! Ryan forwarded me the below email to facilitate getting the meetings mentioned on the Administrator's calendar. Are you all based in DC or will people need to travel in for the first meeting as well as the second? Trying to get an idea of which May days you would like for me to look at for your group. Additionally, would you mind filling out the attached document at your convenience?

Thank you!

Subject: AFPM Meeting Request

Ryan, I hope things are well. As we discussed last week, I would like to request a meeting for AFPM's president, Chet Thompson, with Administrator Pruitt in early May. Chet would like to reintroduce himself, discuss some of the issues that are top of mind for our refining and petrochemical members, and of course explore any ways AFPM can be helpful to the Administrator. By way of background, Chet was EPA Deputy General Counsel under President G.W. Bush.

Separately, we also have our Executive Committee meeting on June 15th in D.C. If I'm not overstepping, would it be possible to explore a second meeting with Administrator Pruitt and senior executives from our companies for that afternoon?

Thanks,

Geoff Moody

Hi Sydney,

Just checking in again to see if we can get on Administrator Pruitt's schedule for the 27th or 28th? If Mr. Pruitt's schedule does not allow, would it be possible to meet with one of his advisors, perhaps his Chief of Staff Ryan Jackson?

Thank you,

Joe

Subject: Meeting request from Sorghum Producers

Hi Sydney,

The good folks over at EPW suggested that I reach out to you.

The CEO and board president of the National Sorghum Producers will be in town the last week of April and would greatly appreciate the opportunity to meet with Administrator Pruitt. We'd like to express our appreciation on some recent actions by EPA, specifically on WOTUS and Chlorpyrifos. In addition, we would like to discuss the Grain Sorghum Oil Biodiesel Pathway Petition, originally submitted to EPA in July, 2016 and some specific crop protection concerns.

We're hopeful that a meeting could be possible on Thursday (April 27th) or Friday (April 28th). However, they are willing to adjust their arrival times if Wednesday (26th) offers the only opportunity.

Thank you,

Joe

Subject: RE: Request for Meeting Regarding ELG Rule

My name is Cheryl Woodward and I will assist you in the logistics for your meeting at EPA on Tuesday, May 16th at 4:30 pm. The instructions/directions to EPA is below and if you have any questions please contact me. Look forward to seeing you all.

Directions: If you come by Metro, the Federal Triangle metro stop is directly below the building entrances. You would leave the metro station and go up all three sets of escalators from the train otherwise two escalators then do a small U-Turn to the right heading toward 12th street, the South Lobby entrance is directly and immediately to your right (Glass Doors -EPA Signified on Glass).

EPA address is 1200 Pennsylvania Avenue, NW. If you are coming by taxi/vehicle, you want to be dropped off on 12th NW, which is between 12th and Constitution Avenues. It is almost exactly half way between the two avenues on 12th street with Federal Triangle Metro sign and Trump Hotel Towers side entrance can be used as a landmark. From 12th Street, facing the building with the EPA and American flags, walk toward the building (under the flags) and take the glass door on your left hand side with the escalators going down to the metro on your left. This again will be the **South Lobby of the William Jefferson Clinton building.**

Once inside the building, security will prompt you to scan all items such as bags, coats etc., and then let the guards know that you were instructed to call Cheryl Woodward at 564-1274 or Michelle Hale at 564-1430 to escort you to the meeting with the Administrator. Security will make temporary cards for everyone. Allow for 15 minutes to get through the process.
