Subject: WARNING IN LIEU OF CIVIL PENALTY

To Whom It May Concern:

On May 19, 2012, U.S. Coast Guard personnel from my office received a report from your vessel, concerning the following violation:

Violation Cite: 33 U.S.C. 1321(b)(3)
To wit: I have determined that 02 gallons of hydraulic oil into Bayou Lafourche, a navigable waterway of the United States, from the M/T C-LEGACY and that Edison Chouest is the owner for that vessel.

It was determined that justice will be best served by issuing you a warning rather than pursuing a monetary civil penalty for your conduct as set forth above. You are advised that this warning will become a matter of Coast Guard record and will be considered for any future enforcement actions against you. If you feel this warning is not warranted, you may decline it by signing and dating under the statement below and returning this letter to the address above within 30 days of the date of the letter. However, your refusal will result in civil penalty proceedings being initiated against you in accordance with 33 CFR 1.07. You may contact Petty Officer Kavanaugh at the number above with any questions.

Sincerely,

C. D. HOPKINS

NOTICE OF FEDERAL INTEREST FOR AN OIL POLLUTION INCIDENT, MSU HOUMA
CASE NUMBER: NRC#1012003/CASE#12-35

To whom it may concern:

On or about May 19, 2012, an oil pollution incident occurred or threatens to occur with the M/V C-LEGACY owned by Edison Chouest in Bayou Lafourche. You may be financially responsible for that incident. Under Federal Statutes, the United States Government may take action to minimize damage to the public health or welfare that is threatened or that may be caused by this incident.

Under the Oil Pollution Act of 1990, the responsible party is liable for, among other things, removal costs and damages resulting from this incident. The failure or refusal of the responsible party to provide all reasonable cooperation and assistance requested by the Federal On-Scene Coordinator (OSC) will eliminate any defense or entitlement to limited liability which otherwise might be available under the act.

You are advised that your failure to properly carry out the removal of the discharge as ordered by the OSC or to comply with any administrative orders necessary to protect the public health and welfare, may subject you to additional penalties. For such failure, owners, operators, or persons in charge of the vessel or facility from which the oil is discharged are subject under the Federal Water Pollution Control Act (FWPCA), as amended, to a civil penalty of up to $40,000 per day of violation or up to three times the costs incurred by the Oil Spill Liability Trust Fund. Should you require further information concerning this matter, please contact me at the above address or telephone number.

As long as the OSC determines that you are taking adequate actions in this matter, Federal removal action will usually be limited to monitoring the progress of your actions and providing guidance as necessary. Under the FWPCA, as amended, your response actions may be taken into account in determining the amount of any penalty assessed as a result of the discharge.

Sincerely,

C. D. HOPKINS
Petty Officer Second Class
Pollution Investigator
