Thank you! I don't expect any issues of course. Just want to do our thing!

Hi Vince

Is EPA ready for me to submit early next week?

Thanks Martyn

Subject: Revised Characteristics of Carcinogens Paper

Dear all

I have incorporated the helpful comments of John, Kurt, Ivan, Jason, David, Bob, Paul and Robert into the essentially final version of the paper. I have added to the legend of Figure 3 but could use some help in making it better. I have also asked Ivan to help me with the receptor characteristic description. The paper is currently slightly too long at 5,213 words and so I may edit it further once I have received comments on the paper from the internal review at EPA and IARC.

Pleased add any conflicts of interest and grant support. Kurt has provided me with names to acknowledge in the working group. If I do not hear from you I will assume you are ok with everything and have nothing to add.

The attached version of the paper dated 2-20-15 has all the changes accepted. The 2-18-15 version shows almost all the tracked changes.

Hoping to get this out the door soon. Thanks for all your help,

Martyn
