TO: Alice Furst

FROM: Darrell Plummer
KDHE

DATE: 4-17-87

TIME: 11:30

SUBJECT: Cherokee Co - Discharge near Baxter Springs

SUMMARY OF COMMUNICATION

They have received a complaint from Beverly Brown that waters from mine shafts is spilling over her property. The shafts are on property owned by L. C. Pickle (316)-856-2477. The KDHE Chanute office investigated the complaint. Plummer is preparing the report and wanted to know if this area was in our study area.
He said two(?) shafts have filled up with water and now are spilling over. They have sampled it & found high Iron. No human health problem. A potential problem for aquatic life.
The discharge is red & has gotten alot of attention.
Location T34 R24E Sec 34
Pittsburg Sun had a story about it on March 15 "Troubled stream". The newspaper cited levels of metals much higher than KDHE found.

CONCLUSIONS, ACTION TAKEN OR REQUIRED

I'll let Earlene know this
