Tmc 01 ... 07-8 Reference #25

TELEPHONE CONVERSATION RECORD

DATE OF CALL 2-2-88 **TIME OF CALL** 1000

PERSON CONTACTED Marvin Hudwalker

COMPANY Hudwalker + Assoc **TITLE** PE

SUBJECT OF CALL Landfill on site **TELEPHONE #** 314-756 6775

CONVERSATION Mr Hudwalker told me that the entire area the landfill owns is 502 acres and that they have a state permit to fill approximately 60 acres. He also said that the huge tailings pile located directly east of the landfill is not part of their property. It still belongs to St Joe Minerals and is approx 100 acres.

He said that the land is leased to the St. Francois County Environmental Corp and the owner is still St Francois County.

He said that the landfill wants to expand into 200 more acres of the pile. The NDNR has requested that they install monitoring wells around the landfill to establish if the ground water contains significant landfill leachate. The wells were installed in January 1987
