TELEPHONE CONVERSATION RECORD

DATE OF CALL: 7-26-82 TIME OF CALL: 9:30a

PERSON ASKED FOR: Dave Leahe PERSON CALLING: PMF

OFFICE AND/OR PHONE: St. Louis COE.

SUBJECT: Pine Ford Lake Public Meeting and Project Status.

DISCUSSION: Told Dave we would not attend the 7-29-82 public meeting @ Eureka.

Asked of project status. Asked if we received preliminary summary report mailed 7-10. Told him we did not — he will send 6 additional copies. Preliminary recommendations are

1. deauthorize Pine Ford
2. Place Pendale and I-38 on Inactive status.
3. Additional studies of water supply & flood control in Meramec/Big River Basin
4. Authorize COE to study Big River bottom wastes.

Told him it would be important for COE, EPA and the State to work on the bottom waste problem. Told him I would inform hazardous staff of the recommendation so they won't be surprised.

He agreed.
