9/16/02 Herculaneum Lead Smelter G9011.L.01.0022.00

0615 STM R. Schuler leaves office

0720 Arrive at office trailer, Today's weather will be nice - cloudy/hazy this am high's in the upper 7C's today. No Rain is expected. Activities today include: (1 Send out Data Results for homeowners out to 1.5 miles.
(2) Unload Hi-Vols (3) Oversight of Excavation and backfilling.

0830 STM Schuler makes corrections to <400ppm 5th mailing, Reno puts on labels and stuffs envelopes.

0850 The Jefferson Co. H. Dept will be unable to make it down today. START HAD TO Re-schedule the interior LBP Assessment. ~~and Interior~~ ~~for~~ RCS As part of the speciation study.

0900 Schuler updates logbooks and ~~plan~~ Activities

0930 STM's Reno & Schuler oversee exc. Activities over the weekend. Herculaneum received approximately 2+ inches of Rain. The ER crew that is present is cleaning up after

9/16/02 Herculaneum Lead Smelter TO-27

ALL The washout areas.

1000 Activities include: ① - Cleanup @ 491 Lang, The crew will continue to clean up washout areas. (At This point The soil is very Moist. Schuler and Reno MAIL letters (Results out to 1.5 miles)

1030 - Reno and Schuler @ 695 Joachim to perform Exterior - Soil Recon. In Situ Nitrate Readings were taken in GRAVEL AREAS instead of collecting spoons (OSC Silver suggested we do it This way) and seems more practical due to The large amount of GRAVEL present.

1140 LEAVE 695 Joachim

12:00-12:30 Lunch

1300 - Reno Enters LAB DATA & e-mails EPA's Bruce Morrison Interior & Ext. Recon

1330 - STM Reno & Schuler out to perform Soil Recon sampling at 440 Thurwell and 453 Thurwell.

1500 Complete Sampling at Residences. STM Schuler and Reno SPEAK with Mrs. Biebel. WE (STM's) will drop off her Soil RESULTS - Tomorrow in The Am. She was satisfied and RELIVED to hear that her

9/16/02 HLS G9011.L.01 OC27-00

RESULTS were less Than 400ppm:

1600 - Close up Activities for The day.

OSC Silver will not be on-site tommorrow, still on Response - Remo pulls Hi-Vols - F8

~~1630~~ RCS did not Run due to a power failure

16:45 LEAVE Site; End of Day.

1800 Arrive at office

Ryan Schuler
