9/25/02 Herculaneum Lead Smelter G9011.L01002700

0715 Schuler contacts Beno to inform her that Schuler will be picking up the other Niton (Morrison's) ~~for~~ JMK from Dave Kinroth this morning.

0730 Beno arrives on site. Today's weather will be nice with highs in the lower 70's. Today's activities will include: ① oversight of excavation and backfilling by ER, ② Shoot soil samples collected for recontamination, ③ Possibly finish soil sampling for recontamination, ④ Collect Hi-Vols, and ⑤ Schedule interior recontamination sampling.

0745 OSC Silver calls. Silver will not be on site today and maybe not tomorrow. Walker w/ Doe Run and Silver spoke yesterday. ER should start excavating Bates Park this morning.

0800 Beno calibrates the Niton then begins to shoot soil samples collected yesterday for recontamination.

JMK 0905 Schuler arrives on site.

0920 Beno finishes shooting samples.
