11-22-02 Herculaneum Lead Smelter TO-27

0735 Reno arrives on site. The weather today will be cool with highs in the ~~the~~ mid 40's. Today's activities include: ① reclean of the bedroom/bathroom carpet at 615 Main @ 800, ② Set-up Hi Vols to run tomorrow 11-23-02, ③ prep samples for shipment, ③ do leak tests on all 3 Ritons, ④ file lab data, and ④ perform sampling at 411 Jefferson per homeowners request. STM Schuler and OSC Silver will not be on site today.

0740 The ER cleaning crew stops by the trailer. The cleaning of the carpet will only be vacuuming and scotch guard. Due to the small area and the condition of the carpet, the water extractor will not be used.

0800 Reno arrives at 615 Main. The crew will vacuum the carpet several times then scotch guard. Reno put a call into Cliff Asberry with Doe Run ~~about~~ Mr. about the cleaning and sampling. Left a message

0840 The crew is done cleaning.

0850 Asberry to 615 Main to conduct sampling

11-22-02 Herculaneum Lead Smelter TO-27

0900 Back to trailer. Prep Hi-Vols collected yesterday for shipment

0940 Bruce Morrison calls. Suggests if street cleaning experiment occurs again to clear area. Then allow street sweeper to pass over. Sample right after sweeper goes by. Reno assumes a sample will be collected prior to sweeper passing by. Morrison is also looking for the name and number ~~from~~ for the soil scientist from the Local Extension that was at this weeks CAG meeting.

0950 Cleanup work needs to be done to the laptop. Reno performs a Disk Clean and then a Scan Disk.

1000 STM Swaney calls to discuss holiday leave schedule. Reno will discuss more indepth w/ Schuler on Monday

1025 Load Hi-Vol cartridges.

1045 Load Hi-Vol monitors to run tomorrow 11-23-02

1115 Back to trailer. Hi-Vols are set. Activities include touch up work at 299 Broadway and
