Conversation With Kara Steward Job Number 62760.05.12

Subject Avery HRS score

- EPA Removal program is looking into taking action at the Avery site
- Monica wants to pass the site to Removal Program.

- Site score includes only seep. Monica believes the seep is excluded from the site score due to Interpretation of CERCLA petroleum exclusion. Seep came from release of petroleum product from tank + piping - this is not a CERCLA waste

Action: Recalculate score - remove seep + river sediments. Resubmit score + HRS memo. Rewrite recommendations memo stating ~~need~~ recommendation for removal of oil not'l by proper authorities * Done 1/25/93 (DCN 62760.05.20.256.15.61)
Sent Monica HRS Memo, SI rec. memo, Prescore printout + PRESCORE flowscore file.
