Haller Lk

5 of 12 sites recommending f/u

applying for fed. grant ($150K) for follow-up
public health & service thru COC
* Check ERRIS
3 or so on DOE's 3012 list

Green Lake - little evidence of off gasing
no recommendations for f/u based
upon historical info, age, potential
industrial dumping
f/u strictly depended upon from grant $ being
made available (at this time); no county $

no immediate alarming information
11 of 12 sites tested - Sixth Ave S. not
Genesee - different results for School Dist. / City (Parks) property
school district prop. never capped - leachate
running off
high gas concentrations
Parks - has gas vents
12" clay cap
