Date

To

From Chuck Rice - 8/17/84

Never been to site
Allegations by employee - fumes - Labor + Industries

Dump stuff on hog fuel pile - unknown how long they did this - 6 mn period

Allegation that paint solvents were dumped onto hog fuel pile - now inject directly to boiler -

USEPA SF
1560750

→ outside uncovered - no idea whether site paved - unknown what quantities

total volume - 1500 - 2000 gals
~~all~~ - allegations -
Never substantiated - any ground contam -
- sampling may be warranted -

sampling effort

Tires - emissions - Mark Hooper in EPA - Air Compliance Group - 1979

Huge boilers - very high temperature -
- wouldn't see anything coming out of stacks - incomplete combustion would have nasties in it but not com-
