Tom,

Pls. expedite: ASAP

"Hauler" picked up from Renton K-9 a load of Pre-Polymer materials in cans (?) that still had some liquids in it.

Hauler tried to dump materials at Renton Transfer Station. Authorities from both Cedarhills and Dept. of Health (Mel Adrieson 228-4940 and Frank Russo 228-4940 respectively) would like them out of their station.

Joanne Chance/BSS will react as soon as you have completed your investigation and contacts - Chempro will pick up and you will need a manifest.

We should investigate the origin of these materials and the responsible persons.
