RCRA LAND DISPOSAL INVENTORY
(Print all information neatly in block letters using black ink)

1. Facility Name SOUTH DAYTON LANDFILL

2. A) Location W of SPRINGBORO PIKE
(side of road) (road name)

B) 1.05 miles N of RIVER ROAD
(distance) (direction) (intersection)

or
(town)

in MIAMI 1 in 57
(township and section) (county)

C) Long: 84 deg. 13 min. 12 sec. Lat: 39 deg. 43 min. 33 sec.

USGS quad SOUTH DAYTON 147NW

3. Owner

A) Name CYRIL GRILLOT AND HORACE BOESCH

B) Address 2011 SPRINGBORO ROAD

C) City MORAINE

State OH Zip 45439

D) Phone 513 299 5843

4. Operator

A) Name ALCINE S. GRILLOT

B) Address 2 0 0 1 S P R I N G B O R O R O A D

C) City M O R A I N E

State O H Zip 4 5 4 3 9

D) Phone 5 1 3 2 9 9 8 8 9 1

5. Local Health Dept. M O N T G O M E R Y C O U N T Y

6. Has a permit been issued for facility operation? (1) yes, (2) no (circle one)

7. If yes, what type? (1) NPDES, (2) Air, (0) other (circle one)

8. The facility is (1) on-site, (2) off-site, (circle one)

9. If on-site, what type? (1) industrial, (2) commercial (3) institutional, or (4) governmental (circle one)

10. Is facility for (1) private, (2) restricted public, or (3) general public use? (circle one)

11. Method of Disposal (1) landspreading (sludges, etc.) (2) covered surface dumping, (3) uncovered surface dumping, (4) covered trench or pit, (5) uncovered trench or pit, (6) subsurface injection, (0) other (circle any that apply)

12. History of Site
A) Year site first used U N *

B) Is site presently in use? (1) yes, (2) no (circle one)

C) If no, is it closed? (1) yes, (2) no (circle one)

D) If yes, year site closed

13. General Site Characteristics
A) Total size of site 4 0 acres

B) Total area used thus far 4 0 acres

C) Unused area available for disposal 0 acres

D) Area used per year U N acres

E) Remaining lifetime 1 2 years

F) Surrounding land use (1) residential, (2) recreational, (3) commercial, (4) industrial, (5) mining, (6) airport (7) woodland, (8) natural preserve, (9) agricultural (10) unused or idle land, (0) other (circle any)

(13 con't.)

G) Areas site located within (1) swamp, (2) marsh, (3) wet meadow, (4) pond or lake, (5) river overflow, (6) flood plain, (7) critical habitat, (8) sole source acquifer recharge zone, (9) karst terrain, (10) sandstone quarry, (11) limestone quarry, (12) sand or gravel pit, (13) ravine, (14) stripmine, (0) other (circle any)

H) Which areas are affected? 6/ / / / / / / 1 2/ / / /

14. Surface Drainage

A) General direction of flow W

B) Distance to nearest stream(s) or body(ies) of water
(1) 5 0 0 feet, (2) _____ feet

C) Name of streams or body(ies) of water
(1) GREAT MIAMI RIVER
(2) _____

D) Indicate use or designation (1) primary contact, (2) secondary contact, (3) irrigation (4) potable water supply, (5) livestock watering, (6) process water, (7) non-contact cooling water, (0) other (circle any)

15. Location of Nearest Wells

	Direction	Distance in feet	Township/section	Well type*
A)			/	
B)			/	
C)			/	

*(1) private domestic, (2) private agricultural, (3) private inudstrial, (4) semi public, (5) public, community, (6) public, Non-community, (7) monitor, (0) other

16. Ground Water

A) Depth to seasonal water table 2 0 feet

B) Major ground water usage (1) livestock water supply, (2) potable water supply, (3) irrigation, (4) process, (5) non-contact cooling, (0) other (circle any)

17. Geology

A) Waste(s) is (are) in direct contact with:
(1) sand and gravel deposits, (2) limestone, (3) sandstone, (4) shale, (5) strip spoil, (6) sandy soil, (7) clayey soil, (8) loamy soil, (0) other (circle any)

B) Average depth to bedrock __ __ U N feet

C) Type of bedrock (1) limestone, (2) sandstone, (3) shale (circle any)

D) Soil overburden upon bedrock (1) none, (2) clayey, (3) loamy, (4) sandy (circle any)

18. Operations

A) Are Environmental Safeguards in use? (1) yes (2) no (circle one)

B) If yes, what kind? (1) artificial liner, (2) soil liner, (3) leachate collection, (4) leachate treatment, (5) dikes, (6) levees, (7) monitor wells, (0) other (circle any)

C) Is cover material applied? (1) yes (2) no (circle one)

D) If yes, what type? ____________________

E) What is frequency of application? ____________________

19. Visible or Potential Problems

A) Water
(1) none, (2) leachate contamination of surface water, (3) leachate contamination of ground water, (4) site located within 200 feet of a stream or body of water, (5) site within 1000 feet of a well, (6) less than five foot separation between waste and seasonal high water table, (0) other (circle any)

B) Air
(1) none, (2) open burning, (3) residual dust, (4) gas generation (0) other (circle any)

C) Safety
(1) none, (2) unlimited access, (3) fire hazard, (4) disease transfer, (5) explosive, (6) unsupervised, (7) reduced visibility from dust or smoke, (8) flooding due to flood plain constriction, (9) site within one mile of a runway used or planned for piston-type aircraft or within two miles of a runway used or planned for use by turbojet aircraft, (10) toxic or poisonous waste, (0) other (circle any)

(19 con't.)

__/__/__ D) Vectors and Vermin
(1) none, (2) birds, (3) flies, (4) rodents, (5) mosquitoes
__/__ (6) other (circle any)

__/__/__ E) Aesthetics
(1) none, (2) unsightliness, (3) odors, (4) litter, (5) lack of cover,
__/__ (6) other (circle any)

20. This disposal facility (1) does, (2) does not, (circle one) warrant further investigation.

21. Additional Information (include explaination of any categories marked other)

A) __ __ Z/SOLID WASTE LICENSE __
B) 22 J/SCRAP METAL *
C) 22 K/EMPTY DRUMS *
D) __ __ __/__
E) __ __ __/__
F) __ __ __/__
G) __ __ __/__
H) __ __ __/__
I) __ __ __/__
