ACKNOWLEDGEMENT OF NOTIFICATION OF HAZARDOUS WASTE ACTIVITY
(VERIFICATION)

This is to acknowledge that you have filed a Notification of Hazardous Waste Activity for the installation located at the address shown in the box below to comply with Section 3010 of the Resource Conservation and Recovery Act *(RCRA)*. Your EPA Identification Number for that installation appears in the box below. The EPA Identification Number must be included on all shipping manifests for transporting hazardous wastes; on all Annual Reports that generators of hazardous waste, and owners and operators of hazardous waste treatment, storage and disposal facilities must file with EPA; on all applications for a Federal Hazardous Waste Permit; and other hazardous waste management reports and documents required under Subtitle C of RCRA.

V. MISCELLANEOUS

A. Does transporter haul Hazardous Waste into the U.S. from Abroad? — X — No international shipments

B. Does the transporter mix Hazardous Waste of different DOT shipping descriptions by placing them into a single container? — X —

NOTE: If (A) or (B) were answered "Yes" then the Transporter is also a Generator and must comply with the Generator Regulations.

VI. REMARKS

Remarks: All manifests/shipping papers are maintained at the point where a hazardous waste shipment enters the ICG system. Only 22 such shipments have been made since November 18, 1980. A central computer system can be used to locate any car in the system should it be required. It does not seem efficient to require this small number of manifests be maintained in a central location.

Dear Mr. Bossard:

An inspection of the above facility was conducted by a representative of the Illinois Environmental Protection Agency (IEPA) on October 29, 1981. The inspection was conducted under the authorization of the United States Environmental Protection Agency (USEPA). A copy of the inspection report is enclosed. The purpose of the inspection was to determine your facility's compliance status with the Resource Conservation and Recovery Act (RCRA) as amended. We are pleased to report that your facility was found to be in compliance.

Your cooperation and efforts in this matter are appreciated. Should you have any questions about the report, please contact Cliff Gould at the above number.

☐ Information only

SUBJECT: Cook Co/General Iron Corp Chicago/ICG Railroad ILD 005 054443

☐ Response requested

This site is the corporate office for the ICG Railroad.

All manifests/shipping papers are maintained at the point where hazardous waste enters the ICG system. Only 22 such shipments have been made since November 19, 1980. A central computer system is used to locate any car on ICG tracks, should it be required.

This in place system seems to be able to sufficiently track shipments of hazardous waste that it would seem unnecessary to require each freight station to notify, or to require that manifests/shipping papers be maintained in a central location.
