SUBJECT OF CONTACT:
104(e) Response Letter; dated 10/17/86: M. Marsh to L. Cohen

RESULT OF CONTACT:
Mr. Briggs provided the following information:

- Todd is a shipbuilding and ship repair company, operating on Harbor Island since 1916.
- The facility uses solvents, paints, thinners, caustics, and acids.
- No plating is performed at the site
- Pipecleaning does occur at the site.
- Asbestos is removed by subcontractors as part of ship repair operations.
- Todd has leased property from other companies. (See 104(e) response letter G2-03-056
- Waste streams are identified in the Annual Generator Reports.
- Waste disposal practices and waste storage facilities are documented in the RCRA Inspection Reports;

RESULT OF CONTACT:

- MR. Briggs suggested we contact Julie Selek for RCRA Inspection Reports.
- I Requested a listing of chemicals by area on the Todd facility at Harbor Island, including chemical components. MR Briggs stated that they could provide a listing, without components or copies of the 1000 MSDS. They did not have the labor to provide a listing with components.
- MR. Marsh stated that they ~~are~~ do not concur with EPA that ~~Superfund~~ ~~is a~~ Harbor Island is a Superfund site. However, if we put our requests for additional information in writing, they would respond to the request.
- I told MR. Marsh and MR. Briggs that a follow-up letter would be forthcoming
